The band was formed in 1995 in their hometown of Springfield, Massachusetts. Over the course of their career, the band has released seven studio albums and eight Top 10 singles, selling over 15 million albums worldwide. Break The Cycle, released in 2001 and RIAA certified 5x platinum, featured the smash single, "It's Been Awhile," one of the most played songs in modern rock radio history, spending 20 weeks at Number 1. In 2019 after a five-year hiatus, STAINED reunited for some unforgettable festival performances, and a hometown reunion show at Foxwoods Casino in Mashantucket, CT where their upcoming album, Live: It's Been Awhile was recorded.

5. ONE MORE TIME 6. YOU STILL GET ME HIGH 7. HANDS 8. GREEN LIGHT
9. VEGAS HIGH 10. 10 OUT OF 10 (OLIVER HELDENS FT. KYLIE MINOGUE)
DELUXE TRACKS: 12. LOVE TRAIN 13. JUST IMAGINE 14. SOMBODY TO LOVE

TENSION is eleven tracks of unabashed pleasure-seeking, seize-the-moment, joyful pop tunes with the hypnotic electro of 'Padam Padam' opening the album.

Discussing TENSION, Kylie says, "I started this album with an open mind and a blank page. Unlike my last two albums there wasn't a 'theme', it was about finding the heart or the fun or the fantasy of that moment and always trying to service the song. I wanted to celebrate each song's individuality and to dive into that freedom. I would say it's a blend of personal reflection, club abandon and melancholic high."

PROJECT OVERVIEW

"Behold plays like an audio time capsule built of saxes, trombones and other horns (even tubas!), upright bass, brushes on drums, mellow sounding hollow body guitars, and vocals that are rich and distinctive but still somehow laid-back in their feel. Whereas Lauren Daigle's debut album was energy-laced, radio-ready pop, her Christmas project seems in some ways to be a confident re-imagining of her own versatile vocal gifts, showcased in a more mature and subdued, but also more eloquent, context."

About Lauren Daigle:

Lauren Daigle is a two-time GRAMMY, seven-time Billboard Music Award and four-time American Music Award winner. Her platinum debut, *How Can It Be*, produced three number one songs including GRAMMY nominated "Trust in You." Her sophomore release *Look Up Child*, and second platinum album, broke geographic and musical boundaries. *Look Up Child*, earned Daigle a second GRAMMY Award and debuted at No. 3 on the Billboard Top 200 Album chart. It featured her triple-platinum smash "You Say," the longest-running No. 1 song to appear on any Billboard Hot chart. It also produced the platinum selling "Rescue," and gold certified "Still Rolling Stones" and "Look Up Child." Daigle's ability to connect with her audiences has helped make her the fastest-selling new artist (of her genre) in the past decade and gave her soulful, authentic, vocal power a worldwide audience. She's amassed a billion worldwide streams and sold-out headline shows around the globe.

BIG TIME RUSH

4TH STUDIO ALBUM **ANOTHER LIFE**

FT. WAVES + CAN'T GET ENOUGH

BIG TIME RUSH became an overnight sensation in 2009 when the eponymous TV show launched on Nickelodeon. Following the huge success of the show, **Carlos PenaVega, Kendall Schmidt, James Maslow, and Logan Henderson** came to life as a band off the screen releasing 3 studio albums and performing at sold-out arenas across the globe. After the show's conclusion and a 7 year hiatus, the band reunited in 2020 in an effort to bring joy to their fans during quarantine. This was soon followed by an acoustic version of their smash hit, **WORLDWIDE**. These appearances resulted in hysteria amongst fans and in the media, followed by BTR receiving **10M+** streams in 2020 alone.

Their 4th studio album, **ANOTHER LIFE** ft. **WAVES, CAN'T GET ENOUGH**, and **SUPERSTITIOUS** in partnership with BMG is **OUT JUNE 2ND**. 35+US TOUR dates kick off Summer 2023.

