Mutant, in partnership with WaterTower Music, are proud to present...The original motion picture soundtrack to Paul King's 2023 film Wonka, with delectable original music performed by Timothée Chalamet in the title role, along with the movie's phenomenal ensemble cast, including Hugh Grant, Calah Lane and Keegan-Michael Key, and many others. The score features all-new music from acclaimed composer Joby Talbot and songwriter Neil Hannon. Composer Joby Talbot says: "Paul King is a director who puts music front and center. I'm grateful that he gave me so much room to really explore the musical possibilities of the beautiful and exciting world he created." Songwriter Neil Hannon says: "To be allowed to stir some of my own imaginative ingredients into Paul's fantastical recipe is one of the honours of my life. To get to work with my old friend and collaborator Joby Talbot again was a joy, and reminded me of what a genius he is. And for my humble songs to share the stage with two Newley-Bricusse classics I grew up adoring is something I could only have dreamt about. But then every good thing in this world started with a dream!"

### Description

The last 18 months have seen Dune Rats tour the world twice over, packing rooms throughout the US, Canada, Italy, Germany, Czech Republic, Belgium, France, South Africa, Ireland, and over 30 shows in the UK. Back in Australia, the Dunies played a slew of headline and festival gigs across the country, including a massive Splendour In The Grass set where they belted out their hit Triple J Like A Version cover of The Angels' "Am I Ever Gonna See Your Face Again."

Somehow, around all this, Danny, BC, and Brett knuckled down to write a bunch of new songs that would become their fifth studio album, "If It Sucks, Turn It Up" - the follow-up to their two #1 ARIA Albums 'The Kids Will Know It's Bullshit' - 2017, and 'Hurry Up And Wait' - 2020 and their 2022 ARIA Australian #1 Album 'Real Rare Whale'. Featuring singles "Be Like You" and "Solar Eyes," the album's sounds are born from a combination of the album muse, Regurgitator's 'UNIT', and their drive to keep evolving and having fun with their music, especially on the stage. "If It Sucks, Turn It Up" is a rollercoaster of good times, hard truths, 90's nostalgia, and stoner pop fuzzy goodness.

# HONEYMOON SUITE

## CLIFTON HILL REVISITED

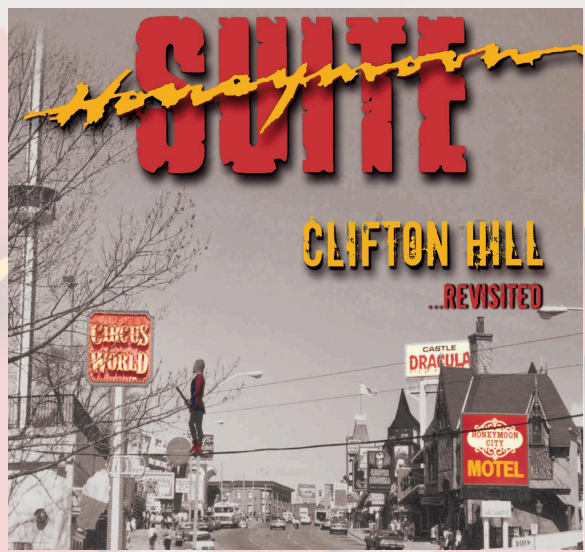

For fans of Honeymoon Suite, Loverboy, Triumph and 80's Rock!

**Honeymoon Suite** has released a total of seven studio albums with over 1 million units sold worldwide driven by the success of a string of hit singles such as "New Girl Now", "Burning In Love", "Wave Babies", "Stay In the Light", "Feel It Again" and "What Does It Take", to name a few. The band has won numerous awards including a **Canadian Juno** for group of year in 1986, triple platinum sales in Canada with the first 3 albums, and platinum sales for the greatest hits cd 'The Singles', released in 1989.

They also received an award in June, 2015 for 100,000 + performances on Canadian radio for "Burning In Love", "New Girl Now", "Wave Babies" and "What Does It Take". They have toured extensively in the US, Canada and Europe with acts such as **ZZ Top, Heart, Billy Idol, Journey, Bryan Adams, Saga, Loverboy, Jethro Tull** and **.38 Special** to name a few.

