If we had to
sum up our
collective
experiences
during the
recording of
Cocaine Drain
with one
word, it would
be “school.”

—Bob Cowsill
(from his liner notes)

THE “COCAINE DRAIN” ALBUM BY THE COWSILLS

The Cowsills’ story is now one of legend. From their beginnings as a pop-vocal group (and the inspiration for *The Partridge Family*), to their emergence as Alt-rock/Americana heroes, there’s always a surprise in there. *The “Cocaine Drain” Album* is no exception.

From their acclaimed 2022 release *Rhythm Of The World*, to the reissue of 1998’s *Global* in 2024, it has become obvious that the group is more than “The Rain, The Park, And Other Things.” And, how so much music was “lost” when it should have been in everyone’s ears all this time.

In 1978, the band began recording demos with Chuck Plotkin, after an introduction from Jackson Browne, and eventually moved into studios to record a full album. In addition to Bob Cowsill originals, the band recorded songs by John Hall (Orleans), future Grammy-winner Wendy Waldman, and “Buzz” Feiten. It was all going smoothly until Plotkin moved on to mix Bruce Springsteen’s *Darkness On The Edge Of Town*. Future multiple Grammy-winner Val Garay (Kim Carnes, James Taylor, The Motels) stepped in to sequence and master the recordings, yet, an expected major-label deal never materialized. The masters disappeared, and (another) great album languished in obscurity—save semi- and unofficial releases of the material.

Finally, *The “Cocaine Drain” Album* (“named” after Hall’s composition) sees a proper release. Garay’s original sequence sits next to five bonus recordings. Restored and remastered by multiple Grammy-winning engineer Michael Graves, the album feels as fresh and vital as it would have upon intended release. Liner notes from Bob Cowsill and Brett Milano outline the story of its almost fantastical creation, and what happened after the dust settled.

So, it isn’t a dream anymore. *The “Cocaine Drain” Album* by The Cowsills makes a triumphant return to the marketplace—even if it’s actually for the first time!

BUY! HERE’S WHY!

DD VERNI AND THE CADILLAC BAND

BUCKLE UP

For Fans of Brian Setzer Orchestra, Reverend Horton Heat, and Big Band Music!

DD Verni is best known as a founding member of **Overkill**, but he is at it again with his **Cadillac Band**. This second **DD Verni and the Cadillac Band** record *Buckle Up* picks up (and goes further) than their exciting debut *Lets Rattle*.

With the success of the last record, **DD** was able to recruit some of the genres top players to record on this new record. The rhythm section is made up of **Bernie Dresel** on drums and **Johnny Hatton** on the slap bass. Both played in **Brian Setzer's** band for years and are two of the absolute best in the genre. Horn arrangements were by **Jim McMillen**. Jim has done arrangements for **Rod Stewart** and shines here. Horn players from **Paul McCartney's** band, **The Eagles** as well as pianist **Or Matias (Josh Groben)**, guitarist **Angus Clark (Trans-Siberian Orchestra)** and backing vocals by **Kingston and Greystarr** round out the talented band.

The album *Buckle Up* was mixed by producer extraordinaire **Micheal Frondelli (Billy Idol, Pat Benatar, Big Bad Voodoo Daddy, Chicago)**. The album also features guest **Jim Heath (Reverend Horton Heat)** doing a duet with **DD** on the classic **Bobby Darin/Johnny Mercer** song "Two of a Kind". As well as an appearance by the great **Johnny Reno (Stevie Ray Vaughan)** on sax for the song "Lets Go Crazy".

SHAVROCK

HOPE FOUND ME

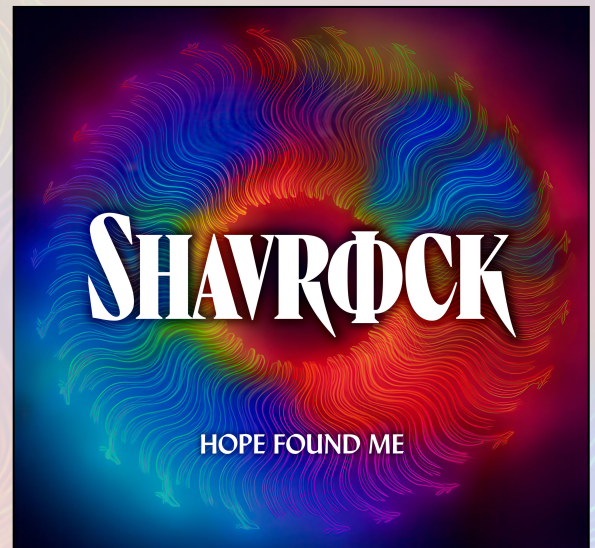

For Fans of Creed, Daughtry, Slash, and Hard Rock!

