## ABOUT

The musical chemistry of Devon Portielje, Conner Molander, and Dylan Phillips is a continued source of wonder, even to the band, and even now - a decorous decade on. Half Moon Run's collaborative power has remained constant and unsuppressed and their new album Salt sees them revisiting the site of their bond's first forging, bringing visions to light that've been there in waiting since the beginning.

Driven by the singles 'You Can Let Go' and 'Alco', Salt is a broad and sweeping statement from a band at the height of their compositional powers. The gestation period of the songs here spans the history of the band, in an assemblage of the band's newest and oldest ideas, in juxtaposition and in alliance, the past and future at once.

# FIFTY FIFTY

## The Beginning: Cupid

FIFTY FIFTY is a 4-member girl group under the ATTRAKT Creative Content Group. The members include SAENA, ARAN, KEENA, and SIO, and their name has two meanings, the first combine themselves and their fans, the first “50” or “half” represents their fans, and the other “half” represents themselves, combining those two makes 100 or a “whole.” The second meaning is “dream world” vs. reality, with “50” representing each respective “half,” and this is meant to express the concept of their travels in between the real world full of challenges and an ideal world that’s filled with nothing but love, friendship, and happiness. With their music and concept, FIFTY FIFTY seeks to share their journey with their fans and share their personal stories through a wide spectrum of music.

The group made their debut on November 18, 2022 with their first extended play (EP) titled ‘THE FIFTY’. The EP features "Higher" as its title track, along with three other tracks: "Tell Me", a city pop tune, "Lovin Me", which aims to provide solace to young people facing difficulties, and "Log In", a song that showcases the group's intense performances and reflects the girls' rebellious spirit to break free from the suffocating reality. The album marks the beginning of the group's journey, as they seek freedom and move towards utopia amidst the chaos of the real world.

In February 2023, FIFTY FIFTY made their first comeback with their first single album, ‘The Beginning: Cupid’, which serves as a prequel to their debut EP, and also dropped the music video for the title track, “Cupid”. The song features lyrics in both Korean and English (Twin Ver.), with Keena contributing to the rap part of the title track. Its popularity led to “Cupid” entering the Billboard Hot 100 on March 27, making the group the sixth and fastest K-pop act ever to achieve this feat.

## TOKYO TAPES

US Release Date: 06/02/2023

12" YELLOW 2LP

LIMITED TO – 2.000 UNITS FOR N. AMERICA

- ★ 1<sup>st</sup> Live Album originally released in 1978  
by multi-million selling band SCORPIONS
- ★ First time on yellow 2LP in Soft Touch Sleeve
- ★ All tracks remastered in 2015

While the Scorpions were still slowly trudging their way up in Europe, they were already a recognised force in Japan, and „Virgin Killer“ was the first album to be gilded in the land of the rising sun. So it was high time for the first trip to the Far East. Four months after the release of TAKEN BY FORCE, the group arrived in Tokyo in 1978. Four concerts were scheduled, one each in Osaka and Nagoya and two in Tokyo's Nakano Sun Plaza. These two shows were recorded for the live double album TOKYO TAPES, which was also intended as a farewell gift for the departing Uli Jon Roth. TOKYO TAPES impressively documents what has always distinguished the Scorpions: Their rousing and electrifying live presence, immense joy in playing, an intimacy with their audience that produces goosebumps, and of course musical and technical brilliance. In Tokyo, the classic line-up with the two outstanding guitarists Rudolf Schenker and Uli Jon Roth and the charismatic front man Klaus Meine was in the form of their lives. They played with the songs, changed them as they pleased, involved the audience and took the freedom to improvise. A good example is „Fly To The Rainbow“. The band changes the song as they play, and Uli Jon Roth amuses himself to the best of his ability with his effects board. He lets the guitar roar, scream, wail and sing and then sets off on a solo that must be one of the best solos in rock history. TOKYO TAPES is a terrific live album that captures the band's energy and joy of playing almost perfectly. It offers those who are not so familiar with the early years of the Scorpions an excellent opportunity to rediscover the great music they wrote before they became worldwide superstars.