Honeymoon Suite's 6th studio album **Clifton Hill** was recorded in an old church in Hamilton ON and produced by **Tom Treumuth** (who was also the producer of the band's very first album in 1984).

The songs are classic **Honeymoon Suite** and the sound is a return to that pure melodic rock that made the band famous in the 80's. The title of the album is a nod to our roots in Niagara Falls ON where it all started in 1982. This 2024 remaster has been remixed from the master tracks at **Iguana Studios** in Toronto ON as a true rock mix bringing the sound into the modern era and now dubbed **Clifton Hill Revisited**. Johnnie and Derry recorded two \*bonus acoustic tracks "Ordinary" and "Sittin' In The Garden" to add to the release.

## THE GRAND SEDUCTION

For fans of Touch, Drive She Said and Progressive Rock!

KEYS has just completed their second album, "The Grand Seduction". This all-keyboard band is the brainchild of singer **Jake E** (*Cyhra, Amaranthe, etc...*) and keyboardist **Mark Mangold** (*Touch, Drive, She Said, Michael Bolton, Cher, Paul Rogers, etc...*) with **Emanuel Bagge** (*Sweden's Got Talent Finalist*) on additional vocals and keys, **Irwan Fabrien** (*keyboard guitar sound designer*) with help of drum guru **Alex Landenburg** (*Kamelot, Cyhra, etc...*).

Featuring live performances with three keyboardists and a huge battery of keyboards, this ambitious band brings keyboard and instrumental prowess to new heights while playing songs that run the gamut from scathing progressive melodic forays to catchy and melodic rock anthems, and **Jake E's** award-winning voice (*Burrn Vocalist of the year 2020*).

Though songs are first and foremost, this band shows the versatility of keyboards in this day and age. These artfully crafted songs are ripe with scathing synth, organ and "guitar" pyrotechnics, dazzling time signatures and drumming, bombastic choruses and "guitar" riffs (played on keyboards with the now available plug in's that perfectly emulate guitars). As **Mark Mangold** and **Jake E** are first and foremost award-winning songwriters, they never lose sight of the composition and melodies.

# the MUFFS

## THEIR CLASSIC POP-PUNK DEBUT—REMASTERED AND EXPANDED!

The Muffs burst onto the California music scene at the beginning of the '90s, and after a few independent singles and EPs, they were quickly snapped up by Warner Bros. Records. Entering the studio with David Katznelson and Rob Cavallo (who would go on to helm records from Green Day, Goo Goo Dolls, and more), *The Muffs* roared from speakers across the country in 1993. According to renowned critic Jim DeRogatis, "You'd have to reach all the way back to Blondie's *Plastic Letters* to find punkish power pop this endearing."

The quartet rips through the album's 16 tracks, ranging from an Angry Samoans cover, to the college radio smash, "Lucky Guy." In addition, alt-rock superstar Jon Spencer (Pussy Galore and his own Blues Explosion) adds some theremin and The Godfather Of Exotica Korla Pandit's Hammond Organ makes an appearance. Even the beverage Fruitopia caught the buzz, using the album's "Everywhere I Go" in a popular television campaign.

This expanded reissue, now on double vinyl contains the classic original album, and adds a whopping 10 bonus tracks making their vinyl debut: a radio remix of "Lucky Guy," a version of "Everywhere I Go" which was only available on the cassette of *The Muffs* album, and 8 demos from the band's vocalist and lead guitarist, Kim Shattuck.

Released with full cooperation from the band, the double-LP contains liner notes from Shattuck and bassist Ronnie Barnett, and features photos and other ephemera from their personal archives.

Omnivore Recordings is proud to present this expanded classic on LP, It's time to go back to where it all started. It's time for *The Muffs*!

# The new era begins: Robse returns with epic power and a debut album

## Description:

The long-time frontman and party guarantor of the epic metal band Equilibrium is back with a new band and a truly powerful firework display of energy and bombastic songs. Behind the Brandenburg giant, Robert-Martin Dahn, better known as Robse, lies not only his new band of the same name, but also a huge vision.

The band "ROBSE" will present their debut album as early as August 2024: „Harlekin und Krieger“ (engl. "Harlequin and Warrior") marks the group's first own album and at the same time the impressive milestone as Robse's 30th work in his discography.