ANDY TAYLOR

~~MAN'S A WOLF TO MAN~~

PREORDER - 19 JULY 2023

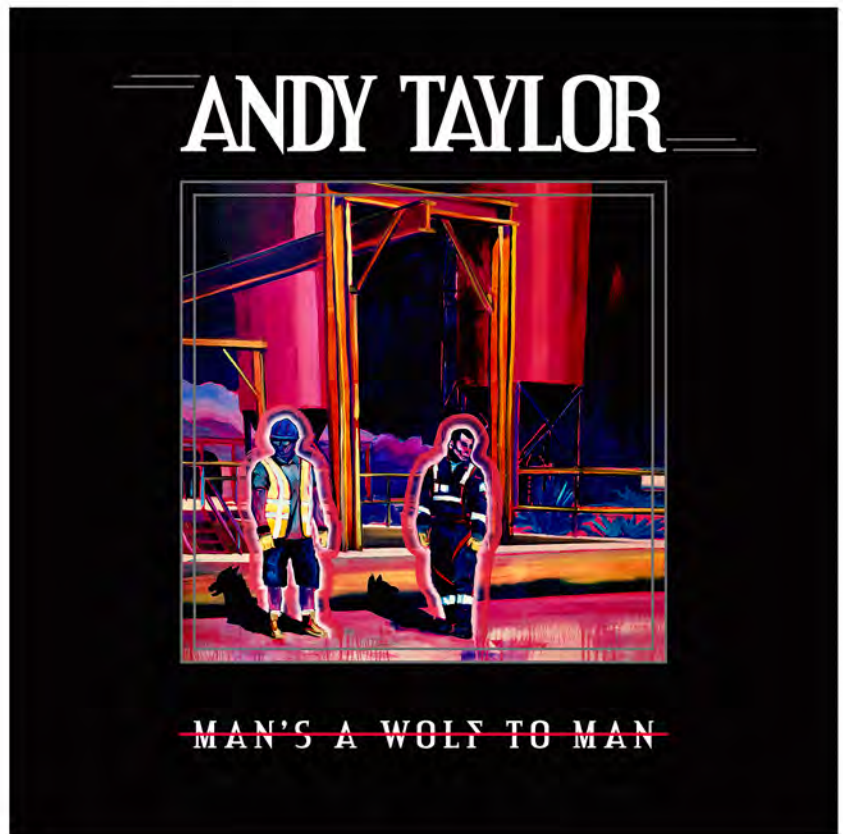

RELEASE - 22 SEPTEMBER 2023

'Man's A Wolf To Man' is Andy Taylor's third solo album and his first in 30 years. The record is a pandemic album, and a cancer album, and a state-of-the-world album, but still a triumph of joyful, uplifting music. Originally intended for release in 2020, Andy used the opportunities of the Covid lockdowns to re-examine the album retool it under his own unique circumstances. Then, in 2022 he was given the news that the prostate cancer he had been battling was now terminal and the diagnosis meant he was unable to attend his induction into the Rock And Roll Hall Of Fame as a member of Duran Duran. However, this directly led to a reconciliation between Andy and the band and he is optimistic that pioneering targeted nuclear therapy will give him longer than he had originally believed.

2023 finds Andy Taylor on top of the world, with a truly fantastic and career-defining solo album, and bridges rebuilt with his old friends and bandmates. The future looks bright, for as long as it can last, whatever length of time that might be.

Telex

Looking For Saint-Tropez (Remastered)

Street Date: 9/22/2023

Mute is excited to announce the reissue of Telex's *Looking For Saint-Tropez*. Out September 22nd on black vinyl.

Looking For Saint-Tropez was Telex's debut album originally released in 1979. It contains covers of Plastic Bertrand's pop-punk "Ça Plane Pour Moi" and Bill Haley's "Rock Around The Clock," in which, so to speak, all of the rock is removed leaving nothing but the clock; a ticking, vocoderised, supremely deadpan robot parody of the original. Had Telex merely confined themselves to such covers they might have been regarded as a rather clever comedy band. But they also cut "Moskow Diskow," a rollocking, swerving, steaming dancefloor classic, a track which lays down the railroad for as yet unimagined electronic musics such as House and Techno. Years ahead of its time, its reputation has only been enhanced over time, as other, more date stamped electropop has fallen by the wayside.

