LADY BLACKBIRD

After months of anticipation, Lady Blackbird's already critically acclaimed debut album, **Black Acid Soul** which was recorded in legendary **Studio B (Prince's room)** in Sunset Sound and produced by Grammy-nominated **Chris Seefried** has now been released via **Foundation Music/BMG**.

The long awaited release follows a rapturous recent UK tour that saw Blackbird (aka Marley Munroe) perform a sold out show at London's iconic **100 Club** and across the country at festivals including **We Out Here** and **Red Rooster Festival** in the Suffolk countryside.

To celebrate the release, Lady Blackbird recorded a live version of her latest single '**It'll Never Happen Again**' at the iconic **Capitol 'A'** studio in LA. The song is a gentle, yet powerful, reinvention of another poignant obscurity written by **Tim Hardin** and which first appeared on the folk singer's seminal 1966 debut.

With a voice that has stopped critics in their tracks, Lady Blackbird is a revelatory new talent with music that transcends the jazz scene through which the LA-based artist is rooted. Reflecting influences as varied as **Billie Holiday**, **Gladys Knight**, **Tina Turner** and **Chaka Khan**, with critics drawing comparisons to **Adele**, **Amy** and **Celeste**, Lady Blackbird's distinct and beguiling talent is not one to be missed.

ANAÏS MITCHELL

BMG

RELEASE DATE: JANUARY 28, 2022

BIO

As funny as it may sound, **ANAÏS MITCHELL** has spent the past 15 years in some kind of hell. OK, not actual hell, but the multi-faceted world of *Hadestown*, a musical project she began in Vermont in 2006 that has grown into a Tony®- and Grammy®-award-winning Broadway phenomenon with touring editions now delighting audiences as far away as South Korea.

As it did for many artists, the pandemic unexpectedly offered Mitchell a blank slate to reconnect with her own music. The result is a new self-titled album made with close collaborators from Bon Iver, The National and her own band Bonny Light Horseman. Mitchell's first collection of all-new material under her own name since 2012's *Young Man in America*. Produced by Mitchell's Bonny Light Horseman bandmate Josh Kaufman, the album proceeds to chronicle Mitchell's reconnection with the Vermont roots that have been so formative in her life and music. Dubbed by NPR as "one of the greatest songwriters of her generation," Mitchell is a master of the worlds of narrative folksong, poetry and balladry, and those talents are evident from the first moments of the new album.

Mitchell will debut the new material during various headline tours in the U.S. and Europe in 2022, at which she'll be accompanied by players from the album. On stage, she can't wait to further hone the sights, sounds and scenes that bring the songs to such vivid life. "I've spent a lot of time trying to write in the voice of other characters, especially with *Hadestown*. It's fun for me, but these songs are not that," she says. "Weirdly, they're all me. The narrator is me. That's why it felt right to self-title the album. It felt like after so many years of working on telling other stories, now here are some of mine."

SONGS OF LOSS AND SEPARATION

Songs Of Loss and Separation, the sprawling second album from **TIMES OF GRACE** is insistent in its bluesiness, bleeding distortion and emotion, weaving effortlessly between pensive, heavy, midtempo rock riffs and atmosphere. The band's sophomore effort and first since 2011 channels a haunting romanticism and deep spiritual yearning that collide in beautiful melancholy. The vocal interplay of Adam Dutkiewicz and Jesse Leach makes for a rich, dense, and enthralling concoction, powering through various trips through dark nights of the soul and mind-expanding excursions into the wild.

"atmospheric and melodic" — **Brooklyn Vegan**

"the shades of grey shapeshift and collide with the electric power of clouds in a thunderstorm" — **Kerrang!**

"...the songs are nearly all of such quality, and so emotionally fitting for these turbulent times, that even sneering cynics might struggle to keep the tears in" — **Blabbermouth**

Five Top 40 albums in the UK, with four Top 20 singles. And they were similarly successful in other parts of the world as well. It's no wonder their influence spread across the globe, and played a crucial role in the way we look at hard rock and heavy metal today.