The fact that the singer is not retiring comes as no surprise to his loyal fans worldwide. He has been a tireless musician since 1994, expressing his passion for metal with brute vocals. His stage presence and career have taken him to countless concerts in America, Mexico, China, Japan, Colombia and all over Europe and to festivals such as the world-famous Wacken Open Air, Hellfest, Graspop Festival and Summerbreeze. With a total of over 20 chart entries in Germany, Austria and Switzerland as well as 18 guest vocal appearances for bands such as Hämatom, Lord of the Lost, Atrocity and Crematory, Robse has proven to be an indispensable singer in the scene.

When choosing his companions for "ROBSE", the same careful selection process was applied as when deciding on his record company Reaper Entertainment - only the best and most loyal in the scene were considered: the line-up includes guitar pros Dennis "Blaze" Baron and Oliver Hey from Final Depravity, the hurricane-fast drummer Marius Berendsen from Mallev's Maleficarvm, and the mean bass of Marco Paulzen from ONCE as well as Alina Lesnik, who completes the band with keyboards and her powerful voice.

The debut album reflects the passionate musicians' love of hard metal with an abundance of intense melodies. The songs combine the bombast of Robse's old band Equilibrium with influences from In Flames, Immortal, Amon Amarth and of course also guarantee some rousing party hits that will heat up the atmosphere at any festival.

The new start with "ROBSE" is a reason for the metal community to rejoice. „Harlekin und Krieger“ promises full energy, passion and epic songs that will premiere at Germany's most famous festivals for the first time in 2024.

## Description:

The story of the legendary Summer Breeze Open Air cannot be told without Voodoo Kiss. In 1995, a certain Achim Ostertag founded the band Voodoo Kiss with his buddies, but due to a lack of performance opportunities, he simply launched his own festival. The name of the festival: Summer Breeze. And while the open-air highlight has long been one of the best and biggest metal festivals in the world, Voodoo Kiss soon disappears again. But fortunately not forever: Ostertag got the band back together in 2022. He recruited Steffi Stuber (Mission In Back, Voice of Germany contestant) and Sacred Steel rocker Gerrit Mutz as new members, released a powerful debut album that marked the band's comeback and put on a furious home show at Summer Breeze. But now it's official: this was no flash in the pan! Voodoo Kiss are back to stay. And their furious second album "Feel The Curse" is even more fun than their debut.

With verve, vigor, punky grit and their typical sense of melodic heaviness, Voodoo Kiss blast, fabulate and groove their way through eight powerful examples of how this music of the eighties can be made exciting, original and rousing in the 21st century. Of course, the list of ingredients on "Feel The Curse" also reads like something straight out of the textbook of electric guitar music: the opening title track is a galloping banger with razor-sharp riffs and Pretty Maids flair, "Spellbound By Her Eyes" offers black romanticism and early Maiden vibes, "Dr. Evil" is the semi-acoustic intermezzo with Spanish guitars and eruptive thrash outbursts, "Lords Of Darkness" is a gripping semi-ballad with just the right amount of pathos and the closing "Dead Without A Grave" fires from all cylinders like Motörhead in their prime. Everything in, everything on.

## Mean Streets

**Label:** RPM | **Sub-Genre:** Heavy Metal | **Producer:** | **Artist Origin:** USA | **For fans of:** Primal Fear, Jag Panzer, U.D.O., Manowar, Stallion

**Phy. Digital Format:** - ( ) |

**Phy. Analogue Format:** - ( ) |

RIOT are the epitome of class, longevity and integrity: The New Yorkers play their high-class heavy metal with full fervour and have not let numerous strokes of fate (such as the death of guitarist Mark Reale, since when, out of respect, they are operating as "RIOT V") get them down. A lot of time has passed since their debut "Rock City" (1977), but RIOT V are still around and now delight their fans with an absolute masterpiece: More than five years after "Armor Of Light", which saw the band achieving chart success in numerous European countries for the first time ever, RIOT V now present "Mean Streets". From the ferocious opener "Hail To The Warriors" to the hypnotic hymn "Feel The Fire" and the up-tempo hit "High Noon," to the energetic title track, the band pulls out all the stops. Fast-paced, lively, melodic and heavy - "Mean Streets" is the full service for every heavy metal fan!
