motörhead

the iconic Godfathers of heavy metal, released their 23rd (and final) studio album *Bad Magic* in 2015. Instantly hailed as one of the best the beloved trio had recorded in many years, **Bad Magic: SERIOUSLY Bad Magic** enjoys a bonus-packed refresh, adding two previously unreleased tracks from those furious sessions: “**Bullet in Your Brain**” and “**Greedy Bastards**” as well as a snarling, fangs-out live performance from that subsequent tour at the giant **Fuji Rock Festival** in Japan in 2015.

Fans will also get “*War, Love, Death and Injustice*”, an audio interview with **Lemmy** conducted by **Motörhead** expert **Robert Kiewik** during the tour, and should the desire to have a chat with **Lem** or anyone beyond this mortal coil arise, the box-set will exclusively contain a **MURDER ONE** ouija board (complete with the **Ace of Spades** planchette to spell out the conversation).

As the title says, that is some
SERIOUS BAD MAGIC!

FANTASIA, LIVE IN TOKYO 2007

(3LP Black Vinyl)

Release Date: 2/24/23

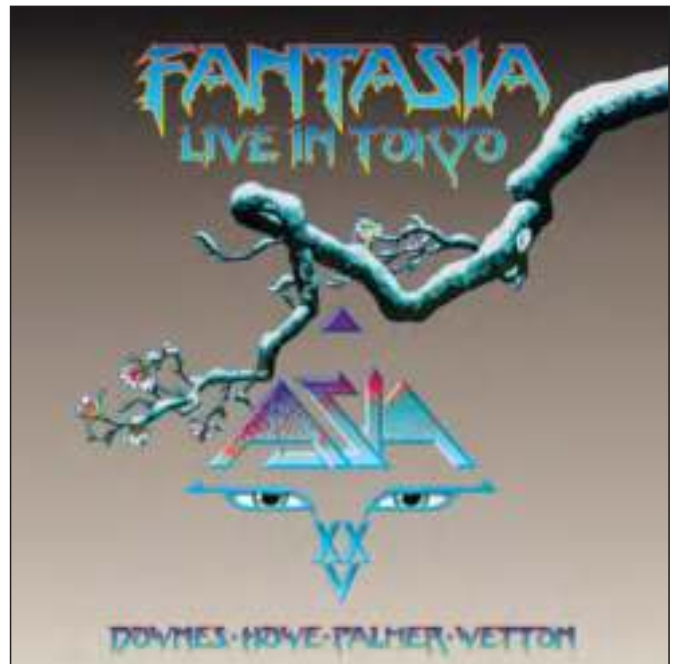

Overview:

ASIA are a multi-platinum selling, global superstar English rock band formed in London in 1981 and celebrated their 40th anniversary in 2021. As a band ASIA did what few from the Prog Rock era were able to do: combine streamlined pop hooks into very sophisticated songs.

This 3LP release, **FANTASIA, LIVE IN TOKYO 2007** is an anniversary concert performed with all the original members: vocalist/bassist John Wetton of King Crimson, guitarist Steve Howe of Yes, keyboardist Geoff Downes of Yes and drummer Carl Palmer from Emerson, Lake & Palmer.

With 18 cuts including all the hits as well as tracks by the members' original bands such as "Roundabout" by Yes (that contains guitarist Howe), Downes' "Video Killed the Radio Star" from his stint with the Buggles, and Aaron Copland's "Fanfare for the Common Man," (which was recorded by Emerson, Lake & Palmer).

The bookends for this exciting live show are "Time Again," and, of course, "Heat of the Moment," a live version that seems to top the original.

Release Date: February 24th, 2023
Label: ATOMIC FIRE RECORDS

Description:

“Dynamic Root Rock Experience” is the term that **SIENA ROOT** uses to describe its music, and it is exactly this experience what makes the Swedes’ new album “**Revelation**” so attractive for the listener: an uncompromising mixture of mesmerizing rhythms, heavy riffs, beautiful solos and emotional vocals. MISS GRIT Follow the Cyborg

Street Date: 2/24/2023

Follow the Cyborg, the debut album from Korean-American musician and Mute's newest signing Miss Grit, moves towards deeper electronic sound and is a sonic leap forward for the artist, occupying a world of chaotic electronic experimentation and stirring electric guitars. Out February 24th on limited edition smokey marbled vinyl and CD.