SAXON Denim And Leather

- ★ **SAXON's** fourth album, **Denim & Leather** was originally released on October 5th 1981. It was recorded at Aquarius Studios in Geneva.
- ★ Arguably their most successful record to date it spawned the classic singles "Princess Of The Night," "Never Surrender" and the song "And The Band's Played On," which was inspired by their appearance at the inaugural Monsters Of Rock festival in 1980.
- ★ This edition contains the B Sides of the "Never Surrender" single and seven live tracks recorded on the Denim And Leather tour of 1981.

SAXON Power And The Glory

- ★ **SAXON's** fifth album, **Power And The Glory** was originally released on March 21th 1983 and was produced by Jeff Glixman at Axis Sound Studios in Atlanta.
- ★ The album spawned two singles, "Nightmare" and the title track, "Power And The Glory" and also marked the replacement of drummer Pete Gill with Nigel Glockler, who remains a member of **SAXON** to this day.
- ★ This version includes early working demos of songs from the album, recorded in 1982

DIANTHUS

REALMS

For fans of Rush, Evanescence and Progressive Metal!

The synergistic sound and seemingly-telepathic energy behind **Dianthus** can be traced to their beginnings in the heart of Riverside, California. Inspired by the well-known perennial flower, twin sisters (**Jackie and Jessica Parry**) bring forth delicate, yet dominant voices to the metal scene.

An early upbringing in classical piano led them to begin creating music together at a young age. Not long after, they were captivated by the heavier genres in metal. The two enhanced their musical palettes with the addition of drums and electric guitar. Since forming, **Dianthus** has gained the likes of well-respected musicians such as **Matt Sorum (Guns 'N Roses / Velvet Revolver / Hollywood Vampires / The Cult)** and **Jeremy 'Jinxx' Ferguson (Black Veil Brides)** who produced their debut CD.

The twin metal duo are now ready to release their brand new album "**Realms**" which was produced by **Steve Evetts (The Dillinger Escape Plan, Symphony X, Butcher Babies, etc.)**. They had previewed the tracks "**Realms**" and "**Creeping In**" during the height of the pandemic in 2020 and now have finally been able to get in the studio and finish up their much anticipated sophomore release.

"Dianthus just released their new single "Realms" and it's probably going to get stuck in your head. The duo employ soaring guitar melodies, perfectly grounded drums, and excellent vocal hooks through the track for an overall killer experience."

"Everything sort of lined up, but I don't believe in coincidences." Chlo White could be talking about any of the several key moments in her musical history: meeting best friend and bassist Riley Hall on the first day at a new school while they both wore the same pair of obscure Vans, being soon introduced to guitarist Mick Martinez that same week, and then finding drummer Max floating around their garage practice space. That might've been the easiest part of the puzzle. He's Mick's brother.

Snarls, the Columbus band built from these cosmic connections, is an exercise in manifestation. After their debut album *Burst* captured an early audience with its glittering, wide-eyed take on indie pop, the band regrouped to enter the cavernous wilderness of their next phase. "We had time to stew on this new aura our band has for this release. We have entirely new musical influences, and working with Chris Walla—that's when it hit me that we're in a band," White gushes. If *Snarls* had to fold up their new aura into an easily packaged hype paragraph, they probably wouldn't. "We're in the 'pressed flowers' phase of our band," White continues. "*Burst* was taking a fistful of glitter and throwing it, but this EP was more intentional."

What About Flowers?, *Snarls'* Walla-produced EP, pulses with the rhythm of the Pacific Northwest. It's a release that shines in solitude and asks questions of absences: the same winning formula that's gripped the region for decades. In the year-plus since *Burst*, the band has scaled their emotional intelligence to match their growth off-mic, transforming the simmering "For You" from a tender moment into a tortured one and opener "Fixed Gear" from worry to weightlessness. "If Only," the set's closer, is another ghostly expression of tension and release—when the band lets up for air, the lyrics are choked by confusion and loneliness. The floating understanding of wanting to be together and missing the things that make one whole pervades much of *Flowers?*, the second act of *Snarls'* identity play.

