BIO

Mitchel Cave and his older brother Clinton formed **Chase Atlantic** with their best friend, Christian Anthony, in 2014. Combining sounds from their favorite genres—from pop to electro to rock and R&B—they began fusing together an experimental sound that retained catchiness and hooks. Adding live instrumentation and vocals to the mix, the trio recognized their work's undeniable groove and edge, an eclectic and unique hybrid of dark, rhythmic, and emotional sound. The viral single **"Friends"** caught the ears of **Good Charlotte's Joel and Benji Madden**, who signed Chase Atlantic to their esteemed LA-based music company, **MDDN**, in 2016. They released a pair of EPs and a self-titled debut LP in 2017, leading to slots at notable festivals including **Lollapalooza**, **Bonnaroo**, **Firefly**, **Reading & Leeds**, and the final run of **Vans Warped Tour**.

Chase Atlantic's new LP **PHASES** is fueled by their obsession with creation, songwriting, and beat-making and refusing to conform to any one sound as their spotlight only continues to grow. "We're always learning and trying different things while being as expressive as possible without losing integrity," Mitchel says. "We're in it for the long journey, and we have a broad music-making spectrum. We've done everything ourselves—we're gonna do our shit 'til the day we die."

RAVEN SHOW THAT "ALL HELL'S BREAKING LOOSE" WITH STORMING NEW ALBUM

Sometimes, things just speak -or scream, roar, shout, maim, wound, beat, pulverize and destroy- for themselves. Exhibit one? *All Hell's Breaking Loose*, the 15th studio album from Newcastle-born Heavy Metal pioneers **Raven**, to be released on June 30th 2023 on Silver Lining Music. Founding Geordie brothers **John Gallagher** (lead vocals, bass, 12 string bass) and **Mark Gallagher** (guitar, backing vocals) have seemingly entered a time-machine and regenerated their youthful selves, and with the fierce drumming of **Mike Heller** propelling further power, *All Hell's Breaking Loose* shows a band clearly bursting with fire, energy, power and pride in their standing as one of the true forefathers of the New Wave of British Heavy Metal.

It is no understatement to say these are 10 'banger-after-banger' tracks, each with a tantalizing flurry of twisting NWOBHM riffery. "Turn Of The Screw" bounces on the upbeats before smashing you with a thunderous chorus, "The Far Side" has as classic a metal riff as you'll hear in 2023, "Desperate Measures" is pure '81-saturated tales of hardship and despair, if you ever wondered what **Raven** at the Marquee were like on a sweaty metal night in '83, then "Edge of A Nightmare" is your portal to paradise, and "Go For The Gold" (the finisher!) thunders as hard as the opener "Medieval". Produced expertly by the band themselves at Heaven And Heller Studios, *All Hell's Breaking Loose* is 100% peddle to the heavy metal fun and escape back to the timeless future. Get into yer denim and leathers, break out the bevies and crank this mutha to 11!!!

All Hell's Breaking Loose will be released on CD Digipak, 12" Black Vinyl, Digital Download and Streaming. Available to pre-order from March 29th, 2023.

LAIBACH

IRON SKY : THE COMING RACE

Street Date: 6/30/2023

Mute is excited to announce the release of legendary Slovenian group Laibach's brand new album and soundtrack for the dystopian sci-fi political comedy *IRON SKY : THE COMING RACE*. Out June 30th on vinyl and CD formats. The vinyl features a printed inner sleeve and includes an audio download code with additional tracks.

Iron Sky: The Coming Race (dir. Timo Vuorensola, 2019) is the follow-up to the acclaimed Finnish film *Iron Sky* (dir. Timo Vuorensola 2012), which was set in alternative universe where a group of German Nazis, who had escaped to the moon in 1945, plot to take over the world after lying dormant in a secret military base on the dark side of the moon. Laibach were commissioned to compose the music for both films, with their original soundtrack gathering wide acclaim. For the film's sequel, which was largely crowd funded, the Slovenian collective once more composed the soundtrack for this outrageous dystopian fantasy, which shows humanity trying to survive on the former Nazi moon base after nuclear devastation. As supplies are running low, a small band of survivors journey to the hollow centre of the earth, on the way battling an ancient shape-shifting reptilian race. Like its predecessor, the film merges sci-fi fantasy with modern political humour, this time adding an unhealthy dose of outlandish conspiracy theories.

