"The most promising crossover metal band returns with their third impact "SHOWDOWN"!"

Artist: RISE OF THE NORTHSTAR

Title: Showdown

Pre-sale: January 20, 2023

Release Date: May 5, 2023

Label: ATOMIC FIRE

File Under: METAL

Description:

The most promising crossover metal band returns with their third impact, "Showdown", out on April 7th, 2023. After a three-year absence, the band is back more determined than ever with their devastating new attack, "Showdown," which is about to become the must-have album of 2023. This full-length clearly exceeds anything ROTN has been able to offer so far in terms of musical and artistic creation. Integrating to perfection all the elements that make the success of the formation: Insane grooves mixed with powerful riffs dressed by the now well-known flow of Vithia, sublimated by Eva-B's epic solos all wrapped up in their unique Japanese shonen manga universe. Mixed by Johann Meyer (Gojira) and mastered by acclaimed Ted Jensen (Sterling Sound Studio), "Showdown" also offers phenomenal production. It should not be otherwise, given the richness of the songs that make up this album: you will want to jump to the groove, you will headbang to the heaviness, mosh to the hardcore breakdowns, break your neck to the thrash riffing, sing along to the choruses and feel goosebumps to the beautifully written solos. If there was to be a band that stands out for its originality, universe, and music, it is undoubtedly these stage monsters that are Rise Of The Northstar. With +20 million Spotify streams for the single 'Here Comes The Boom' taken from their previous album "The Legacy Of Shi" and over 30 Million YouTube cumulated plays, it's clear these guys are heavy hitters. Having toured the world many times in support of their two previous efforts, they will perform with an explosive new show that will devastate stages in all major European cities and Festivals during 2023.

"The magical album #13: On 'Death Of Darkness', THE 69 EYES stay loyal to their unique style of goth 'n roll"

Artist: THE 69 EYES
Title: Death Of Darkness
Pre-sale: February 10th, 2023
Release Date: May 5th, 2023
Label: ATOMIC FIRE RECORDS
File Under: ROCK

Goth 'n' Roll pioneers THE 69 EYES have been haunting stages all over the world for 33 years and seem to be a truly immortal part of the dark rock/metal scene. Widely known as the Helsinki Vampires, the quintet gained several platinum albums with "Blessed Be" and "Paris Kills" and not only reached #1 of the single and album charts in their home country of Finland, but also plunged the world into a sinful cosmos of love, death and melancholy, while outliving any other band emerging from the goth hype of the early 2000s.

By developing their sound further into sleaze rock on "Devils" (2004) and "Angels" (2007) and not shying away from pitch black Elvis allusions in singer Jyrki 69's dark voice and unique onstage dance moves, the band has established a worldwide following. Over the course of over three decades, the band has toured relentlessly throughout Europe, America, Asia and Australia and released 12 full-length studio albums. With "Death Of Darkness" they open a new hard rocking chapter of their career, including a refreshingly heavy title track and a duet with none less than Kat Von D on 'This Murder Takes Two'.

List Price: \$28.98
(LP blue-clear in sleeve)

- Previously released 3 stand-alone singles this year to keep delivering new music to the DSPs, which resulted in a significant rise in their streaming numbers:

JULIAN CALV

ROUTE 4/THORN & ROOTS

For Fans of Louis Thomas Harding (a.k.a. Moondog), Classical and World Music!

Julian Calv was a music major recently graduated from **Moravian University** in Bethlehem, PA. He now resides in the art community of Woodstock, VT. Julian can occasionally be seen on Church Street in Burlington, VT, busking much in the way **Moondog**, aka the Viking of Sixth Avenue, had done in NYC during the 50's and 60's.

As a musician, **Moondog** was the total package. His strong rhythmic and contrapuntal pieces later influenced composers of minimal music such as **Steve Reich** and **Philip Glass**. He invented musical instruments, in particular the **Trimba**.

After studying the avant-garde composer's music--and even building his own one-of-a-kind **Trimba**--Calv is now creating his own percussion based compositions in a style reminiscent of the late composer's. With his first release, "**Route 4**," Julian states, " '**Route 4**' is an ambient percussion composition, which combines the soundscape of US Route 4 in Vermont, and hypnotic drumming." "**Thorn and Roots**" is a fast paced musical impression based on an improvised melody performed in front of a juice bar having the same name. The trimba and balafon play in tandem with one another, creating a percussive flurry in perpetual motion.

Y La Bamba / Lucha

DESCRIPTION

To declare one thematic narrative from Lucha; Y La Bamba's seventh album, would be to chisel away a story within a story within a story into the illusion of something singular.

"Lucha is a symbol of how hard it is for me to tackle healing, live life, and be present," Luz Elena Mendoza Ramos, lead vocalist and producer of Y La Bamba, says of the title behind the album which translates from Spanish to English as 'fight' and is also a nickname for Luz, which means light. The album explores multiplicity—love, queerness, Mexican American and Chicana identity, family, intimacy, yearning, loneliness—and chronicles a period of struggle and growth for Mendoza Ramos as a person and artist.

