ALBUM FACTS

Genre: Rock

Description: Live at Red Rocks captures Disturbed's August 15, 2016 show at the fabled Colorado amphitheater where the band stopped during their tour in support of current album *Immortalized*, which has been certified Gold. The album features songs spanning Disturbed's 20-year-career, including Mainstream Rock chart hits "Down With The Sickness," "Stricken," "Inside the Fire," "Indestructible," "The Vengeful One," "The Light," and their now Platinum-certified version of Simon & Garfunkel's classic hit "The Sound of Silence."

ARTIST & INFO

Hometown: Chicago, IL

After a four year hiatus, Grammy Award-nominated, multiplatinum hard rock titans Disturbed returned with their sixth studio album, *Immortalized*, the group's fifth to debut at #1 on the Billboard Top 200, a rare distinction only achieved by one other hard rock band in the history of the chart: Metallica. Formed in Chicago in 1996, Disturbed - David Draiman [vocals], Dan Donegan [guitar], Mike Wengren [drums], and John Moyer [bass] - have additionally sold 12 million albums globally and scored ten No. 1 singles at Active Rock Radio, including their latest hit single "The Vengeful One." Their quadruple-platinum 2000 debut *The Sickness* formally announced their arrival as hard rock leaders, with that status solidified by their subsequent Grammy Award nomination as well as gold-, platinum- and double platinum-certified records.

ALBUM FACTS

Genre: Alternative Roc

Description: Medicine for Birds was recorded by Charlie Peacock (The Civil Wars, Switchfoot) in Nashville. "It's like the songs grew up at that moment," Garcia says. "Charlie showed me how big and crazy they could be. I felt like a hermit coming out. He was the ambassador to this sonic realm I didn't know about it. The music became limitless." "I love it when someone tells me they relate to my work," she says. "That's the ultimate validation. When you're all alone working on music, you open up. The more songs that I write, the more I realize this world... it's kooky. It's spooky. It's playful. It's funny. It's somber. It's goth. It's light. It's me."

ARTIST & INFO

Singer and songwriter Angelica Garcia's journey "down the rabbit hole" began when she moved to Accomac, Virginia. Graduating from Los Angeles School for the Arts, the 17-year-old native Angeleno found herself living in a 200-year-old gothic brick home encircled by magnolia trees and under a blanket of bright stars. Her stepfather traded a career in the music industry for Episcopalian priesthood, and an Eastern Shore church would serve as his (and the family's) first congregation. Isolated and alone, Angelica locked herself in the parish house and fashioned a musical world that veers between ghostly gorgeous countrified blues and sly swamp Americana. With a childlike whimsy, quirky sense of humor, and dynamic delivery, it could easily soundtrack an apparitions' ball in some Faulknerian mansion. Upon first listen, it entranced Warner Bros. Records. Recorded by Charlie Peacock [The Civil Wars, Switchfoot] in Nashville, her full-length debut Medicine For Birds unlocks this world for everyone in 2016.

ALBUM FACTS

Genre: Rock

Description: This Las Vegas band strives to create a unique sound by blending melody-driven rock with dance. This is a rock record you can dance to; that's fun and sincere at the same time. Produced by Matt Squire (Northstar, The Explosion, The Receiving End Of Sirens). Panic! At The Disco is the first band signed to Pete Wentz's (Fall Out Boy) Decaydance Records, a Fueled By Ramen imprint label. "...Imagine The Faint meets The Postal Service with all of the pop sensibilities of a Blink 182" - Peter Wentz. Touring with Fall Out Boy, The Starting Line, Motion City Soundtrack, and Boys Night Out this fall.

ARTIST & INFO

Hometown: Las Vegas

Panic! At The Disco's roots coming of age in Las Vegas loom large on the band's fourth album Too Weird To Live, Too Rare To Die!. From its glittery synth-based, drum-heavy sound, to its playful, celebratory subject matter, to the Rat Pack-inspired imagery on the cover, to the title itself (a line from Fear and Loathing in Las Vegas author Hunter S. Thompson), the album finds the band, for the first time in its nearly 10-year career, owning up to loving their hometown.