Following the release of acclaimed EPs *Talk, Talk* and *Impostor*, *Follow the Cyborg* sees Miss Grit aka Margaret Sohn pursue the path of a non-human machine, as it moves from its helpless origin to awareness and liberation. As a mixed-race, non-binary artist, they have always rejected the limits of identity that are thrust upon them by the outside world, in favor of embracing a more fluid and complex understanding of the self. This album was fully produced by Sohn in their home studio and features guest collaborators Stella Mozgawa of Warpaint, Aron Kobayashi Ritch of Momma, and close friend and fellow songwriter Pearla.

UNION

LIVE IN THE GALAXY

For fans of KISS, Motley Crue, and Classic Rock!

“Live in the Galaxy”, the live recording by late-'90s/early-2000s hard rock band **Union** is coming to vinyl for the first time.

Originally released in 1999, “Live in the Galaxy” was recorded during Union’s first tour in support of its self-titled debut album. Union featured the pairing of guitarist **Bruce Kulick** and singer/guitarist **John Corabi**. Kulick had spent 12 years as the lead guitarist in **KISS** during the non-makeup era and was featured on several multi platinum albums, including “Revenge”. Corabi fronted **The Scream** and, later, **Mötley Crüe** on its now cult favorite, eponymous 1994 release.

Kulick and Corabi teamed up with drummer **Brent Fitz** (*Slash featuring Myles Kennedy & the Conspirators, Alice Cooper, Vince Neil, Theory of a Deadman*) and bassist **Jamie Hunting** (*Roger Daltrey, David Lee Roth, Vince Neil*) to record two studio albums before disbanding. “Union”, recorded in 1997 and released in 1998, which featured two singles: “Old Man Wise” and “October Morning Wind” and, “The Blue Room”, which was produced by **Bob Marlette** (*Ozzy Osbourne, Alice Cooper, Rob Zombie, etc...*) and spawned two singles, “Do Your Own Thing” and “Who Do You Think You Are”.

“Live in the Galaxy” will be available for the first time as a **180 gram vinyl double album**. The double album totals 15 songs, with renditions of “I Walk Alone” from Kulick’s time with **KISS** and “Power to the Music” from Corabi’s time with **Mötley Crüe**.

PROJECT OVERVIEW

At just 21 years old, singer/songwriter Katy Nichole has quickly become a household name. Her debut single "In Jesus Name (God Of Possible)", was inspired by words taken from her prayer journal in the midst of a global health crisis, and has become an anthem to many around the world. The history making single hit No. 1 on both Billboard's Christian Airplay and AC Indicator charts in its 12th week, completing the quickest rise to No. 1 for a female artist's first entry in the chart's 19-year history.

Billboard magazine has named Katy "Top Christian Female Artist" of the year and her song "In Jesus Name (God Of Possible)" has been named the #1 Hot Christian Song and #1 Christian Airplay Song of the year.

About Katy Nichole:

Singer/songwriter and 2022 Billboard Chartbreaker Katy Nichole was singing in her church choir long before 150+ million people around the world heard her 2022 Dove Award-nominated, K-LOVE Fan Award-winning "In Jesus Name (God of Possible)," which is the first song this decade to reach 20-weeks at No. 1 on the Hot Christian Songs chart. Writing songs and leading worship by age 18, Nichole's relationship with both music and God is inextricably intertwined with her path to health and wholeness. Now 22, and having served as both an ambassador for the Shriners Hospitals for Children® and as a volunteer for Musicians On Call, Nichole made her Grand Ole Opry debut June 18, released her first EP June 24, and realized her second-straight No. 1 with "God Is In This Story." Breaking into the Top 5 on the Billboard Emerging Artist Chart and named a YouTube "Trending Artist On The Rise."

Frances The Mute was no De-Loused Part Two. For one thing, the band's configuration had changed, in the most painful way. Shortly before the release of De- Loused, sound manipulator and founder member Jeremy Michael Ward passed away, a wound Omar says the group never recovered from. But even though his inspired fucking- with-the-sonic-parameters is absent from Frances The Mute, his spirit and influence can still be determined, the album's concept derived from a diary Ward had encountered in his day-job in repossession. "Jeremy picked up lots of interesting stuff when he was a repo man," remembers Cedric. "Weird things, including this diary, He let us read it a bunch of times. It was by a guy who'd been adopted and was searching to find his real parents. It was very surreal, it didn't make much sense - the guy might've been schizophrenic - but it was very inspiring. It felt like how certain music helps you escape your boring everyday life. The names and scenes in the diary directly inspired these songs."

