JOHNNY MARR

FEVER DREAMS PTS 1 - 4

In the wake of his time leading The Healers, Marr's solo career has given rise to three UK Top Ten albums - *The Messenger* (2013), *Playland* (2014) and 2018's *Call The Comet*. He now returns with his most expansive work to date, *Fever Dreams Pts 1-4*. It was created during the long, uncertain period that followed the arrival of the UK's first lockdown, when his focus was pushed into both his interior life, and evoking the emotional states of others. "It's an inspired record, and I couldn't wait to get in and record every day," he says. "But I had to go inwards."

The new album reflects his multi-faceted past, but takes his music somewhere startlingly new. "There's a set of influences and a very broad sound that I've been developing - really since getting out of The Smiths," he says. "And I hear it in this record. There are so many strands of music in it. I think it's the most ambitious solo record I've done."

TANKARD

For A Thousand Beers CD & Vinyl Box Sets

Release Date: 2/25/22

TANKARD is a German thrash metal band from Frankfurt am Main, founded in 1982. Alongside Kreator, Destruction and Sodom, TANKARD is often considered one of the “Big Four” of Teutonic thrash metal. Stylistically, TANKARD have consistently played thrash metal that thematically centered primarily on alcohol. *Zombie Attack* was released in July 1986. In October 1987 their sophomore album, *Chemical Invasion*, was released, followed a year later by *The Morning After*. Original drummer Oliver Werner quit the band to be replaced by Arnulf Tunn, and the band released three albums with this lineup: *The Meaning of Life*, *Stone Cold Sober* and *Two-Faced*. They also recorded the live album *Fat, Ugly and Live* during this time. This lineup then folded when Tunn was replaced by Olaf Zissel, who remains in the band to this day, in May 1994 and the next year founding member Katzmann was forced to leave due to osteoarthritis in the wrist. That year the band released *The Tankard* and was their final album with Noise. Now celebrating their 40th anniversary the band are still gigging all over the world and recording & releasing new music.

DARIO LESSING

PRE-ORDER DATE: SEPTEMBER 24TH, 2021

FREQUENCY

RELEASE DATE: FEBRUARY 25TH, 2022

The last two years since his first release via Deutsche Grammophon have been turbulent for the Berlin native piano virtuoso, producer, and singer Dario Lessing: with an eclectic mix of beautiful piano pieces (DNA I), collaborations with other producers (Robot Koch, Andrew Applepie, AK and more) and alternative pop projects (Better Days EP with Rezar premiered on COMPLEX), his online following grew from zero to almost one million monthly listeners. Besides his constant output, the classically trained pianist started releasing sheet music of his magical pieces due to high demand on Instagram by fans from all over the world. He composed scores for fashion outlets (Tings Magazine), commercials (Bertelsmann) and is now preparing his collab-filled album Frequency with guest vocalists featured on every one of the eleven tracks. In short – Lessing represents a new breed of self-made artists and producers that collaborate without musical or geographical borders. His capability to catch the very core of other artists' creativity leads to uniquely direct and intuitive records with a spiritual, often mystical character.

Freshly signed on the prestigious Modern Recordings (Pat Metheny, Sebastian Knauer, Robot Koch...), the album is also Lessing's first to be released on vinyl.

Band of Horses

THINGS ARE GREAT

RELEASE DATE: JANUARY 21, 2022

BIO

There might be no other band that was able to channel the generational anxiety in those early millennial years and turn it into such powerful and inclusive art quite like **BAND OF HORSES**. BAND OF HORSES fashioned gorgeously ragged epics, Ben Bridwell's high-flying vocals and eccentric enunciation floating like a specter that felt like prelude to a dream. Full of profundity, truth and sometimes just home-spun advice on how to live, BAND OF HORSES songs have become anthems and touchstones for fans.

Emotionally intense, both on a personal and elemental level, the songs for BAND OF HORSES' sixth album, **THINGS ARE GREAT**, find Bridwell more autobiographical than he's ever been on record, detailing the nebulous frustrations and quiet indignities of relationship changes and what a person will do to make things right. And what you do when you can't.

BAND OF HORSES is composed of Bridwell, longtime members Ryan Monroe and Creighton Barrett and new members Matt Gentling on bass, and guitarist Ian MacDougall. This fresh chapter finds the band recapturing the raw emotion and unpolished punk-rock spirit of its early days.

The songs on **THINGS ARE GREAT** document the connections in Bridwell's life that have shifted, or remained. An epic album, **THINGS ARE GREAT** is not an exercise in nostalgia or regret. It's closer to the classic pattern of the hero's journey, one where Bridwell doesn't locate those elusive answers but does find himself in the end, providing hope that all of us can do the same.

QUOTES

"**THINGS ARE GREAT'S** lead single 'Crutch' finds a pleasing midpoint between the Shins and My Morning Jacket. But mostly it sounds like a hungry young band influenced by BAND OF HORSES, which I mean as a huge compliment." —**Stereogum**

"The impressionistic 'Crutch' features the band's familiar mix of double-time acoustic guitars, occasionally inscrutable lyrics and singer Ben Bridwell's longing, ethereal vocals." —**Billboard**

"'Crutch' is a pleasant, guitar-heavy jangle that feels both bittersweet and romantic" —**Consequence**

"A combination of catchy folk-rock and blown-out arena indie that centers around bittersweet wordplay." —**FLOOD**

"'Crutch' stands atop handsome guitars and Bridwell doing his best to smile through tough times." —**Uproxx**

Lost for two decades, the recent rediscovery of Landscape Tantrums the first attempt at recording the music that would become The Mars Volta's De-Loused In The Comatorium revealed an important and hitherto missing chapter in the group's evolution. Selfrecorded by Omar (assisted by Jon DeBaun) at Burbank's Mad Dog Studios within a head spinning four days, Landscape Tantrums captures De-Loused in somewhat embryonic form, though much of what would make The Mars Volta's debut album such an electrifying, sublime experience was already in place: the fearless invention, the fusion of futurist rock elements and traditions from outside of the rock orthodoxy, the sense of virtuosity working in service of emotional effect. From a distance, The Mars Volta must have seemed as if they were on a high when they walked into the studio to record what they expected to be their debut album ("I didn't think of it as demos or a dry run," Omar says). The group had recently played the Coachella festival to rave reviews, a vindication of the quixotic risk Omar and Cedric had taken, quitting At The Drive In to lead such an uncompromising musical proposition ...