"Before I started demoing any of the songs on the album, I was in Vegas and went to a club," says the band's frontman and songwriter Brendon Urie. "I was listening to the driving beats and watching all these people dance and have a good time. And I thought, 'I want to make music like this. These people are celebrating life.' It made me stop being cynical and see how beautiful it actually was. We left Vegas when we were 17, because at that age, Vegas sucks. You're not 21. You can't go anywhere; you can't play in bars. We never played live shows. So we were really bitter for a lot of years. But this last time I realized that people go there to drop their guard and let loose, and that inspired me. It was a real moment of clarity. Now I'm in love with Vegas. I even wrote an anthem about it, 'Vegas Lights.'"

Urie's inspiration is reflected in the sound of the new album, which was recorded largely on a collection of Arturia and Moog synthesizers that he and drummer Spencer Smith had collected over the years. "I hadn't really delved into it all because I didn't know how to use the technology," Urie says. "A huge part of the process for me is that I wanted to be a producer. I had the sounds in my head, I just had to figure out how to get them out. Our producer Butch Walker [who co-produced Panic! At The Disco's 2011 album Vices & Virtues] and engineer Jake Sinclair were both mentors and taught me how to use the computer. I would explain what I was hearing and they'd say, 'Well, this is how you do it.' It was validating to get positive feedback from Butch, but I still wanted more. So I just kept writing, writing, and writing."

Eventually Urie came up with the album's anthemic core: "Vegas Lights," "This Is Gospel," "Nicotine," "Girls/Girls/Boys," and the new single "Miss Jackson." "We had all these songs and I was like, 'This is it; this is the record I want to make,'" Urie says. "I knew it would happen, but finally it's here."

The lyrics sprang from Urie wanting to tell his own story. Though he sometimes masked the ideas in a fictional way, his overall goal was to be as honest as possible. "This album is more confessional than anything I've done before," he says. He found himself writing about his relationships. He describes the final song on the album, "The End of All Things," as the most revealing in terms of opening his heart. "When I was writing it, I was tearing up because I was feeling a lot of emotion."

Urie strikes a more playful note on "Girls/Girls/Boys" - a racy song about women who like girls and guys. Along similar lines is "Nicotine," which compares a girl to a bad habit you just can't kick. Says Urie: "She calls you for a booty call. You think, 'I'm not going to see this girl; it's not going to happen. Twenty minutes later you're at her house. I've been through it; where you know it's so stupid and that nothing good can come of it.'"

Too Weird To Live, Too Rare to Die! takes a darker lyrical turn on the first single "Miss Jackson," for which Urie drew on the personal experience of being cheated on years ago. "It was very cathartic to write," he says. "I had been through something where I had slept with a girl one night and then her friend the next, but nothing like that had ever been done to me. When it did, it flipped it around for me. Once I felt how it felt, it made me change. Taking something so serious and putting a fun melody to it made me feel less dark and that I'd really overcome it

ARTIST & INFO

Hometown: Des Moines, Iowa

The gold-selling Iowa hard rock outfit has sold over four million albums worldwide over the course of three full-length releases. Their self-titled debut and sophomore effort Come What(ever) May both exceeded Gold status, while 2010's Audio Secrecy debuted at #6 on the Billboard Top 200. Their arsenal includes number one singles such as "Through Glass," "Say You'll Haunt Me" and "Bother," and three Grammy Award nominations. Given those accomplishments, it'd be easy for the band—Corey Taylor [Vocals], James Root [Guitar], Josh Rand [Guitar], and Roy Mayorga [Drums]—to tread the same ground with very successful results.

ARTIST & INFO

Few artists have created a body of work as rich and varied as Prince. During the '80s, he emerged as one of the most singular talents of the rock & roll era, capable of seamlessly tying together pop, funk, folk, and rock. Not only did he release a series of groundbreaking albums; he toured frequently, produced albums and wrote songs for many other artists, and recorded hundreds of songs that still lie unreleased in his vaults. With each album he released, Prince has shown remarkable stylistic growth and musical diversity, constantly experimenting with different sounds, textures, and genres. Occasionally, his music can be maddeningly inconsistent because of this eclecticism, but his experiments frequently succeed; no other contemporary artist can blend so many diverse styles into a cohesive whole.