Chlo remembers being young and spellbound by the Columbus skyline, so much so that sharing Seattle with Riley awakened a shared dream: this band was real. *Snarls* has flourished through similar unspoken realizations: playing packed house shows on their first runs, forecasting their "leaps and bounds" via a tarot reading the night before an album release, watching the tender thread between artist and listener be forged in real-time. This one just found the words.

SAXON GO FULL CARPE DIEM WITH THEIR LATEST STUDIO RELEASE

Saxon, those seminal British Heavy Metal Heroes hailing from Bamsley, UK, will release **Carpe Diem** on February 4th 2022 through Silver Lining Music. Ten titanic tracks bristling with still-clad riffery and proud intent, **Carpe Diem** is the statement which reminds heavy metal fans worldwide who the true masters of British Metal are, drawing on a variety of ingredients from their career to forge what is **Saxon's** most dynamic release in many a year.

"It all starts with the riff," says frontman and co-founder **Biff Byford**, *"if the riff speaks to me, then we're on our way. It's a very intense album, and that's all down to the fact that the essence of a great metal song is the riff that starts it, and this album has loads of them."*

From the title track's roll-back attack to the incessant speed and power of "**Super Nova**", this is **Saxon** at their purest and most definitive, aggressively parading the pure metal flag and imploring fans old and new to gather and celebrate the very best of both **Saxon** and the genre itself. "**All for One**" has the stomp and pure power of a "**Princess of the Night**" while "**The Pilgrimage**" is classic "**Crusader**"-era Saxon. Produced by Andy Sneap (Judas Priest, Exodus, Accept and Richie Faulkner) at Backstage Recording Studios in Derbyshire with Byford with Sneap mixing and mastering, **Carpe Diem** strikes the ear as one of the most essential British Metal statements of the last few years, one which will ignite the joy in stalwart supporters and attract a whole new legion to the Saxon fold.

"I love that sort of fast metal. I love Princess of the Night and 20,000 FT and I try and bring that style of Saxon into the music now but in a bit more modern style" affirms **Byford** *"but it's the same five guys playing it and singing it, so I think we don't really sound like an old band on records because we're not really sitting back on our past success. We're always trying to make a great album."*

"We want every album we make to go platinum," says **Byford** defiantly. *"We never make an album that we don't expect to be fantastic because there are no laurels around here, only a commitment to the best songs and riffs we can write."* **Saxon** have certainly made sure to **Seize the Day**; be sure you join them.

Description:

Founded in 1992 in Ludwigshafen/Germany, MYSTIC CIRCLE quickly riled up the underground with their first three demos, and established themselves as the biggest national black metal band in 1998 when releasing the concept album "Drachenblut". Seven albums later, the band decided to take an extended hiatus to devote themselves to other projects in 2006. By 2020, the two protagonists and original members Beelzebub and A. Blackwar reconnected and realized that their musical fates are still entwined and they are on the same page about the ideas to yet unleash unto the world. Their shared goals and the implementations took shape quickly and the two musicians found a producer and partner in Nils Lesser who understood and completed their dark vision. The result is more aggressive and voluminous, but with all the recognizable roots of their early phase. A first precursor will appear at the end of 2021 with the 7-inch single "Letters From The Devil", limited to 666 copies, followed by their self-titled reunion album "Mystic Circle" in frosty February 2022. Those who specifically love the cult band's first three works, grew up listening to the likes of POSSESSED and MORBID ANGEL as well as idolized acts like DARK FUNERAL and MARDUK, will love MYSTIC CIRCLE in its current reincarnation.