SHAVROCK is a dynamic rock band from Baltimore, captivating audiences with their powerful blend of vocal harmonies, soulful guitar solos, and deeply meaningful lyrics.

Formed by brothers Nick and Akiva Shavrick, and joined by drummer Yoffi Storch, their 12-song debut album, *Hope Found Me*, will be released digitally August 5, 2025 and on CD through Deko Entertainment soon to follow. The album is produced by internationally acclaimed guitarist and former member of **Guns N' Roses**, **Ron "Bumblefoot" Thal**, who also contributed guest guitar solos on the album.

"Shavrock write beautiful songs," says Thal. "They're great storytellers. Picture a foundation of acoustic guitar with **Simon and Garfunkel** vocals, add a melodic rock band like **Daughtry / Creed** to the mix, and lots of bluesy-rock **Slash-type** melodies and solos - that's Shavrock."

SHAVROCK truly offers the listener a unique experience and style of original music, along with messages of hope, reflection and positivity.

Mutant, in partnership with Back Lot Music, are proud to present the premiere physical release of Benjamin Wallfisch's incredible score to the 2025 Wolf Man.

Leigh Whannell (Invisible Man, Upload) continues exploring the classic Universal monster series, and with Wolf Man he again teams up with composer Benjamin Wallfisch for the score.

Ben's score evokes the lush classic sounds of the original 1940s movie. It's a beautifully light score featuring incredible orchestration, evoking the mystery within the woods. The score is scary and brutal but also delicate and human when necessary.

It's evocative and rich and helps add grounding to this very contemporary telling of this tale.

Five years after the triumphant release of "*Obsidian*", an album that debuted at #4 on the **Billboard Hard Music Charts** and was described by *Kerrang* magazine as "*a sonic experience that's every bit as jagged, reflective and strangely alluring (as the material the album gets its name from),*" the British kings of doom'n'gloom are back! Blending **METALLICA**-esque riffage, **TYPE-O** heaviness, and Nick Holmes' vocals between Gahan, Eldritch and death growl, **PARADISE LOST** and their new album "*Ascension*" are a shining example that some bands get better with age!

The campaign begins with a Limited Edition CD Digi-Pak that contains two bonus tracks. The LP is a Limited Edition Gold, Double Vinyl housed inside of a Gatefold Jacket and includes an album insert.

HIGHER POWER

ARTIST: Higher Power
 ALBUM TITLE: There's Love In This World If You Want It
 STREET DATE: September 19, 2025
 PRE-ORDER DATE: June 27, 2025
 GENRE: Metal
 LABEL: Nuclear Blast

From touring with everyone from **ALEXISONFIRE** and **NECK DEEP** to **COMEBACK KID** and **CANCER BATS** to signing to **Roadrunner Records** for their sophomore full-length '*27 Miles Underwater*,' **HIGHER POWER** have achieved the sort of things that, up until recently, would never have been on the horizon of possibility for a hardcore band of their ilk.

Emerging onto the Yorkshire hardcore circuit in 2015, **HIGHER POWER** began innocently enough emulating and celebrating legendary bands like **LEEWAY** and **MERAUDER** for a new generation. The band quickly gained attention playing their first two shows in the basement of the house owned by **THE FLEX** and at an early iteration of **Outbreak Fest** respectively. The ten years that have followed has seen them ride every ebb and flow that the music industry has to offer.

'*There's Love In This World If You Want It*,' the band's third full length release and debut on **Nuclear Blast**, is a record that encapsulates the **HIGHER POWER** spirit in a way that only those whose hearts are truly entrenched in the band can produce. Peeling away layers of assumption and ideology placed upon them by others and focusing once more on the genre-splicing experimentation that inspired them to create together in the first place, they have produced nine songs that showcase exactly what they are made of in a screaming rainbow of color.