This is released alongside black vinyl reissues of *Neurovision* and *Sex* following the limited edition color vinyl box set release. *Wonderful World, Looney Tunes* and *How Do You Dance?* are set for release later in the year.

The Belgian synthpop trio - Marc Moulin (1942- 2008), Lacksman and Michel Moers - launched in Brussels in 1978 and, as one of only a handful of synthpop pioneers at the time, helped bring electronic pop to the mainstream. Telex announced their retirement in 2008, following Moulin's death, and in 2021 began a new partnership with Mute beginning with the release of *This Is Telex*.

Neurovision (Remastered)

Street Date: 9/22/2023

Mute is excited to announce the reissue of Telex's *Neurovision*. Out September 22nd on black vinyl.

Originally released in 1980, the album was the follow up to their debut *Looking For Saint-Tropez*, and includes the track "Euro-vision" which was famously entered into the Eurovision Song Contest, representing Belgium. Moers says he regarded their entry as "very Situationist International, the worm in the apple" and they resolved either to come first or last. They didn't achieve that goal, but became part of the Eurovision saga.

This is released alongside black vinyl reissues of *Looking For Saint-Tropez* and *Sex* following the limited edition color vinyl box set release. *Wonderful World*, *Looney Tunes* and *How Do You Dance?* are set for release later in the year.

Sex

(Remastered)

Street Date: 9/22/2023

Mute is excited to announce the reissue of Telex's *Sex*. Out September 22nd on black vinyl.

For 1981's *Sex*, the trio teamed up with Sparks, a match made in heaven given both band's determination to make electronic pop music suffused with conceptual wit. They got along tremendously, Ron & Russell Mael staying on in Brussels far longer than they'd originally intended, and Sparks contributed to the entire album.

This is released alongside black vinyl reissues of *Looking For Saint-Tropez* and *Neurovision* following the limited edition color vinyl box set release. *Wonderful World*, *Looney Tunes* and *How Do You Dance?* are set for release later in the year.

ALBERT BOUCHARD

IMAGINOS III: MUTANT REFORMATION

For fans of Blue Öyster Cult, Blue Coupe, and Classic Rock!

Albert Bouchard is best known as one of the founding members of **Blue Öyster Cult**. The original band sold millions of albums for **Columbia Records** with such classic songs as “Don’t Fear the Reaper” and the #1 hit on the Billboard Mainstream Rock chart “**Burning For You**”.

As a songwriter, he wrote many **BÖC** songs including the very popular “**Astronomy**” (which was covered by **Metallica** on their 1998’s release **Garage Inc**) and the live staple “**Cities on Flame with Rock and Roll**”, which he also sang lead vocals.

Albert’s famous cowbell on “**(Don’t Fear) The Reaper**” was the basis of the popular SNL skit with **Will Ferrell** and **Christopher Walken**, which has gained over 23 million views and spawned the phrase “**More Cowbell**”.

“**Imaginos 3 – Mutant Reformation**” sees Albert concluding the Trilogy of **Imaginos**, a concept album about an alien conspiracy that is brought to fruition during the late 19th and early 20th century through the actions of **Imaginos**, an agent of evil. The album weaves scripts and poems by the late **Sandy Pearlman**. It features guests **Ross The Boss (Dictators)**, **Joe Cerisano (Silver Condor, TSO)**, **Kasim Sulton (Utopia, Todd Rundgren, etc...)**, **Kenny Aaronson (Billy Idol, Bob Dylan, etc...)** and reunites original **Blue Öyster Cult** members **Eric Bloom**, and **Joe Bouchard**, as well current BOC member **Richie Castellano**, who all contribute to this latest installment. The album also features reworks of classics like “**Godzilla**”, “**ETI**”, and “**Soul Survivor**”.