TOKYO TAPES is now released as a 180g gatefold 2LP, pressed on yellow vinyl.

## TAKEN BY FORCE

**US Release Date: 06/02/2023**

**12" WHITE 1LP**

**LIMITED TO – 1.500 UNITS FOR N. AMERICA**

- ★ 5<sup>th</sup> Studio Album originally released in 1977 by multi-million selling band SCORPIONS
- ★ Second album to be certified Gold in Japan
- ★ All tracks remastered in 2015

TAKEN BY FORCE was released on 4 December 1977 and was the last studio album with Uli Jon Roth and the first with the new drummer Herman Rarebell. The newcomer also introduced himself as a songwriter and contributed the lyrics to „He’s A Woman - She’s A Man“. TAKEN BY FORCE features a number of songs that have since become classics. „Steamrock Fever“ is one of them, a typical live hit that was an absolute hit with the audience for many years. Then we have „I’ve Got To Be Free“, written by Uli Jon Roth; a high-energy and hard-rocking piece with great riffs and some guitar magic that once again demonstrates Roth’s exceptional class. Ultra-heavy riffs and a catchy chorus, on the other hand, are the trademarks of the aforementioned „He’s A Woman - She’s A Man“. The masterpiece „The Sails Of Charon“, another song by Uli Jon Roth, is a caliber on its own. The most unusual, and often criminally underrated, track on the album, however, is „Your Light“. A funky bass introduces the track and the song grooves almost like a Motown production. „Your Light“ is the perfect counterpart and balance to the rather dark and oppressive „The Sails Of Charon“ or „The Riot Of Your Time“. The ballad „Born To Touch Your Feelings“ represents the romantic side of the Scorpions, which has established them as the ‚Masters of Ballads‘ over the years. The song is of the same class as the later monster hits „Still Loving You“ or „Holiday“. Although the musical differences between Uli Jon Roth and the other band members had already become apparent during the recording process, TAKEN BY FORCE has become a fascinating album that does not have the slightest weak spot. It is the exquisite culmination of the era with Uli Jon Roth and at the same time a work that should have a significant influence on the future development of heavy metal.

TAKEN BY FORCE is now released as a 180g 1LP, pressed on white vinyl.

In addition to TAKEN BY FORCE, FLY TO THE RAINBOW, IN TRANCE, VIRGIN KILLER and TOKYO TAPES will also be released in new coloured vinyl versions.

IN TRANCE is the Scorpions' third studio album and the first album the band recorded together with producer Dieter Dierks, who later turned out to be a long-time companion of the Scorpions. Besides Klaus Meine, Uli Jon Roth can also be heard as a singer on the songs „Dark Lady“ and „Sun in My Hand“, which he wrote himself. Besides the eponymous hit „In Trance“, the album contains „Night Lights“, the band's first purely instrumental piece composed by Uli Jon Roth. ## FLY TO THE RAINBOW

**US Release Date: 06/02/2023**

**12" TRANSPARENT PURPLE 1LP**

**LIMITED TO – 1.500 UNITS FOR N. AMERICA**

- ★ First time on LP in North America in over 30 Years!
- ★ 2<sup>nd</sup> Studio Album originally released in 1974 by multi-million selling band SCORPIONS
- ★ First self produced album by the SCORPIONS
- ★ All tracks remastered from the original tapes

The Scorpions' second studio album, FLY TO THE RAINBOW, was released on 01 November 1974 and is the first album produced by the members of the band themselves. The album was produced shortly after their LONESOME CROW tour, after which Michael Schenker left the band and was replaced by Uli Jon Roth. Stylistically, FLY TO THE RAINBOW deviated strongly from their debut album LONESOME CROW and moved in a more experimental direction, which nevertheless already showed strong hard rock influences at that time and already foreshadowed where the band would later go. Besides lead singer Klaus Meine, the album also features the voices of Rudolf Schenker („They Need a Million“) and Uli Jon Roth („Drifting Sun“). To date, the album has sold more than a million copies worldwide.