NATIVE SUN 'CONCRETE LANGUAGE'

ARTIST: NATIVE SUN

LABEL: TODO

ALBUM TITLE: Concrete Language

STREET DATE: 19th September

ARTIST HOMETOWN: New York City

GENRE: Rock

CREDITS: Produced & Mixed by Jonathan Schenke (Parquet Courts, Bodega, Snail Mail, The Drums) ; Mastered by Joe LaPorta (IDLES, David Bowie, Run the Jewels, Vampire Weekend)

Description: "New York City's Native Sun blends the raw energy of early punk and garage rock with the melodic sensibilities and depth of art rock. Fronted by Colombian-born Danny Gomez (vox/guitar) alongside Justin Barry (bass/vox), Jack Hiltabidle (guitar), and Argentine-born Nicolas Espinosa (drums), Native Sun is celebrated for their visceral, untamed live shows and Gomez's socially-charged lyrics that confront reality head-on—channeling disillusionment into action and lovingly documenting the lives of society's misfits and marginalized. With a DIY ethos and a devoted following, Native Sun is poised for explosive growth with the release of their debut LP Concrete Language. The band has recently gained press and support from notable outlets including Rolling Stone, So Young Magazine, CREAM, Nylon, DORK, BBC, FLOOD, Brooklyn Vegan, and even Iggy Pop himself."

Tony Hadley is one of Britain's most enduring vocalists, best known as the powerhouse frontman of Spandau Ballet. With his soaring voice and polished stage presence, he helped define the sound of the 1980s New Romantic movement, delivering global hits like True, Gold, and Through the Barricades. Since leaving the band, Hadley has forged a successful solo career spanning pop, jazz, and swing, earning him both critical acclaim and a loyal international fan base.

Now, Tony returns with *The Mood I'm In*—a bold, elegant celebration of swing and big band classics, infused with his unmistakable vocal style. The album features fresh takes on timeless standards, all delivered with the warmth, confidence, and sophistication that only Hadley can bring. At its heart is *Walk of Shame*, a brand new original track that perfectly captures the cheeky charm and swagger fans have come to love.

Available on CD and two exclusive colour vinyl editions, *The Mood I'm In* has been half-speed mastered to Direct Metal Mastering (DMM) and pressed on heavyweight 180gsm vinyl for audiophile-grade sound. Housed in a beautifully printed inner sleeve, this release is not just an album—it's a collector's piece and a musical statement. Whether you're a longtime fan or new to his music, this is Tony Hadley at his charismatic best.

Publicity:

Tony Hadley has been actively promoting *The Mood I'm In* across national media, with recent appearances on major TV and radio platforms including BBC Breakfast, Good Morning Britain, and The One Show, as well as interviews on BBC Radio 2, Classic FM, and Virgin Radio. He has also been featured in prominent print and online outlets such as The Telegraph, Mail Online, MOJO, and Record Collector.

A full UK orchestral tour is supporting the album release, with multiple sold-out shows and glowing reviews praising Hadley's commanding live performances and effortless vocal delivery.

Children Of Bodom

I Worship Chaos is the ninth studio album by Finnish melodic death metal band **Children of Bodom**. It was released on 2 October 2015.

Their skyrocketing start in the mid-90s was a takeoff that newcomer metal bands are still being measured against till this day, almost all of their albums earned gold or even platinum status in their home country and over the past two decades they've become regulars on some of the world's biggest stages – **CHILDREN OF BODOM**. Brought into existence in 1993 by childhood pals **Alexi Laiho** and **Jaska Raatikainen** at the astoundingly young age of 13 and 14 years respectively, the Finnish formation was completed by keyboardist **Janne Wirman** and bassist **Henkka Seppälä** prior to the recordings of their trailblazing 1997-debut **Something Wild** - two additional highly gifted musicians who were devoted to heavy metal wholeheartedly and were to form a congenial entity with **Alexi** and **Jaska** that would bring forth stunningly innovative creations time and again over the course of the following seven studio releases.

Announcement: 8th August 2025

Release date: 26th September 2025

Cat number: KRUNK88CD
UPC: 5021732530905
US Price: \$16.98

Description:

The Guardian ***** - '...with Takk, Sigur Rós have raised their game'

BBC - 'Sigur Rós are back to remind us what 'epic' really means.'

Pitchfork - 'With Takk, the songcraft that once made Aetis Byrjun everyone's favorite sunrise record re-emerges intact.'