Lucha was born out of isolation at the advent of COVID-19 lockdowns, beginning with a cover of Hank Williams' "I'm So Lonesome I Could Cry," and following Mendoza Ramos as she moved from Portland, Oregon to Mexico City, returning to her parents' home country while revisiting a lineage marred by violence and silence, and simultaneously reaching towards deeper relationships with loved ones and herself. The album reflects "another tier of facing vulnerability," as Mendoza Ramos explains, and is a battle cry to fight in order to be seen and to be accepted, if not celebrated, in

every form—anger and compassion, externally and internally, individually and societally. As much as la lucha is about inner work, fighting is borne from survival stemming from social structures designed to uplift dominant groups at the hands of suffering amongst the marginalized.

While peeling back layers of the past to better understand the present has been integral to this period of growth for Mendoza Ramos, time, trauma, and history can feel like interconnected, abysmal loops and music has remained a trusted space for Mendoza Ramos to process, experiment, and channel her learnings into a creative practice. In this way, Lucha has become cyclical, documenting the parallel trust Mendoza Ramos has built with herself to allow the songs to guide how they should be sung, or even sound.

"I've been wanting to let whatever feels natural—with rhythm and musical instruments like congas and singing—to just let it be, in the way that I'm trying to invoke in myself." Lucha reflects on, "the continuing process of learning how to exercise my producing skills," explains Mendoza Ramos. "I have so many words, ideas to work with all the time, and the hardest part for me has been learning to trust my gut. And figuring out how I work best, and with who."

The result is a collection as sonically sprawling and bold as its subject matter. On "La Lluvia de Guadalajara," Y La Bamba leans into a minimal, avant-garde soundscape as Mendoza Ramos recites a spoken word poem. Later, rhythms veer into bossa nova territory on "Hues ft. Devendra Banhart," a full-circle collaboration for Mendoza Ramos as she reminisces on the significance of finding Banhart's work nearly two decades earlier: "He was the first young Spanish-speaking musician that wasn't playing traditional Mexican music I heard when I was 21. There was nothing like it around that time."

"Nunca" is a warm, wind-rich track dedicated to her mother, Maria Elena Ramos whose poetry is published alongside the Lucha lyrics booklet. "I decided to put my mom's poem, which is a poem that she wrote to me, letting me know how she felt, exploring her heart in new ways she's never imagined. Sharing it on the record is me paying attention that she's expressing herself.

While each song holds personal significance to Mendoza Ramos, part of growing into her identity as an artist has been allowing space for protection and boundaries, and choosing to withhold some of that meaning from the public. Lucha is her own story of the complexity of trauma and nonlinear healing and growth processes, but she imagines it is also the continuation of her ancestors' stories and might also be a mirror to the story of others. "Even though I'm trying to fight, I never want to demonize suffering, because that's part of growing. And it's hard, because we're living in times where that [stigma] is what's happening. So if this—me talking about my mental health and finding healing in my queerness—is a risk, I hope that I find a community that protects it and protects me, because they know I have their back. I am also trying to be my mom's community."

Failure Will Follow

Biography

The Acacia Strain continues to defy convention with their eleventh and twelfth albums. The hell-raising metal institution doubles down, delivering not one but two devastating and diverse full-length records on the same day. *Step Into The Light* and *Failure Will Follow* push forward the fierce creative momentum kicked off with the surprise release of *It Comes In Waves* (2019) and the untraditional rollout of the spectacular *Slow Decay* (2020).

Step Into The Light is ten songs of pulverizing power and gut-wrenching groove as only The Acacia Strain can summon. Its companion album, *Failure Will Follow*, leans into the sludge-driven, moodier side of the band across three epic tracks (collectively running more than 40 minutes) of furious doom.

Produced by longtime collaborator Randy LeBoeuf (*Every Time I Die*, *Lorna Shore*, *Bad Omens*), both records showcase the chemistry, intention, and musicianship shared by vocalist Vincent Bennett and his bandmates. Devin Shidaker (guitar), Griffin Landa (bass), Kevin Boutot (drums), and Mike Mulholland (guitar) remain anchored by the brutally heavy sound The Acacia Strain first began to develop in 2001 and combines that confident experience with creative ambition and adventure.

Highlights

- Produced by Randy Leboeuf (*Every Time I Die*, *Lorna Shore*, *Bad Omens*)
- Includes features from Dylan Walker (*Full Of Hell*), Ethan McCarthy (*Primitive Man*)
- New album included in *Revolver's* Most Anticipated 2023 List
- Previous album 'Slow Decay' debuted at #1 Rock, #1 Hard Music, #1 Independent, #5 Current, #5 Vinyl, #7 Digital, #87 Billboard Top 200, and included in *Revolvers* Best of 2020 list
- Print features confirmed in *Metal Hammer*, *Decibel Magazine*, and more
- Support from SiriusXM Liquid Metal
- Consistent touring schedule throughout 2023 including runs with *Fit For An Autopsy*, and more to be announced
- Previous touring includes supporting *Hatebreed*, *Crowbar*, *After The Burial* and more
- Headline tour history with consistent sold out business and support from artists such as *Knocked Loose*, *Kublai Khan TX*, and *Counterparts*