Dark metallers AMORPHIS finally reissue their chart-topping album 'The Beginning Of Times' on Jewelcase CD

Artist: AMORPHIS
Title: The Beginning Of Times
Original release Date: 05/27/2011
Re-release date: 09/22/2023
Label: ATOMIC FIRE
File Under: METAL

Being in the game for more than 30 years, successful melancholic dark rock/metal masters AMORPHIS still manage to surprise, to delight and to step up to their status. With their tenth studio album »The Beginning Of Times« these Finns prove once more that there is no other band if it comes to amazing, natural sounding melodies, deep emotions and a bit of unique sonic darkness - powerfully performed with some more really heavy parts this time around. This album will be your soundtrack for both cosy summer nights as well as the following fall and winter season!

The central character of the new songs is the iconic hero of Finnish mythology, Väinämöinen, whose tale has been masterfully retold by lyricist Pekka Kainulainen. The new album definitely marks AMORPHIS' most challenging release of both music and lyrics. It comprises 12 songs with a total length of 54 minutes.

„The Beginning Of Times“ was produced by the band; vocals were recorded under the guidance of Marco Hietala (NIGHTWISH, TAROT) in his home studio in Kuopio. Like its predecessors, the album was mixed by Mikko Karmila. Its cover artwork shows Travis Smith's magnificent interpretation of the mythological birth of the world from a goldeneye's egg.

Emmett is now releasing worldwide *Then Again...*, as he states, "There seems little point in simply trying to repeat history, so we came at it from a different place: the place where Dave Dunlop and I deal with these songs now, on smaller nightclub & intimate listening room stages. Honoring the endurance of these songs, but giving them a fresh, stripped-down and 21st century D.I.Y. perspective" Enjoy reimagined versions of classics like, "Lay It On the Line", "Magic Power", and "Fight The Good Fight".

PROJECT OVERVIEW

Journeying with Jesus is a lot like navigating the Wild, Wild West. The path is rarely predictable, but it's always far better than what we could ever conceive on our own. And that's the secret Patrick Mayberry has uncovered on *Wild Faith*, his first full-length album and an invitation to bravely explore the great unknown.

On the heels of an initial six-track EP, Mayberry unveils a complete LP that gives fans a further glimpse into his courageous heart. On *Wild Faith*, he expands his repertoire by effortlessly straddling the line between congregational friendly selections and personal observations, all artfully crafted and intentionally threaded together to take listeners on a life-changing expedition — one song at a time.

The album's theme of unbridled belief captures the essence of a book that inspired Mayberry — Brennan Manning's *The Relentless Tenderness of Jesus*. "It struck such a nerve with me because it painted this picture of faith as being this wild pioneer spirit where you're on the trail; your hands are dirty; your wagon has arrows shot through it; it's a hard, rugged life," Mayberry explains. "God is the wagon boss, and He says when we move and when we don't move. Jesus is the scout who runs up ahead and reports back, and the Holy Spirit is the wild, wily buffalo hunter, who always shows up with fresh meat for the day."

Mayberry's LP sets a large table for everyone. With untamed melodies and astute lyrics, *Wild Faith* beckons the wounded and healed alike into the experience of a lifetime. "Anyone who has put their faith in Jesus is a son or daughter of the God of the Universe, who intimately knows them and cares about every little detail of their lives. Your biggest plans and wildest dreams for your life? God's are likely wilder, bigger and crazier," he says. "Following God can be scary, but I promise, following Him is always going to be deeper and richer and better."

Keeper of the Seven Keys: Part I is the second studio album by German power metal band Helloween, released in 1987. It marks the first appearance of vocalist Michael Kiske, and is considered the album that created the genre of European-style power metal. Kai Hansen stepped away from doing vocal duties and new recruit Michael Kiske took over. "Future World" was released as a single and a music video was made for the epic "Halloween". The band originally planned to release Keeper of the Seven Keys: Part I and Part II as a double album, but their record label decided that the albums be released separately. Loudwire named the album at third in their list "Top 25 Power Metal Albums of All Time" and commented the album is "a tireless LP and perhaps the first genuine power metal album." ThoughtCo also named the album in their list "Essential Power Metal Albums."