This new soundtrack is as epic and cinematic as the first, providing a musical journey of orchestral scores with bonus songs featured on the CD and download, including the track "The Coming Race" that adds Slovenian Grammy winner Amaya's powerful vocals into the Laibach mix.

THE BOOK OF BROKEN GLASS

This album tells a story. On your journey, you're going to meet a family with a secret, a few spirits that are willing to do whatever it takes to make sure it stays one, and a few allies in the trees that are offering a way out. Our tale begins here, in an unsuspecting college professor's office – with an old book.

Sarah and the Safe Word's fourth LP entitled "The Book of Broken Glass" is an existential journey of 13 songs that weave in and out of their signature cabaret-punk mixed with rock arrangements, folky undertones and sometimes even a late 90's early 2000's nu-metal vibe! This album merges all these styles into one cohesive unit that feels somehow familiar yet wholly unique.

Songs like "Ruby Off The Rails" and "Old Lace" are non-stop driving songs that keep toes tapping and mouths singing along. While "Sky On Fire" and "Broken Crowns, Forgotten Pageants" keep things deathly and darkly serious in true Sarah And The Safe Word fashion. Album closer "X", is a tear jerking piano ballad that is poised to make the sturdiest knees shake a bit.

DWELLINGS

Little Garden - CD

After 3 years without any new releases, fans have been ravenous for more from Dwellings, and the band has delivered. Little Garden is the sophomore album from Dwellings, the band that caught the post-hardcore scene by storm back in 2018 with their debut album Lavender Town. The success of Lavender Town, which garnered nearly 10 million streams on Spotify, was followed by several singles that substantiated Dwellings as an up-and-coming powerhouse in the post-hardcore music scene.

Dwellings' first single off of Little Garden, "Devices," is a masterclass on juxtaposition; high energy vocals and fast paced tempos fabricate the illusion of a lighthearted tune meant for a spring-time joyride. Only upon closer examination does the listener discover the well of depth within its lyrics. "Devices" tells a story about self-reliance and the courage it takes to accept that, at the end of the day, you are the only person you can count on.

The rest of Little Garden is equally as impressive as their first single. The record is a continuation of the story introduced in Lavender Town. The new record features the impressive polyrhythms and playful atmosphere the band has been known for but introduces a matured vocal quality that has propelled Dwellings to the next level of craftsmanship.

REFLECTIONS

For Fans of Halestorm, Burning Witches, and Metal!

Fronted by powerhouse singer **Jenny**, and rounded out by **Dennis, Raphael, Flo** and **Chris**, GermanMetal/Rockact**Fireborn** produce unique and timeless music with strong passion, expressive vocals, and defining hooks. Despite her young age, the petite singer stands out with her hard to delicate voice, extensive vocal range, and incredible sovereignty.

In 2019, **Fireborn** (still named **DISLIKE SILENCE**) played in the finals of the 37th **German Rock and Pop Awards** and took third place in the "Rock" category. In the winter of 2021 the band visited Little Creek Studio in Gelterkinden, where the two songs "**Set Off**" and "**Deep Blue Water**" were produced together with producer **Schmier (Destruction)** and sound engineer **V.O. Pulver (Destruction, Pro-Pain, Burning Witches, The Order, Nervosa)**.

The songs are modern and very American Rock with atmosphere, energy, and a sense of melody! Fireborn will release their first single "**Done With You**" on April 14th.

SHADOW'S SYMPHONY

FORSAKEN GRANDEUR

For Fans of Horror, Halloween, and Haunted Attractions!

Shadow's Symphony creator **Grant Smoker** has loved everything to do with **Halloween** since he was a kid and always wanted to be able to contribute or be a part of **Halloween** in some way. Hearing music at **Haunted Attractions** inspired him to start writing and recording. He writes this instrumental music with haunted attractions, films, and gaming in mind. Since 2014 **Shadow's Symphony** is played in haunts around the world. Each album that he writes has a different theme, which means different instrumentation as well as style that pertain to the theme of the album. There's a bit of everything from melancholy piano to full blown dark orchestral strings and creepy ambient synth over the course of an album.