To mark 20 years since its original release, Sigur Rós are reissuing their beloved album *Takk...* in a freshly remastered edition that brings new depth and clarity to a modern classic. First released in 2005, *Takk...* is the album that introduced so many to the band, with singles Glósóli, Sæglópur and Hoppípolla bringing a whole new audience.

Takk... was recorded at the band's own studio, Sundlaugin, near Álafoss in the town of Mossfellbær, outside Reykjavík. The album was produced by the band with Ken Thomas, Takk being the third successive and final studio album they worked on together. This reissue has been carefully remastered by the band's long standing mastering engineer Ted Jensen at Sterling Sound. The result is a clearer, fuller sound that keeps all the warmth and magic of the original while letting the details shine through.

First released in 2005, *Takk...* is the album that introduced so many to the band, with singles Glósóli, Sæglópur and Hoppípolla bringing a whole new audience.

Takk... was recorded at the band's own studio, Sundlaugin, near Álafoss in the town of Mossfellbær, outside Reykjavík. The album was produced by the band with Ken Thomas, Takk being the third successive and final studio album they worked on together. This reissue has been carefully remastered by the band's long standing mastering engineer Ted Jensen at Sterling Sound. The result is a clearer, fuller sound that keeps all the warmth and magic of the original while letting the details shine through.

Available on 3 x 12" vinyl for the first time, this edition of the album now contains the 3 original Takk era B Sides as well as two new and previously unreleased tracks: Melrakki and Elfur.

THIS'LL KILL YOU

and

some

Since the early 1940s, Spike Jones' endlessly inventive recordings had made an art out of honking car horns, gunshots, burps, sneezes, hiccups, and all other manner of musical insanity. But, in 1959, monsters were big Hollywood business. *Spike Jones In Stereo: A Spooktacular In Screaming Sound!* appeared on Warner Bros. Records later that year.

Spike's longtime arranger, Carl Brandt, commented "The *Spooktacular* was a complicated album. We finally broke it down and ended up scoring it like a movie, because it had to be done in bits and pieces." And, the results were astounding. Taking advantage of the new format of stereo (just beginning to take hold across the country), *In Stereo* pushed the audio separation to its limits.

Credited to Spike Jones And The Band That Plays For Fun, vocals were handled by then and future superstars. Paul Frees was not only the "voice" of Boris Badenov and original Pillsbury Doughboy, but thrilled and chilled the millions who rode Disneyland's The Haunted Mansion as its unseen Ghost Host and tour guide. Thurl Ravenscroft was grrreat as Tony The Tiger, and became beloved after singing the iconic "You're A Mean One, Mr. Grinch" from 1966's *How The Grinch Stole Christmas*. George Rock helped propel Jones to #1 in both 1948 and 1949 singing "All I Want For Christmas Is My Two Front Teeth," and Loulie Jean Norman, who sang in Disney's *Alice In Wonderland* (1951) and *Peter Pan* (1955), later "sang" the wordless theme for the 1966–69 television series *Star Trek*.

Spike Jones In Stereo became a classic, even appearing in horror magazine advertisements through the mid-'70s. Its stature only grew with appreciation from Dr. Demento and "Weird Al" Yankovic, who said "If I've got any kind of goal, it's to aspire to be in this generation what Spike was in his."

So, prepare yourself to (re)discover *Spike Jones In Stereo*—newly remastered, available on LP for the first time in nearly 50 years, and on CD. (Plus the LP comes pressed on slime-green vinyl! Spooky!) "I think this album will make you laugh. It's never *not* funny," Leslie Ann Jones shares in the new liners from Joe Marchese (theseconddisc.com)—which also feature new interviews with Spike's other children, Linda Lee Jones and Spike Jones, Jr. "His music was always multi-generational. I think he would be very pleased now that it's still reaching new audiences." *Fangs for the memories*, Mr. Jones.

BUY! HERE'S WHY!

SOFT ERROR

The 3rd EP [Soft Error]

Yves is a South Korean solo artist best known for her genre-blending sound—fusing pop, alternative, and raw emotional resonance. First introduced to global audiences as a member of the trailblazing girl group LOONA, Yves has since reinvented herself as a bold, introspective solo act. With distinctive vocals, striking visuals, and a growing international fanbase, Yves is quickly becoming one of the most compelling voices in Korean music today.