FLY TO THE RAINBOW was remastered with special care from the original tapes and is now released as a 180g 1LP, pressed on transparent purple vinyl.

In addition to FLY TO THE RAINBOW, TOKYO TAPES, IN TRANCE, VIRGIN KILLER and TAKEN BY FORCE will also be released in new coloured vinyl versions.

Dropkick Murphys come out swinging with their 6th studio album “The Meanest Of Times” a collection of tales about family, loyalty and remembering where you came from. “The Meanest Of Times” contains all the best elements of the DKM sound: a complex distillation of classic punk rock, Celtic folk and American rock’n’roll, this album puts the band’s diversity, intensity and sincerity on full display – now in Clear Green!

From the Quincy Barbershop where it all began to Fenway Park the year the Red Sox won the World Series to six sold out shows in a club they used to be barred from to the title song in a Martin Scorsese feature film the DKM goal has always remained the same. Says Ken Casey: “We always wanted to be that band that didn’t forget where it came from and we keep it in the forefront of our minds that we’re all in it together, audience and band members, as one, no one better than the other. That’s the M.O. of a lot of punk bands, but I think sometimes it gets lost the minute a band has any kind of success. We never want to let it go to our heads. We know how lucky we are to be doing this. It’s because of the people that listen to the band’s music we have this opportunity to see the world. I don’t care if we’re playing to 10 people or 10,000 people, those kids that are up front singing our songs are the reason we’re doing this.”

#### Description:

Formed in 1987 in Umeå, Sweden, **Meshuggah** have gone on to be called “one of the ten most important hard and heavy bands” by **Rolling Stone** and have earned the respect and admiration from fans and musicians alike.

It is impossible to talk about experimental or avantgarde metal without mentioning this truly groundbreaking act: MESHUGGAH mix ultra-complicated rhythmic patterns with massive riffs and aggressive growls, combining Death Metal, Mathcore, Thrash and Progressive Metal to create their unique style.

The year 2023 now marks the 15<sup>th</sup> anniversary of the band’s milestone: "ObZen".

Yet another masterpiece of diversity and surprises as a whole, the album contains the band’s absolute massive hit, “Bleed” – the song that tore through the industry like a shockwave and had fans and musician peers alike completely speechless. You could say that "ObZen" is some sort of a best of album of the band’s early works combined with fresh, new songs at that moment in time – but that’s only half the truth. Compared to some of the gloomy lava realm of subconscious terror of previous releases, "ObZen" is a big butt kick. Some parts are still slo mo-groove infernos, but others, like the opener "Combustion", are high speed-massacres like the band never did before. Pure technical ass-kicking mayhem!

The band only released classic albums since their debut in 1991, but it’s not wrong to say that "ObZen" was their most mature accomplishment up to the date of its original release in 2008.

Now get your headphones, take some time off and listen to newly remastered, 15<sup>th</sup> anniversary edition of "ObZen" over and over again.

The re-release of this masterpiece comes in hi-def audio on all streaming platforms, as well as a beautifully enhanced digipak (incl. 20-page booklet) and stunning new vinyl colors (limited worldwide to under 1500 of each color, 180 grams, in gatefold, incl. 2-page insert), to complete every collector’s dream.

Arguably the greatest female singer in the history of Jamaican music, Marcia Griffiths first made her mark the Jamaican music scene with a number of popular singles during the late Sixties, before finding international fame in 1970 alongside her long-term friend and sometime collaborator, Bob Andy.

Bob & Marcia's uplifting reggae version of Nina Simone's inspiring song, '(To Be) Young, Gifted & Black' hit number 5 in the UK pop chart, with the single proving to be the first of two British chartbusters, with their exuberant interpretation of 'Pied Piper' just missing out on a Top 10 placing the following year.