- ★ Limited edition green and black swirl vinyl

It almost seems churlish to regard Celtic Frost as one of the great extreme metal bands, because they were so much more than that. It's better to hail them as among the finest extreme and experimental bands of the 1980s. Refusing ever to do what was expected or demanded, the band constantly changed musical direction, always brought in surprising influences, and kept people guessing as to where they might venture next. Their catalogue of albums is formidable and unmatched. Each is not only unique, but part of an entire tapestry that only now can be appreciated for being a remarkable part of music history. Despite, or maybe because of, constant turmoil on so many fronts, Celtic Frost achieved an artistic level few others would even have dared to dream of aspiring towards. They climbed high because they were never afraid to fall. Which is why the band are now rightly regarded as icons, and iconoclasts.

Emperor's Return is the second release by the Swiss extreme metal band Celtic Frost. It was released in 1985 as an extended play and was their first record featuring American drummer Reid Cruickshank (a.k.a. "Reed St. Mark"). The band's bleak publicity photographs from this period had an influence on the fashion and style of the developing black metal genre. This EP has been out of print and available on its own since 1985.

THE GLORIOUS SONS

The Glorious Sons have resolutely manifested all of rock 'n' roll's most positive principles from their very start – creativity and adventure, passion and truth, energy and expression, individuality and spirit of community. Now, after a four-year journey fraught with multiple stops and starts, the Kingston, ON-based band returns with *Glory*, an album co-produced by Brett Emmons and Frederik Thaae, that fully captures the depth and breadth of their vast artistic vision. Fired by a remarkably vivid sonic approach and raw, heartfelt lyricism, stellar new songs bum bright with incandescent emotional truths that are somehow both deeply personal and wholly universal.

Founded in 2011 by Jay Emmons and Adam Paquette, and joined shortly thereafter by vocalist Brett Emmons, The Glorious Sons immediately caused a commotion with their immense ambition and impassioned songcraft, unleashing three studio albums that earned them two #1 Rock airplay smashes in the US and thirteen consecutive top 10 Rock radio hits in Canada. 2014's debut album, *The Union*, affirmed their breakthrough success with a prestigious JUNO Award nomination for "Rock Album of the Year," fueled in part by such singles as "Heavy," "Lightning," and "The Contender," the latter of which proved the band's first ever #1 at Canadian Rock radio.

Like any rock 'n' roll band worth its salt, The Glorious Sons have spent a great deal of their existence on the road, from headline tours, support runs, and showstopping festival sets to three unforgettable stadium shows supporting The Rolling Stones and more recently, a top-billed appearance alongside Pearl Jam in London, England's Hyde Park. The global pandemic changed all that of course but at least allowed the band a chance to step back and assess what they'd accomplished thus far. The Glorious Sons are back on the road this Fall with *The Glory Tour* hitting 57 cities across North America.

From their very start, The Glorious Sons have achieved the near impossible by sounding both familiar and unprecedented, offering a bold new idea of what it means to be a rock 'n' roll band in the modern era. Now, with *Glory*, The Glorious Sons have pushed themselves to the brink to create something meaningful, true, and undeniably their own.

HEAVY WATER'S SOPHOMORE ALBUM "DREAMS OF YESTERDAY" OUT SEPTEMBER 29

The star-studded 'father and son duo' – SAXON's Biff Byford and Seb Byford (Naked Six, Sun King) - have come together once again to produce Heavy Water's sophomore album, *Dreams Of Yesterday*, set for release via Silver Lining Music on September 29.

With thunderous basslines and haunting vocals, with riffs soaked in blues and grunge, yet rich with the sound of classic hard rock, *Dreams Of Yesterday* is a skilfully executed slice of rock 'n' roll that refuses to let you go.

Written, recorded and produced by Seb Byford and Biff Byford, *Dreams Of Yesterday* is comprised of ten songs of catchy hooks and incredible vocal harmonies. The title track, inspired by the music scene of 1965 West Coast America, takes you on a journey back to a time of great musical revolution, whilst the stunningly contemplative "Never Love Again" is a looming spectre of heartache and disillusionment.