For this release, **Forsaken Grandeur** was written to capture the feeling of a forgotten haunted mansion. Piano, choirs, synths, and strings with creepy ambient textures and drones will immediately take you to this decaying mansion.

OVERVIEW

It is simply impossible to label Teri Gender Bender within a specific genre. This doesn't come as a surprise looking at her musical accomplishments so far: Primarily known for her exceptional performances as frontwoman and multi-instrumentalist of Mexican garage punk band Le Butcherettes, she has also contributed vocals on numerous records for Omar Rodríguez-López, as well as collaborating with musical luminaries such as Melvins and Iggy Pop.

CATSPEAK / OUTSIDERS is the second duo of EPs, produced by Teri Gender Bender's musical companion, Jon Debaun. Guitar, bass and drums the multi-instrumentalist played all by herself. She wrote the songs on it when she was 19 years old, but – just like the love she sings about on the album – she lost them... and then found them again! A musical move inspired by Violeta Félix. That gives the songs on the two EPs a whole ton of the frenetic energy of growing-up and an innocence that we all lose when we get older. The texts are a little darker but glowing with rediscovered light and love.

The track, "STUPID LOVE SONG" deals with this in the widest possible sense, with a driving new-wave-groove and distorted guitar. But for all its levity, she confesses that the track is also "almost like an attack. A dark manifest against the Jeff Bezoses of the world." Fortunately, there are also musicians like Teri Gender Bender and her amazing crew that make it possible for us to see everything from a daring, but warm-hearted perspective: morbid and brutally honest, but also shimmering and ultimately — something you can dance to!

The texts are a little darker but glowing with rediscovered light and love.

And some are about abusive relationships. For example, the song "NICOLE SPEAKS OUT", that starts with the tragic words, "The stare is made by my father / And he takes it towards my mother / As she looks away." The track is her way of speaking about internalised family abuse. "It is so sad," she explains, "when abuse within a family becomes so normalized that even when you are free from it, it still feels as if you have no right to happiness." "But today," she muses "I am surrounded by people who respect me and my art. It was not always the case, particularly not when I was young. Maybe," she adds laughing, "it's part of life. You always have to fight for your vision, especially when people don't believe in it."

ALBERT BOUCHARD

IMAGINOS III: MUTANT REFORMATION

For fans of Blue Öyster Cult, Blue Coupe, and Classic Rock!

Albert Bouchard is best known as one of the founding members of Blue Öyster Cult. The original band sold millions of albums for Columbia Records with such classic songs as “Don’t Fear the Reaper” and the #1 hit on the Billboard Mainstream Rock chart “Burning For You”.

As a songwriter, he wrote many BÖC songs including the very popular “Astronomy” (which was covered by Metallica on their 1998’s release Garage Inc) and the live staple “Cities on Flame with Rock and Roll”, which he also sang lead vocals.

Albert’s famous cowbell on “(Don’t Fear) The Reaper” was the basis of the popular SNL skit with Will Ferrell and Christopher Walken, which has gained over 23 million views and spawned the phrase “More Cowbell”.

“**Imaginos 3 – Mutant Reformation**” sees Albert concluding the Trilogy of **Imaginos**, a concept album about an alien conspiracy that is brought to fruition during the late 19th and early 20th century through the actions of **Imaginos**, an agent of evil. The album weaves scripts and poems by the late **Sandy Pearlman**. It features guests **Ross The Boss (Dictators)**, **Joe Cerisano (Silver Condor, TSO)**, **Kasim Sulton (Utopia, Todd Rundgren, etc...)**, **Kenny Aaronson (Billy Idol, Bob Dylan, etc...)** and reunites original **Blue Öyster Cult** members **Eric Bloom**, and **Joe Bouchard**, as well current BOC member **Richie Castellano**, who all contribute to this latest installment. The album also features reworks of classics like “**Godzilla**”, “**ETI**”, and “**Soul Survivor**”.