Some of the tracks pre-dated De-Loused, having their origins in early demos Omar recorded at the duo's Long Beach home Anikulapo, songs such as The Widow and Miranda The Ghost Just Isn't Holy Anymore. Cedric had heard these jams in their embryonic state and began working in his mind on what he could bring to them. "I was attracted to The Widow like you would be to a lover, right?" Cedric remembers. "I sang over it with Omar while we were touring De-Loused in Australia on the Big Day Out, like, 'Okay, I've got something for this.'"

“Early in the formative stages of The Mars Volta, Omar Rodriguez-Lopez and Cedric Bixler-Zavala distilled the essence of their mission to one simple phrase: “Honour our roots, honour our dead”. This mindset found perfect expression in the group’s 2003 debut full-length, De-Loused In The Comatorium, a song cycle inspired by the life and death of the duo’s old friend, artist and provocateur Julio Venegas.”

The music that scored this powerful tale stepped beyond Tremulant’s fusion of Omar’s punk-rock instincts and the Caribbean, African and Latino sounds he’d been brought up on. Cedric had dubbed that sound-clash “Fela Jehu”, but De-Loused was a quantum leap further, making surer sense of his kaleidoscopic roots, driven by furious, muscular, syncopated drums and frenetic guitar parts, bending obtuse grooves to its will and twisting off in passionate, cathartic descarga like the salsa Omar had been immersed in since he was a kid.

Omar produced the album alongside Rick Rubin at Rubin’s The Mansion studio in Malibu. Rubin and his studio had been recommended to Omar by his friend, Red Hot Chili Peppers guitarist John Frusciante, who’d recorded their Blood Sugar Sex Magik at The Mansion some years before. Frusciante lent guitar and synthesiser to Cicatriz ESP, while Chili Peppers bassist Flea stepped into the breach left by the outgoing Eva Gardner. The fruitful bond between The Mars Volta and the Chili Peppers would only be strengthened by subsequent tours together that helped De-Loused In The Comatorium become a global phenomenon.

And then everything went black, at least for a while, at least for The Mars Volta. In the months and years following their fifth full-length, *Octahedron*, Omar kept on at his usual fearsome creative pace. In fact, he ramped up his output considerably, starting up his own Rodriguez Lopez Productions label and releasing a slew of solo albums. It was a practice he'd begun shortly after *De-Loused's* release, with his solo debut *A Manual Dexterity: Soundtrack Volume One*, but as the decade reached its close, Omar grew to rely upon his solo recordings as an outlet for his prolific creativity, these albums often exploring musical pastures far beyond even The Mars Volta's wide-ranging parameters.

Before choosing to release music under his own name, Omar would always play it to Cedric first, to see if the frontman thought it had potential to become Mars Volta music. Shortly after *Octahedron's* completion, Cedric flagged one batch of tracks Omar had cut with Deantoni Parks, a brilliant drummer and composer who'd briefly occupied the Mars Volta drumstool in-between Jon Theodore and Thomas Pridgen's tenures, and whose volcanic creativity and unique, unpredictable approach to rhythm and composition had quickly made him one of Omar's favourite artistic foils.