Her upcoming third EP, *Soft Error*, marks a bold evolution in her artistry. The project explores the quiet dissonance between internal change and external reality. After undergoing emotional fractures, Yves reemerges— not to explain, but to exist.

The title *Soft Error* borrows from computer systems, referring to a subtle, temporary glitch—used here as a metaphor for emotional pauses, silences, and unspoken truths. It's a meditation on identity and stillness, wrapped in sleek alt-pop production, dreamlike melodies, and visceral storytelling.

For listeners seeking depth, elegance, and edge—Yves' *Soft Error* offers a genre-defying experience that is both globally accessible and emotionally resonant.

THE ZOMBIES

ODESSEY AND ORACLE (MONO REMASTERED)

Odyssey and Oracle features fan favorites “Time of the Season” and “This Will Be Our Year” and is the resurrection story that keeps on giving. This new edition is the first time the band’s original mono mix has appeared on LP since the record’s British issue in April 1968 and it’s the first time ever in America.

Odyssey and Oracle, The Zombies’ second album, has been named as one of Rolling Stone’s 500 Greatest Albums of All Time and has been dubbed “a psych-pop masterpiece...decades ahead of its time” by Pitchfork. The newly remastered in mono album now has new liner notes by the brilliant David Fricke – an edited excerpt is below.

Odyssey and Oracle is very much of and about its time: songs of youth and love – the lucky strike of attraction (“I Want Her She Wants Me”); flickering memories held tight (“Brief Candles”); longing that defies the odds (“Maybe After He’s Gone”) – from pop’s high season of amour, a crowded nirvana of landmark debuts (Pink Floyd, the Doors, the Jimi Hendrix Experience) and definitive accounts of Britain’s psychedelic bloom: The Who Sell Out, Procol Harum, Disraeli Gears. That’s John Lennon’s mellotron, a signature sound of the age (left behind at Abbey Road after the Sgt. Pepper sessions), played by Argent in “Changes” – the rippled bursts of Gothic church framing the full band’s English-Beach Boys vocal cascades – and the love-in memoir “Hung Up on a Dream,” the mellotron dancing with Atkinson’s bell-tone guitar as Blunstone (in the verses) and Argent (in the bridge) reflect on a new age that was fast becoming past tense.

“Time of the Season” was, of course, the entrance to everything, a million-selling U.S. single and the first song most people heard from *Odyssey and Oracle*. The double-tracked organ solo was a fortunate accident in the mixing, like Argent playing in a hall of mirrors, while the studio tensions over Blunstone’s vocal belie the elegant, whispered spell of the outcome, the dramatic climax of an album that is (as I once wrote in Rolling Stone) “the closest Mother England ever came to its own Pet Sounds.”

But it’s earlier on Side Two, in “This Will Be Our Year,” that the Zombies summed up with compact pop-soul bravado – and uncanny prophecy – the odyssey and miracle here. “This will be our year/Took a long time to come,” White wrote and Blunstone sings with feathery certainty in the chorus. The song is about enduring faith and devotion on a record that has become one of the most acclaimed and adored of all time. It wasn’t always this way. It is now – and again in mono.

– David Fricke

The announce of the new mono remaster of *Odyssey and Oracle* on August 8 comes on the heels of the theatrical release of The Zombies documentary *Hung Up On A Dream* in mid-May. The film features interviews with the band in addition to contemporary fans like Harry Styles, Finneas and Haim. The documentary was executive produced by Tom Hanks and directed by Robert Schwartzmann (from the band Rooney!).

STEVIE SALAS COLORCODE

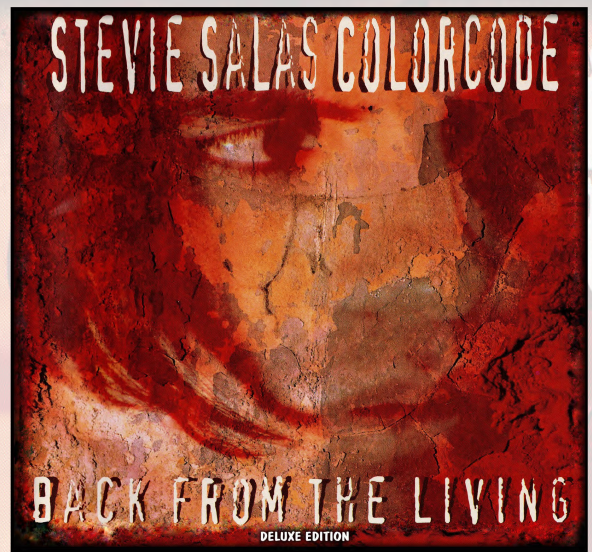

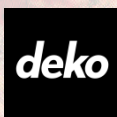

BACK FROM THE LIVING (DELUXE EDITION)

For Fans of Stevie Salas, Sass Jordan, and R&B and Funk!