The duo, which initially formed in 2009 and released two albums on their own, began writing the songs while touring extensively on their Fueled By Ramen debut Vessel, which was released in January of 2013. The album landed in the Billboard Top 200 and at No. 15 on the Billboard Top Rock Albums chart, and has sold over 300,000 copies, as well as 1,000,000 singles. To support the album, which was No. 1 on Alternative Press' 10 Essential Albums of 2013, Twenty One Pilots embarked on a series of headlining tours that took them to over 325 shows worldwide. As they traveled, stopping to perform at festivals like Bonnaroo, Hangout Fest, Lollapalooza, Outside Lands, Download and Summersonic, and appearing at the 2014 MTV Movie Awards and on Conan and Late Night With Seth Meyers, Josh and Tyler began conceiving ideas for a new album.

ARTIST & INFO

Hometown: Toronto, Ontario

One of the most influential artists of all time, **Neil Young** has set a standard of artistic integrity and iconoclastic creativity. Before starting his multi-platinum solo career, he was a founding member of the folk-rock band Buffalo Springfield and worked with the groups Crazy Horse and Crosby, Stills and Nash. The Canadian singer-songwriter was recognized by the Rock and Roll Hall of Fame in 1995 for his work as a solo artist and was inducted into the Canadian Music Hall of Fame in 1982. Young's philanthropic work is as renowned as his musical legacy. His famous Bridge School Benefit Concert has become a yearly tradition since 1986 and continues to boast an incredible line-up of high-profile artists. Each year, Young donates all of the proceeds to the Bay Area's Bridge School, which assists children with severe physical impairments and complex communication needs. He was also one of the original founders of Farm Aid in 1985, and continues to be an active member on the organization's board of directors.

ALBUM FACTS

Genre: Pop

Description: "saintmotelevision" was recorded earlier this year in Los Angeles with production from the likes of Tim Pagnotta (Walk The Moon) and Lars Stalfors (Cold War Kids, Matt & Kim) among others as well as additional production from Saint Motel's own A/J Jackson.

Saint Motel will herald the release of "saintmotelevision" with an extensive North American trek, presented by "Ones To Watch" featuring support from Jr. Jr., Hippo Campus, and Weathers (lineup varies depending on the market). The tour kicks off Thursday, September 15th at San Diego, CA's House of Blues and continues through October.

ARTIST & INFO

Saint Motel came together in 2009 when A/J Jackson recruited fellow Southern California film student Aaron Sharp - "the best guitarist on campus" - to join him in a new musical project. Bangkok-born bassist Dak Lerdamornpong and drummer Greg Erwin completed the group, which immediately attracted attention for their striking visual presentations and dynamic indie rock.

"VOYEUR," Saint Motel's independently released 2012 debut album, earned national acclaim and massive play on Alternative blogs and specialty radio. Further applause came from the band's increasingly inventive live performances, including such audio/visual extravaganzas as "The Kaleidoscopic Mind Explosion in 3D" and the annual Zombie Prom, as well as tours alongside Arctic Monkeys, Imagine Dragons, Ariel Pink, Band of Skulls, and Weezer.

ALBUM FACTS

Genre: Rock

Description: Before The Doors took the music scene by storm in 1967, they were the house band at the London Fog, a Sunset Strip dive bar located just footsteps away from the world famous Whisky a Go Go, the future home of many of the band's most legendary performances. The Doors open a virtual time capsule with LONDON FOG 1966, a Collector's Edition boxed set that features unearthed audio recorded at the club in May 1966. Previously unreleased and not even known to exist until recently, this marks the earliest recordings of the band and finds the quartet mixing blues covers with early versions of Doors originals. LONDON FOG 1966 is the first of many special activities and releases coming to celebrate The Doors' 50th Anniversary in 2017.

ARTIST & INFO

Hometown: Los Angeles, CA

With an intoxicating, genre-blending sound, provocative and uncompromising songs, and the mesmerizing power of singer Jim Morrison's poetry and presence, The Doors had a transformative impact not only on popular music but on popular culture. The Doors' arrival on the rock scene in 1967 marked not only the start of a string of hit singles and albums that would become stone classics, but also of something much bigger - a new and deeper relationship between creators and audience. They released six studio albums in all, as well as a live album and a compilation, before Morrison's death in 1971. Their electrifying achievements in the studio and onstage were unmatched in the annals of rock. In the decades since The Doors' heyday, the foursome has loomed ever larger in the pantheon of rock - and they remain a touchstone of insurrectionary culture for writers, activists, visual artists and other creative communities.