Soon after, Marcia became a member of Bob Marley's famed backing group, the I-Threes, while also continuing to enjoy solo success with numerous Jamaican hits for a variety of record producers throughout the remainder of the Seventies and well beyond.

And it is the very best of her solo work that features on this 'Essential Artist' compilation, the latest release in Trojan Records' newly launched range that showcases the work of Jamaica's best-loved 'foundation' artists.

Available as a 28-track double vinyl LP and a comprehensive 2CD compilation, the collection expertly demonstrates just why Marcia Griffiths is today widely regarded as a Jamaican legend.

Formed in Los Angeles, RATT exploded on to the national scene in 1984 with the release of *Out Of The Cellar*. Featuring an undeniable hook and legendary music video, lead single "Round And Round" hit #12 on the Billboard Hot 100, while "Out Of The Cellar" reached #7 on the Billboard Top 200 and was certified triple platinum. Two more charting singles followed with "Back For More" and "Wanted Man." RATT started the tour as an opening act, but by the end of the tour had climbed to arena headliner.

RATT returned in 1985 with their 2nd full length album, *Invasion Of Your Privacy*. Certified double platinum and also reaching #7 on the Billboard Top 200, *Invasion Of Your Privacy* also featured the Billboard Hot 100 Top 40 hit "Lay It Down" and the classic "You're In Love." Another hit music video was made for "What You Give Is What You Get."

*Dancing Undercover* followed in 1986 as RATT toured North America with a brand new LA band called POISON as the opening act. Lead single "Dance" hit the Billboard Hot 100 and spawned another music video hit with "Slip Of The Lip," while "Body Talk" was featured in a key scene in the Eddie Murphy film, *The Golden Child*. *Dancing Undercover* became RATT's 3rd consecutive PLATINUM album and reached #26 on the Billboard Top 200.

1988's *Reach For The Sky* saw RATT return to the Top 20 of the Billboard Top 200 album charts, peaking at #17. Driven by the bluesy hit and MTV favorite "Way Cool Jr.," *Reach For The Sky* was also certified PLATINUM and became RATT's 4th album in a row to move well over a million copies. "I Want A Woman" was also a successful single and the video captured the excitement and energy of RATT live.

The original era of RATT ended in 1990 with *Detonator*. Music was changing, but *Detonator* was still a success, peaking at #23 on the Billboard Top 200 and going GOLD. The first album to feature major outside songwriting contributions (Desmond Child, Diane Warren) and guests (Jon Bon Jovi, Michael Schenker). Lead single "Lovin' You's A Dirty Job" hit #18 on the Rock Charts while the power ballad "Giving Yourself Away" reached #39.

Also included in the LP set ONLY is the final RATT release of the Atlantic Era, 1991's "Nobody Rides For Free" which was featured in the Keanu Reeves/Patrick Swayze hit film, *Point Break*.

US Release Date: 06/09/2023

2LP HEAVYWEIGHT VINYL 500 UNITS N. AMERICA

- ★ 2LP heavyweight black vinyl
- ★ Gatefold packaging
- ★ Brand new exclusive liner notes

Originally released in 2012, *Oui Oui, Si Si, Ja Ja, Da Da* is the tenth studio album from Madness, following 2009's triumphant comeback album, *The Liberty Of Norton Folgate*. The band considered various titles for the album before settling on the name alongside the legendary artist, Peter Blake, who designed the unique cover art. Boasting a myriad of pop gems and majestic dub cuts, the album was the band's seventh record to reach the UK's Top Ten album chart, proving once again that Madness were still at the very top of their game, over 30 years on. This reissue includes 7 bonus tracks, which didn't appear on the original LP, pressed on double heavyweight vinyl and presented in gatefold packaging. It also includes brand new liner notes featuring interviews with band members Mike Barson, Chrissyboy Foreman and Daniel 'Woody' Woodgate.
