### Overview:

- ★ Limited edition 40<sup>th</sup> Anniversary Ed. Digisleeve CD
- ★ Contains previously unreleased and bonus live tracks

1979 was MOTÖRHEAD year – the year of ‘Overkill’. MOTÖRHEAD, the loudest band in the world, with the power and force of a hundred pneumatic drills they destroyed the nation over and again and no-one, repeat no-one, remained unaffected by them – everyone was torn limb from limb.

The album ‘Overkill’ and was ten times more powerful than their first album ‘Motörhead’, which was a killer in itself. The production was in the capable and experienced hands of one Jimmy Miller, whose previous successes had been with the likes of the Rolling Stones. He brought out the very best in the boys and the total effect was lethal. ‘Overkill’ is full of real skull crackers, brain damaging to the nth degree and with the hit singles ‘Overkill’ and ‘No Class’, you can doubtless guess the destroying effect of the whole affair. That’s Motörhead; straight, basic, down to earth rock and roll, with absolutely no holds barred.

## Mess

(Limited Edition Recycled Color Vinyl)

Street Date: 3/22/2023

*MESS* is the next instalment of the **Liars'** recycled color vinyl reissue series, released alongside the album's 10th anniversary.

Originally released in 2014, *MESS* is one of Liars' most popular records with over 8 million streams on Spotify. It is the sound of the band not only facing their fears but also chewing them up and spitting them back out in all their technicolor glory. Written and recorded by **Angus Andrew** and **Aaron Hemphill**, produced by Angus and mixed by **Timothy "Q" Wiles**, this record was less concerned with place compared to previous albums, and saw the band back in their own studio in LA.

Angus explained at the time of release, "We go from one extreme to the other. Working on the last record was really doubtful and paranoid, and that's fine, but it just meant that when work started on this one, it was the exact opposite. It was way more instinctual, fun, and confident."

Liars' recycled vinyl series so far has included Liars' 2001 debut, *They Threw Us All in a Trench and Stuck a Monument on Top*; their concept album about witchcraft on The Brocken mountains, *They Were Wrong, So We Drowned* (2004); 2006's acclaimed follow-up, *Drum's Not Dead*; 2007's LA-recorded

### PRAISE FOR *MESS*:

*"Mess is characteristically confident and brash, but humane and enduring. In short, it's up there with the rest of their unerringly brilliant back-catalogue."* - *The Line of Best Fit*

*"...Liars continue to show, comfort zones only exist as refuges for the unimaginative."* - *NME* (4/5)

*"'Mess' finds these men staring terror in the face – and deciding to dance."* - *CLASH* (8/10)

# LOOPER

## Up A Tree

(25th Anniversary Edition)

Street Date: 3/22/2024

Mute celebrates the 25th Anniversary of Looper's 1999 album, *Up A Tree*, with a limited edition reissue. Out March 22nd on transparent green vinyl and an expanded 2CD edition. The vinyl includes a bonus flexi disc including an unreleased track titled 'Brilliant Paper' by Ronnie Black, former member and guitarist of Looper, and Sue Tompkins, a British visual and sound artist based in Glasgow.

Initially released on Sub Pop, *Up A Tree* is the debut record by the Scottish lo-fi band led by Stuart David (co-founder and bass player of Belle & Sebastian) and his wife Karn. It was recorded shortly after Looper had recruited previous band members, Ronnie Black and Scott Twynholm. Upon release, the album reached #24 on the UK independent album charts and received acclaim for its gentle sound and honest lyrics, being described by singer-songwriter Ben Folds as "...a gift of a record."

This anniversary edition features alternative artwork designed by Karn and includes new sleeve notes by Jenny Hayo. The band attributes her as the catalyst for starting Looper, after she initially approached Stuart. It also includes words from Stuart's sister, Karla Black, whose degree show at the Glasgow School of Art saw Looper's first-ever performance.

### QUOTES:

"Looper was in my Walkman headphones on a few memorable tours. I just left the CD, *Up a Tree*, in the player and watched the scenery go by as we travelled... what a neat vibe and a gift of a record. Thank you." - Ben Folds (2023)

"Stuart David of Belle and Sebastian has handed a DIY book on home sampling out to any and all kids with a Casio keyboard and a tape recorder." - Pitchfork (8.1)

"This gentle, nostalgic but aurally up-to-date album shares the wistful sensibility of a certain Scottish folk-rock cult sensation, but then that's understandable: Belle & Sebastian is Looper mastermind Stuart David's other band." - The Washington Post

## THE VIBE

**For fans of Spread Eagle, Sevendust and Godsmack!**

As one of the more dynamic vocalists of the early '90s, NYC native **Ray West's** defiant screams and guttural wails defined a generation of headbangers. As the leader of **Spread Eagle**, West aided in the creation of such metal anthems such as "**Switchblade Serenade**" and "**Devil's Road**". And now, with his collaborator/bassist/producer, Miguel Gonzalez, by his side, West has sought to create his most personal music yet.

**SupaFly - The Vibe** features revisited and remastered versions of tracks previously recorded, as well as new compositions. Brimming with heavy urban power grooves, **SupaFly** represents an evolution for West, and is perhaps his most personal songwriting to date. **SupaFly** released a cover of the **KC and The Sunshine Band** classic "**I'm Your Boogie Man**" and immediately connected with fans (with the song's video getting over 30K views upon release).