Amputechure would prove The Mars Volta's most diverse set yet, drawing into the group's tornado of influences moments of fiery jazz spirituality and esoteric folk introspection, finding space for passages of devastating subtlety and also their most fierce and full-on moments to date. The aforementioned Vicarious Atonement found its meditative mood echoed by Asilos Magdalena, an intimate, acoustic piece that invoked traditional Latin folk music, as Cedric sang in Spanish a sorrowful tale of a lost soul's quest for sanctuary within a Magdalen Asylum, a refuge set up by the Catholic church for "fallen women". The shadowy, sinister closer El Ciervo Vulnerado, meanwhile, tapped into the darker side of spiritual jazz to further explore the album's themes of redemption and religious myth and magick. Elsewhere, the interplay between guitar and clarinet on Viscera Eyes created complex, unsettling counter-melodies, while the coiling, ornate Meccamputechure – Cedric's wild fusion of sacred texts, occultism and dystopian science fiction – proved a great showcase for Ikey Owens' swarming, infernal organ runs, in concert with Frusciante's arcane guitar-play. But it was Day Of The Baphomets that would prove Amputechure's most ambitious and most defining epic. Cedric's lyrics tore into the hypocrisy of religious cant and myths of sin and punishment. "I wanted to make a song that was like the movie The Believers, where this cabal stole kids and did some occult shit with them," he explains. "But I wanted it to be like, 'What if the people you hire to do jobs you don't wanna do rise up one day and then pull some shit like that?' Like it was the guerrilla warfare, them taking over – wouldn't that be some fucked up shit? And the music just lent itself to that – the big intro, the bass solo, and all of the ruckus that occurs." That ruckus was some of the most thrilling Mars Volta music yet, as Omar directed his musicians to rumble through fiery modes of wild tribal groove, ransack-the-palaces riot-rock and supreme progressive experimentalism. Amputechure, then, is the sound of The Mars Volta in imperial mode: fearless, insatiable, unstoppable.

Description:

MEMORIAM needs no introduction - they are living legends of Old School Death Metal. Not only because the former fields of activity of the Brits belonged and still belong to the pioneers of UK Death Metal, but because they managed to follow their master plan more than precisely. **MEMORIAM** has built up their own loyal fan base over the past seven years and developed its own musical identity. It would certainly have been easy for them to just follow the old paths, but the true art of the band is that they never deny their origins, but gradually incorporate something new - with every album a few new nuances and facets are added.

The sheer speed of their creative output shows how consistently **MEMORIAM** follow this path: Following the initial success of the **HELLFIRE DEMOS** trilogy, **MEMORIAM** signed with **Nuclear Blast** in 2016. The band went on to release **FOR THE FALLEN** (2017), **THE SILENT VIGIL** (2018) and **REQUIEM FOR MANKIND** (2019) ensuring within a very short time that **MEMORIAM** were firmly established among loyal Death Metal fans. This was supported by dozens of concerts, which have taken the band from selected club shows to major festival appearances (e.g. **Hellfest**, **Wacken**, **Summer Breeze**, **Graspop**). Following the success of this initial trilogy, **MEMORIAM** switched to the young label **Reaper Entertainment**. The album **TO THE END**, the first of a new trilogy, was released in 2021. The second album of the trilogy, **RISE TO POWER**, will be released in early 2023.

RISE TO POWER will not only once again offer an atmospherically dense **Dan Seagrave** cover, the war theme stylized on it also runs through **Karl Willetts’** lyrics: With **'Never Forget, Never Again (6 Million Dead)'** about the Holocaust and the, unfortunately, more than current **'Total War'** about the war in Ukraine, **Karl** is more political than ever. *"I am writing 'our burden and shame' instead of 'their' as I believe it is our collective responsibility to ensure that something like the Holocaust never happens again. I feel that it is my responsibility as a frontman and lyricist to write about the things that I feel are important,"* explains **Karl**. **MEMORIAM** transforms aggression and grief into uncompromising Death Metal energy. Also musically the mentioned above development process continues. While the opener still serves the essential Death Metal groove, **MEMORIAM** becomes more variable with each additional song and keeps adding new dynamics into their Old School Death Metal sound - from brutal grooves (**'Annihilation's Dawn'**) via doomy-melodic parts like in **'I Am The Enemy'** up to aggressive Nordic riffing like in **'Total War'**. **RISE TO POWER** is an extremely varied album, as **Karl** confirms: *"That's Scott's style, he comes from a different generation than Frank, Spike and me. He brings in influences from bands I haven't even heard of. It gives us the balance between old and new, and it works pretty well for us."* (Thomas Strater)

Title: To The End

Pre-sale: December 9th, 2022

Release Date: February 24th, 2023

Label: Reaper Entertainment File

Under: DEATH METAL

Description:

It is the beginning of a new era.

Since early October 2020, smoke is laying over Northampton near London. The machinery is well-oiled, the plan excellent - **MEMORIAM** have recorded their fourth studio album!

The speed the British machinery has been working at since their early days is just enormous and equally amazing. Only back in 2016 the band inaugurated the public about their existence. Since those days the machines never stood still.