A guitar player, writer, producer, and composer, **Stevie Salas** has recorded on over 70 different albums with artists as diverse as **George Clinton**, **Justin Timberlake**, **Buddy Miles**, **T.I.**, **Mick Jagger**, and **Rod Stewart**. Having sold over two million solo albums around the world, Stevie has been cited as one of the top 50 guitarists of all time.

Dreaming of a career in music, Stevie left the small town of Oceanside, California in 1985. Eight months later he was discovered by funk music legend **George Clinton** as the lead guitarist for Clinton's albums. Stevie received his first major label producer credit with **Was (Not Was)** when he co-produced the UK hit "**Out Come the Freaks**" from the Album *What up Dog?* Rolling Stone Magazine listed "What up Dog?" as one of the top 100 records of the decade.

With an extensive solo career, Stevie has now teamed up with **Deko Entertainment** to reissue some of these albums starting with the **30th Anniversary** of *Back From The Living (Deluxe Edition)*. Remastered and Repackaged on Translucent Ruby Vinyl featuring 20 songs for a Deluxe Double LP, curated from all the original release variations.

PRESIDENT are an anonymous UK-based collective operations at the intersection of heavy music, electronic experimentation, and cinematic atmosphere. Refusing to conform to the traditional structures of genre or identity, PRESIDENT prioritize intent over image - shifting the spotlight away from individuals and post-rock, layered with industrial textures, programmed beats, and dynamic arrangements that lean into tension, release, and emotional weight. Their material moves with precision - considered, deliberate, and always atmospheric. Every element serves the wider vision.

Having launched without fanfare and operating without personal profiles or commentary, PRESIDENT has cultivated intrigue through minimalism and control. Their visual and sonic identity is cohesive and considered - every release, image, and post feeds into a tightly held narrative. There is no chaos here. There is no guesswork.

Built to exist outside the noise, PRESIDENT are not here to chase attention. They are building something that invites deeper investment - designed to be discovered, not sold.

After 3 months of cryptic teasing, PRESIDENT are taking the rock scene by storm. Post one of the most talked about performances of Download, PRESIDENT unveiled their debut EP, King of Terrors. Comprised of six tracks, the EP goes on pre-sale July 18th and will be released September 26th.

Mutant, in partnership with Sony Classical, is proud to present Academy Award® Winner Ludwig Göransson's (Oppenheimer, Black Panther, Creed, The Mandalorian) original score to this spring's runaway sensation - Ryan Coogler's SINNERS

The on-going collaboration between Ludwig Göransson and writer-director Ryan Coogler has been long discussed, but on their first collaboration since Fruitvale Station that exists outside of known IP (Marvel's Black Panther and its sequel Wakanda Forever, and the Rocky legacy series Creed) the score to SINNERS is a masterclass in genre. Blending blues, gospel, soul, country and horror film elements, all combined to make one of the most engaging and powerful film scores in recent memory.

The score is available digitally from Sony Classical (visit Amazon or any other major digital music services to stream/download).

Mutant, and Sony Masterworks will also release a second album featuring the original soundtrack to the film featuring songs by Miles Colton, Rod Wave, James Blake, Don Toliver, Brittany Howard, Raphael Saadiq, Hailee Steinfeld, Rhiannon Giddens, Buddy Guy, & others.

SINNERS is written and directed by Coogler and stars Michael B. Jordan, Hailee Steinfeld, O'Connell, Wunmi Mosaku, Omar Benson Miller, Jayme Lawson and Delroy Lindo. The Proximity Media production will be released in theaters nationwide on April 18 by Warner Bros. Pictures.

. Mutant, in partnership with Netflix, are proud to present the premiere physical media release of Alan Silvestri's epic score to the Netflix original film The Electric State.