With Seb on guitar, Biff on bass and rhythm duties and both providing their vocal talents, the foundations for Heavy Water's blend of vintage and modern rock sound are set in both that incredible father/son chemistry and a lifetime of know-how and experiences.

Dreams Of Yesterday will be released on CD Digipak, Digital Download and Streaming. Available to pre-order from July 5th 2023.

HACK OF THE YEAR | DALE HOLLOW

DESCRIPTION

"Stupid is as stupid does / does that make me the dumbest one of all time?"

—Dale Hollow, "Hack of the Year"

A bit Andy Kaufman, a little Orville Peck, a hint of Father John Misty, Dale Hollow possesses "a fascinating combination of performance and purveyed authenticity," as the lifestyle magazine *Mundane* once posited, while also noting that "no other country music artist has ever claimed to be the best, except for Dale Hollow."

Legend has it that Dale actually tried to trademark the phrase "The Country Music Superstar," so every time someone like Luke Bryan, Loretta Lynn, Jessica Simpson or Darius Rucker attached that phrase to their names, Dale gets some cash.

And while Hollow can be purposely self-elevating, that seemingly tall tale is true. "I sent \$150 to the copyright office...and I got denied instantly," he says. "That's why I use that parenthetical justification (trademark pending)."

A mysterious figure in the country music world, here's what we do know: Hollow, who hails from Nashville and is named after the Kentucky reservoir, had an inauspicious start to his music career. The future country legend was just trying to pay off \$35,000 in back taxes. "I was trying to get cash fast," he admits. "One day, sitting in an internet cafe, I read this article that detailed how Luke Bryan was the most profitable artist in streaming. So I just thought, 'I'll do what he does.'"

Thankfully, that odd inspiration has led to some not-so-seriously good music. Dale's new record, *Hack of the Year*, is a hoot, full of crooning, shuffling beats, yelps and plenty of self-effacing singalongs. "Don't Wanna Do Anything" is a legit slacker anthem, while "I'm a Lover" serves as a rollickin' love song with a hint of Roadhouse menace. Several moments here, including the title track and "Dead End Job," possess a real sense of melancholy.

There's also a stream of consciousness at work on the album, most notably with "Cowboys on TV," a hootenanny take on listicle songs (akin to "It's the End of the World As We Know It"). "It's such a dumb idea," says Hollow, almost proudly. "It started as a story about wanting to be a cowboy, and it ended up with me Googling performers who had played cowboys on screen and reading off the list. Maybe Google gets a co-write on that one."

While there's a bit of an arched eyebrow that comes along with some of Hollow's work, the record itself and the live show

are musically savvy. Credit there goes to Hollow's partners in crime, The Long Con, featuring music vets Chris Winfree, Dalton Smith, Miranda McLaughlin and Nick Morelly. "My best talent is finding more talented and capable musicians," says Dale.

Which doesn't mean Hollow isn't the focal point when it comes to the live setting. "There's a lot of energy from me on stage — it's a very kinetic show," says Hollow. "There are a lot of jumps and kicks and unnecessary and unorthodox things. But it's not frenetic that you can't pay attention! Also, I'm 6'5" — throw on a cowboy boots and a cowboy hat, I'm pretty good at making myself look goofy. A tall guy with a hat on stage, that's amusing."

Dig a little deeper into *Hack of the Year* and you'll find fun little details: The record features several verbal monologues (h/t to Ray Price's honky tonk classic *Night Life*), some country music Easter eggs (including a Gary LaVox/Rascal Flatts shoutout) and even some influences from outside of the country music world. Including, surprise, Childish Gambino. Says Dale: "I love his sense of borderline unnecessary oversaturation of pop culture references" (and those are in abundance on *Hack*, be it *Forrest Gump*, Cincinnati Bengals QB Joe Burrow or NFTs).

Is it all an act? While Hollow does admit he wants to take "a bit of the piss out of some of the self-seriousness" of Americana and country music, he's legitimately a huge fan of the genre (and remember, a Nashville native). "We have country music fans coming on board," he says. "I'm just placing myself in the country music world in an unorthodox way. But I think you could be anyone who likes music and enjoy our show, whether you prefer Luke Bryan or Beach House."