**The Vibe** contains 10 tracks total – featuring the aforementioned single along with the standout tracks "**Drowning Man**" and "**Hypothermia**". Looking forward, West plans to remain busy and introduce his new band to the masses. "Keep writing SupaFly music, spread the vibe worldwide, and play live shows. Because if you're not playing shows, then what's the point?"

# BARTEES STRANGE

## *Say Goodbye to Pretty Boy* (recycled eco-vinyl)

"It seems like the sky's the limit with him. He's got big things ahead..."  
— Bryce Dessner of The National

Barteek Strange has been one of the most significant indie artists to break out in the post-pandemic era. His 2020 album *Mustang* was named to countless year end best lists. He quickly signed to 4AD and his debut for the label *Farm To Table* turned him into a club headliner and an arena-sized opening act with genre-defining artists such as The National, boygenius, Phoebe Bridgers, and Courtney Barnett.

*Say Goodbye to Pretty Boy* is where Barteek's story began — a full-length cover album of songs by indie rock kingmakers The National. Quietly released in March 2020 the day before Covid-19 lockdowns shut the world down, it instantly sold out its 300 copy pressing. It's back in print to celebrate his explosive trajectory and a run of dates opening for The National at arenas across Europe in autumn 2023.

A kind of fairy tale story of independent community and the effort to diversify what the word "indie rock" even means, reclaiming the phrase for Black artists. *Say Goodbye* also happens to touch upon Barteek's incredibly broad palate of musical influences with a sound ranging from garage rock ("Mr. November") to emotional r&b chill ("About Today" + "The Geese of Beverly Road") to house music ("Looking for Astronauts"). Members of The National have called Barteek's hard riffing, emo-pop-rock rendition of "Lemonworld" the definitive version of the song.

**RIYL:** *L'Rain, The National, Kara Jackson, boygenius, The Beths, TV on the Radio, Alvvays*

### SELLING POINTS

- Coming off high profile arena-sized tours opening for boygenius in the United States and The National in Europe.

# Silver Convention

## SAVE ME

Silver Convention (named after songwriter Sylvester Levay's nickname of "Silver") was formed in Munich, Germany and burst onto the music scene in 1975 with their recording of "Save Me"—a track originally sold into 16 countries (including the US) at MIDEM, the global music business conference. It became the title track of their debut album, which hit #1 on the *Billboard* R&B chart and #10 Pop, introducing the world to "The Munich Sound," which would soon be known as Eurodisco.

The album's second single was the smash hit "Fly Robin Fly." It not only topped the disco charts for three weeks, it did the same on the pop charts the following month. The single sold over one million copies and was awarded a gold disc by the R.I.A.A. in December of 1975. It became the band's signature song, winning Best R&B Instrumental Performance at the 1976 Grammy Awards.

Omnivore Recordings, in association with Good Time Records, is proud to announce an expanded reissue of this classic debut. *Save Me* returns with five bonus tracks, including both commercial and promotional 12" mixes of songs including the ubiquitous "Fly Robin Fly." Packaging features the original international cover art (with the US artwork replicated inside), a 12-page color booklet featuring photos and ephemera, and new, insightful liner notes from writer, Joe Marchese outlining the genesis of the project and the global hit record it became.

# SLEEPING W SIRENS

## SUMMARY

Sleeping With Sirens did it the right way. They've been touring non-stop and have been building their fan base one show at a time. Their debut album is selling more now than it did 8 months ago. This is a good thing. Their debut had a steady build with no "flash in the pan" gimmicks or trends. Their new album, "Let's Cheers To This", is definitely their best work to date. They've found their sound which is a mix of heavy melody while still remaining edgy and heavy.

# THE PLOT IN YOU

· COULD YOU WATCH YOUR CHILDREN BURN ·

## SUMMARY

The Plot In You's debut full length took the metalcore world by storm, making a profound splash. The band shows no signs of slowing down as they return with their second album "Could You Watch Your Children Burn". The band's angry, yet deep and inquisitive record explores many themes that the youth of today battle with on a regular basis. They approach it with a cynicism and ire that you'd expect from a metalcore band, delivered brutally, while still weaving incredible melodies and insanely catchy choruses. This album is for the bruised, broken and betrayed.

# THE JAZZ WARRIORS

## THE JAZZ WARRIORS

**For fans of Pat Metheny, Mike Stern, and Contemporary Jazz!**

Prolific drummer **Ken Serio's** latest project is the band **The Jazz Warriors**. He assembled an international lineup of musicians, such as Japanese pianist **Tomoko Ohno**, Greek guitarist **Sakis Zachariades**, bassist **Jedd Chlebowski**, flutist & singer **Ali Ryerson** and vocalist **Josi Davis**.

Their eponymous album was several years in the making, and arguably Ken Serio's best to date. They bring an eclectic mix of styles and composed almost all tracks themselves. 'Pollo Picante' opens with clucking chickens and floats on a nice Brazilian rhythm. This is followed by the quiet 'After the Rain', in which you really hear water flowing, followed by the sung blues of 'Tell Me in a Loving Way'.

'River Quay' sounds like fusion, and is a **Pat Metheny** cover, after which 'J.B.' may stand for a whiskey brand. After the ballad 'A Wing and a Prayer', a cover by **Mike Stern**, hard prog rock follows with 'A Guy with a Tie'. This is less my thing! 'Don't Talk to Me' is a relaxed swing song, while 'Neo' is again a ballad. 'The Haunting' again leans towards fusion, after which 'Adam's Ale' is the last track at the leisurely pace of a ballad.