One of the most important and prolific composers of our lifetime, Alan Silvestri (The Back To The Future Trilogy, Forrest Gump, Predator, Who Framed Roger Rabbit and so many more) rejoins the blockbuster filmmaking duo Joe and Anthony Russo (Avengers: Endgame, Captain America: The Winter Soldier), to score their latest sci-fi epic based on the graphic novel by legendary artist Simon Stålenhag.

Set in an alternate, retro-futuristic version of the 1990s, The Electric State tells the story of Michelle (Millie Bobby Brown) an orphaned teenager navigating life in a society where sentient robots resembling cartoons and mascots, who once served peacefully among humans, now live in exile following a failed uprising. Everything Michelle thinks she knows about the world is upended one night when she's visited by Cosmo, a sweet, mysterious robot who appears to be controlled by her younger brother - whom she thought was dead. Determined to find the beloved sibling she thought she had lost, Michelle sets out across the American southwest with Cosmo, and soon finds herself reluctantly joining forces with Keats (Chris Pratt), a low-rent smuggler, and his wisecracking robot sidekick, Herman (voiced by Anthony Mackie).

Tender, melodic, and sweeping in scope, Silvestri brings to life the tender road movie layered underneath a dystopian science fiction adventure.

This limited edition physical release is pressed on 2x 140gm smoke color vinyl.

Mutant, in partnership with WaterTower Music, are proud to present the premiere physical release of Hrishikesh Hirway's score to COMPANION. Hrishikesh Hirway's (creator of the award-winning podcast Song Exploder) score begins by earnestly paying tribute to the plucky romance at the center. It invites you, lovingly into its rose-colored world just long enough to lower your guard before deftly switching gears into the twisted genre score buried underneath.

Chaotic as that may sound, the score is continually grounded with an incredible melodic hook incorporating lead actor Sophie Thatcher's voice ("Iris' Theme"), that pays homage to another fractured fairy tale, Rosemary's Baby. But don't read too much into that comparison. The twists and turns of COMPANION are uniquely their own, and best avoided for the optimal experience.

Featuring artwork by Greg Ruth, and pressed on 140 gram pink marble vinyl.

Mutant, in partnership with Walt Disney Records and Lucasfilm Ltd, is proud to present the premiere physical release of Mick Giacchino's original soundtrack to the hit limited series Star Wars: Skeleton Crew

Pirates, aliens, hidden treasure, and spaceships - Jon Watts and Christopher Ford (Spider-Man: Homecoming) have meticulously crafted a tale of four kids on the adventure of a lifetime through a far, far away world of grown-ups. Its winning and clever homage to the 80's Amblin era style of family adventures, that feels at times like what it was like to play Star Wars in your backyard, or living room as a child.

Mick Giacchino (The Penguin) knows this better than anyone, giving weight and sincerity to a story that is equal parts joyful, scary and fun. The score is full of life, bombast and a swashbuckling energy that is one of the best collections of modern Star Wars themes to date.

Mutant, in partnership with Searchlight Pictures and Hollywood Records, is proud to present the premiere physical release of Nate Heller's soundtrack to the film *NIGHTBITCH* from Marielle Heller, featuring exclusive artwork by Mira Mariah (GirlKnewYork).

Nate Heller (*A Beautiful Day in the Neighborhood*, *Diary of a Teenage Girl*, *Can You Ever Forgive Me?*) has crafted a beautiful, bouncy and haunted score for the complicated life of a stay at home mother. Choruses and strings swell in periods of bliss, and droning synths drown the air in periods of darkness - this dichotomy is present in the story of a woman who's evolving while feeling stuck at the same time

Nightbitch stars Academy Award nominee Amy Adams as a woman who pauses her career to be a stay-at-home mom, but soon her new domesticity takes a surreal turn. The film is produced by Anne Carey, p.g.a., Marielle Heller, p.g.a., Sue Naegle, p.g.a., Christina Oh, Amy Adams, and Stacy O'Neil. It also stars Scoot McNairy, Arleigh Snowden, Emmett Snowden, Zoë Chao, Mary Holland, Archana Rajan, and Jessica Harper.

Now available for pre-order at Mutant's webstore, madebymutant.com, the *NIGHTBITCH* Original Motion Picture Soundtrack is pressed on 140g black vinyl and limited to 500 copies worldwide.