If you've made it this far and noticed that we've mentioned Luke Bryan three times, that's on purpose. "I have a somewhat vague personal vendetta against Luke," says Hollow. "He's my arch nemesis. I'm punching up." (We won't spoil it here, but Hollow has met the country music chart-topper — but you'll have to hear the whole story at his shows.)

But is the album title a bit, well, too bashful? "If you think the record is good, it's clever," argues Hollow. "And if you think it's bad, well, I can say I knew it was!"

And then he adds, quickly: "But I would never say that about my own record."

SHADOW'S SYMPHONY

THE HOUSE IN THE MIST

For Fans of Horror, Halloween, and Haunted Attractions!

Shadow's Symphony creator **Grant Smoker** has loved everything to do with **Halloween** since he was a kid and always wanted to be able to contribute or be a part of **Halloween** in some way. Hearing music at **Haunted Attractions** inspired him to start writing and recording. He writes this instrumental music with haunted attractions, films, and gaming in mind. Since 2014 **Shadow's Symphony** has been played in haunts around the world. Each album that he writes has a different theme, which means different instrumentation as well as style that pertain to the theme of the album. There's a bit of everything from melancholy piano to full blown dark orchestral strings and creepy ambient synth over the course of an album.

For this release, **The House in the Mist** was written using unpolished instruments and synthesizers to match the "look and feel" of old silent films. It was his first album written in 2011 and is still a popular choice for haunted attractions. This is a fist in a multi part series from **Shadow's Symphony**.

DOOMSLIDE

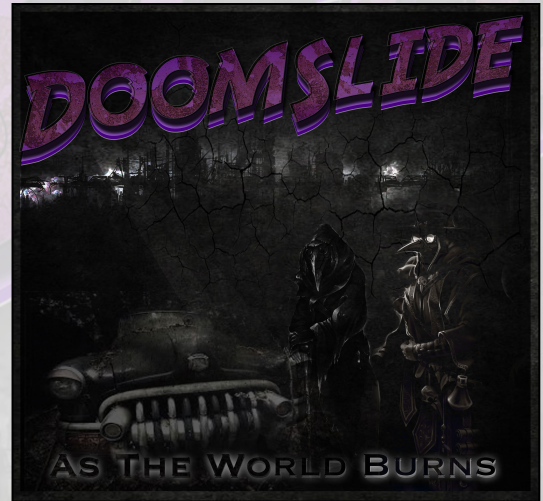

AS THE WORLD BURNS

How The Black Plague Inspired Arguably The Greatest Covers Record In Recorded History!

From the ashes of the **Black Plague** arose a coven of dark-cloaked, masked figments of our imagination know as the **Plague Doctors**, whose premise was to find, contain and dispose of the leprous disease as they saw fit. They succeeded in their efforts as this illness was intended to end civilization, as it was known. But even though it was a time of death, it was also a time of song, as music was the great catalyst for healing the sick and bringing peace to their souls. This mythology was the catalyst for **Doomslide**, as its two mystical healers **Dr. Whyte and Blakk**; both notorious minstrels took it upon themselves to bring wellness to the lives of those whose ears they inhabited.

Thru the physics of time travel and spectral astral projection **Herr Doctors** made their way to modern society whilst retaining their ability to poach others musical creations and inherently make them their own, remember, they are mystics and they dwell in the great unknown. Their research into formerly popular culture songsmiths was vast and in-depth as they came upon X suitable musical pieces that were once popular and still reside in the transoms of mere mortals, but since they trekked thru centuries to entertain and enrich, they decided that an exorcism of the originals was due thus the concept behind the debut opus *As The World Burns*, as a cavalcade of reworked tracks give them new life. No longer will “**You Spin Me Round**” and “**I Want Your Sex**” be relegated to the back of the jukebox but will be front and center for the masses to invigorate their youthful memories or still their current realities.

Doomslide may evoke pagan fires and bleak days ahead but rather they offer a new way for the generation that came before. The only thing stopping you from is how much you’re willing to dance your ass off.