The British Death Lead Commando caused a big rumble shortly after the first rumors about where the journey would go. **"The Hellfire Demos"** hit the worldwide scene with their old school Death Metal and left speechlessly torn open mouths which are still raving about the enthusiasm of this achievement today. When **"For The Fallen"**, the debut album, is unleashed on mankind via **Nuclear Blast Records** in 2017, the impression is even more powerful – Truly an historic act for metal history.

But as mentioned, there is no stand still in **MEMORIAM**. Meanwhile emancipated from other bands, they write their very own piece of history. While the first album was still heavy, oppressive and marked by grief, the second album **"The Silent Vigil"** (2018) showed a more merciless and aggressive side. The same applies to the third strike **"Requiem For Mankind"**, which stands unmistakably in the short but impressive tradition of all previous **MEMORIAM** works.

After this concentrated Death Metal trilogy, all signs were pointing to upheaval. As if the band wanted to completely break away from their old roots, they looked for a new home and signed a worldwide record deal with the upcoming label **Reaper Entertainment Europe**. While drummer **Andy Whale** had to take a forced break due to health reasons, **Spike T Smith** - a close friend of the band - took over the job in the rhythm section.

Nevertheless **"To The End"** follows the tradition of its predecessors without leaving any doubt that one of the strongest albums of 2021 lurks here. Once again the groove is monstrous, the riffs deadly merciless and the atmosphere oppressive, paralyzing, even overwhelming. **Willett's** aggressive vocals give the sound the proverbial icing on the cake.

"To The End" is a tremendous demonstration of power that impressively unites all elements of its predecessors and paints a frightening picture of war, death and destruction at the end of which nothing remains but ashes and the realization of a masterpiece. The grandiose songwriting and first-class recordings are rounded off by the production of **Russ Russell** (**NAPALM DEATH, DIMMU BORGIR, AT THE GATES, AMORPHIS** etc.) at **Parlour Studios**, which comes across as charming **"Down to Earth"**, but wonderfully differentiated, to give every detail on **"To The End"** its deserved space.

Overview: *The Liberty of Norton Folgate* is the ninth studio album from Madness and widely considered to be their magnum opus. Originally released in May 2009, and taking nearly three years to make, the record was the first with the full band since 1999's *Wonderful* and was developed as a concept album about the band's home town. The ten minute long title track tells the history of a part of East London (Norton Folgate, near Spitalfields) which, for a period, remained free from the Crown's ruling and was therefore referred to as a 'liberty', where normal rules of city life did not apply. The album finds the band in full creative flow, with song after song (including the tracks that didn't make it onto the standard CD or LP release) showcasing the maturity and depth of their songwriting prowess. Includes the singles 'NW5', 'Dust Devil', 'Forever Young' and 'Sugar and Spice' and this extended 2LP version features seven bonus tracks. Available on heavyweight vinyl in gatefold packaging, and featuring exclusive new liner notes containing interviews with Suggs, Lee Thompson, Chrissyboy Foreman, Daniel Woodgate and Mike Barson, as well as an exclusive poem by Cathal Smyth.

The latest chapter in an unparalleled posthumous career, *I Can Only Be Me* is a landmark new collaborative album with the London Symphony Orchestra. Utilising new audio restoration technologies, the existing vocal recordings have been painstakingly restored to reveal previously unheard clarity and depth. The result is an emotive, atmospheric album, lush soundscapes accompanying pristine vocals. LAIBACH

Love Is Still Alive

Street Date: 3/3/2023

Legendary Slovenian group Laibach return with their new EP *LOVE IS STILL ALIVE*, out March 3rd on limited edition pink vinyl.

The EP is a 40 minute country, dance and electronic masterpiece, featuring different versions of the song "Love Is Still Alive." The original song is taken from Laibach's soundtrack for the sci-fi action film *Iron Sky: The Coming Race*, and centers around Milan Fras' unmistakable gravely vocal over an old time country western accompaniment, a musical curveball from a career that defies genres. *The Coming Race* is the sequel to *Iron Sky*, which Laibach were commissioned to compose the score for in 2012. The Finnish dark comedy achieved cult-status and raised more than \$1 million via crowdfunding. This release follows a series of important theatrical performances and releases from Laibach, and supports their *Coming Race* tour dates (2022/2023).
