ALBUM FACTS

Genre: Television

Description: CLASSIC COMIC EXPLOITS OF AN ACID-TONGUED CHIEF PETTY OFFICER IN THE NAVY

For two seasons (1976–1978) and 37 episodes, Don Rickles brought his distinctive brand of comedy to NBC television as the star of **CPO SHARKEY**. His targets were many, and his aim was true. Rickles' character, CPO Sharkey, was politically incorrect before the term existed! As a 24-year naval veteran, CPO Sharkey had pretty much seen and heard it all.

The recruits he whipped into shape at the San Diego naval training center received most of his shards of wisdom. Since all the men under his command seem to be from different racial and cultural backgrounds (black, Polish, Hispanic, etc.), Sharkey has plenty of ammunition for his insults and putdowns. He's actually very fond of his men though, and usually must protect them from mealy-mouthed boss Lt. Whipple and gruff base commander Capt. Buckner. The men of Company 144 may have been hockey pucks, but they were his hockey pucks—ready, willing and able to endure one verbal shark attack after another.

The 15 episodes in **THE COMPLETE SEASON 1** find the new captain proposing to shape up "the chief with the biggest beer belly," a pretty fair description of the outraged Sharkey while visiting Marines cause havoc at the training base as their behavior tests the patience of Sharkey and the sailors.

WHY BUY?

- **Classic TV:** This is classic television comedy, perfect for fans of *The Carol Burnett Show*, *Mama's Family* and *The Dean Martin Celebrity Roasts* and other great comedy.
- **Living Legend:** Don Rickles is one of the last of the great old-school comedians and at 88, he is still going strong.
- **Complete:** All 15 episodes from season one.
- **Bonus:** Over two hours of bonus material, including new interviews with Don Rickles.

ARTIST & INFO

Hometown: Sheerwater, England

As the leader of the Jam, Paul Weller fronted the most popular British band of the punk era, influencing legions of English rockers ranging from his mod revival contemporaries to the Smiths in the '80s and Oasis in the '90s. During the final days of the Jam, he developed a fascination with Motown and soul, which led him to form the sophisti-pop group the Style Council in 1983. As the Style Council's career progressed, Weller's interest in soul developed into an infatuation with jazz-pop and house music, which eventually led to gradual erosion of his audience - by 1990, he couldn't get a record contract in the U.K., where he had previously been worshiped as a demigod. As a solo artist, Weller returned to soul music as an inspiration, cutting it with the progressive, hippie tendencies of Traffic. Weller's solo records were more organic and rootsier than the Style Council's, which helped him regain his popularity within Britain. By the mid-'90s, he had released three successful albums that were both critically acclaimed and massively popular in England, where contemporary bands like Ocean Colour Scene were citing him as an influence. Just as importantly, many observers, while occasionally criticizing the trad rock nature of his music, acknowledged that Weller was one of the few rock veterans who had managed to stay vital within the second decade of his career.

Hometown: London **Band Members:** Keith Relf—vocals, harmonica, percussion

The Yardbirds are an English rock band that had a string of hits in the mid-1960s, including "For Your Love", "Over Under Sideways Down" and "Heart Full of Soul". The group is notable for having started the careers of three of rock's most famous guitarists: Eric Clapton, Jeff Beck and Jimmy Page, all of whom were in the top five of Rolling Stone's 100 Top Guitarists list. A blues-based band that broadened its range into pop and rock, the Yardbirds had a hand in many electric guitar innovations of the mid-1960s, such as feedback, "fuzztone" distortion and improved amplification. Pat Pemberton, writing for Spinner, holds that the Yardbirds were "the most impressive guitar band in rock music". The Yardbirds were inducted into the Rock and Roll Hall of Fame in 1992. They were included in Rolling Stone's list of the "100 Greatest Artists of All Time", and VH1's "100 Greatest Artists of Hard Rock". (Wikipedia)

ARTIST & INFO

Starring Fred Savage as Kevin Arnold; also with Josh Saviano, Danica McKellar, Dan Lauria, Oliva d’Abo, Alley Mills, Jason Hervey, and Daniel Stern as the voice of Kevin.

In the history of TV, **THE WONDER YEARS** is one of the most popular and beloved shows. Set in the late 1960s and early ’70s the hit comedy/drama focused on the trials and tribulations of young Kevin Arnold and his family: brother Wayne, sister Karen, father Jack, and mother Norma. Capturing the angst of growing up in suburban middle-class America, the storylines focus on Kevin entering junior high and navigating the rocky adventure of teen years with his “sometimes” girlfriend, Winnie Cooper, and his best friend, Paul Pfeiffer, at his side.

This brilliant series debuted on ABC in 1988 and ran for six seasons. Audiences eagerly followed Kevin’s evolution as a typical teenager who remembered every moment of his transition from childhood with excruciating detail and remarkable hindsight.

ALBUM FACTS

Genre: World Music

Description: From Senegal - home of Youssou N'Dour, one of this band's biggest fans - and originally the house band of a popular night club, Orchestra Baobab came together in 1970, but waited 12 years to record their masterpiece. PIRATES CHOICE became a Holy Grail to lovers of world music, who were entranced by its shuffling rumba rhythms and delicate instrumental virtuosity. To celebrate the band's recent reunion for a UK tour, World Circuit remastered the original 1989 release - never before issued here - and added a second CD of material from the same sessions. It's an undiluted, soulful, relaxed set of rhythmic grooves laid down by an African group who felt a huge Cuban influence on their mellow sound.

A legendary cult reissue at a special price with new artwork and 6 bonus tracks, this release is targeted to core world music aficionados, and boasts the same breakout potential as the label's much admired vintage releases by Los Zafiros and Los Estrellas de Areito.

ARTIST & INFO

Hometown: New York, NY **Band Members:** Lou Reed, Doug Yule, Sterling Morrison, Moe Tucker

The Velvet Underground was an American rock band formed in New York City. First active from 1965 to 1973, their best-known members were Lou Reed and John Cale, who both went on to find success as solo artists. Although never commercially successful while together, the band is often cited by many critics as one of the most important and influential groups of the 1960s. In a 1982 interview Brian Eno made the often repeated statement that while the first Velvet Underground album may have sold only 30,000 copies in its early years, "everyone who bought one of those 30,000 copies started a band." In 2004, Rolling Stone ranked The Velvet Underground #19 on its list of the "100 Greatest Artists of All Time".
