SEPTEMBER 23, 2022

Even though fans worldwide may already recognize (and even adore) Mark Tuan's voice, face, and name, they'll finally get to know him like never before—now.

In 2022, the singer, songwriter, rapper, producer, model, and philanthropist formally introduces his own sound, style, and spirit as a solo artist. By doing so, he pulls back the curtain and shares the intimate stories of his unbelievable journey thus far from a regular kid in Los Angeles to global superstardom as a member of award-winning K-Pop juggernaut Got7 to stepping out and embarking on what promises to be his biggest, boldest, and brightest chapter yet. Meet Mark Tuan...

"For me, music is a way to say what's on my mind, because I'm not very expressive or open in conversation," he exclaims. "It's a lot easier for me to write my feelings, and hopefully other people can relate. I'm telling my story."

His story begins in sunny Southern California. Among his earliest memories, he recalls listening to music in the car with his dad. When he received his first iPod, he brought it everywhere, loading it up with records by Eminem, blink-182, and more. His childhood would be split between L.A., Paraguay, and Brazil before he attended high school in the L.A. suburb of Arcadia. One day at lunch, a recruiter for world-renowned K-Pop powerhouse invited Mark to try out for an upcoming group. He unassumingly partook in this unexpected opportunity; the group became Got7.

A string of multiplatinum singles and #1 albums followed in Korea with four Top 10 entries on the Billboard World Music Albums Chart stateside, including Flight Log: Turbulence at #1. Out of dozens of awards and nominations at the likes of the Teen Choice Awards and Billboard Music Awards, the guys earned "Best Worldwide Act (Korea)" at the MTV EMA, and Forbes named them on its "Korea Power Celebrity" ranking in 2019. Not to mention, 2020's Breath of Love: Last Piece incited the applause of Teen Vogue, The Line of Best Fit, The Honey Pop, and more.

He has also appeared at multiple fashion shows and linked up with Saint Laurent for a partnership. Plus, he graced the cover of L'Officiel Philippines with supermodel Winnie Harlow. Projecting his voice, he notably dueted with Bibi on "Never Gonna Come Down" from the Official Soundtrack album to Marvel's Shang-Chi and the Legend of the Ten Rings.

At the same time, he teased out his next chapter via fan favorite solo releases such as "last breath," "my life," "lonely," and "save me." The latter tallied tens of millions of streams and debuted at #1 on iTunes charts in 33 countries as well in the Top 10 of the World iTunes Song Chart. Opening up more than ever, he dug deep for this body of work, co-writing everything himself.

"I've been away from home for eleven years," he goes on. "I had a lot of fun with my solo material, because I was more hands-on. I was really bringing my ideas to life. The last year was all about realizing who I am, finding my voice, and working on my art. In Korea, it was a collective project. I've gained confidence in myself, and I know what I want to say for me."

He's speaking loud and clear on the single "imysm." Over stark clean guitar, he confesses, "Now I bleed from the heart 'cause it hurts to lose sleep in the day, in the night, I search for you." Synths surge beneath the hook as his vocals resound with a plea, "And I don't wanna be alone, it's too much. Wherever you are, I miss you."

"I really miss being on stage in front of fans," he reveals. "In Got7, we would always go harder on every tour, and we kept pushing ourselves. I used those feelings of missing the band as a metaphor for a relationship in the song. This stuff is really about the experiences and emotions I had in Korea over the past decade. I'm putting it all into the songs."

As such, he quietly speaks to Asian listeners, especially, beaming out a reminder to embrace yourself without fear as loudly as possible.

"Being an Asian-American in the entertainment business can be hard," he states. "I don't feel the pressure to 'make it' or anything though. Asian cultures are being recognized more, which is amazing. This is a great time for me to do this, because I'm having fun." It's real, and that's why Mark Tuan makes an unbreakable connection.

"I want my music to be relatable when you hear it," he leaves off. "Whenever you're going through hard times, you can go to me and find a song that aligns with how you're feeling. I hope you find comfort in my songs."

NME - "Mark's debut album also acts as a testament to his persistence and ongoing re-emergence as a reinvented version of himself, forged on his own terms."

ALLURE - "Tuan finally gets to feel out and play around with different styles on his own terms."

FLAUNT - "his album is an extended invitation into the tantalizing emotions that, for most artists, can often remain concealed."

Teen Vogue - "However, the oldest member of GOT7 has shown that forging a new path and creating quality art takes planning and patience. When Mark does strike, it's with the intensity of lightning in a silent storm."

Rolling Stone India - "There's a fascinating pattern in Tuan's artistic approach. For many musicians, the cathartic process of writing and performing helps them come to terms with their experiences. Yet for Tuan, creating music that largely resonates with his listeners is his primal focus. Perhaps, this is the reason why fans continue to find solace in Tuan's words whilst patiently waiting for the day his debut solo album makes some big waves."

MOTÖRHEAD

Iron Fist

LIMITED EDITION
40TH ANNIVERSARY
BLACK & BLUE SWIRL VINYL

Release Date: 9/23/22

IRON FIST is repositioned as a vital snapshot of **MOTÖRHEAD** at a crucial period when they found themselves caught in the tornado ignited by success and, in true **MOTÖRHEAD** style, careered into their next phase at such velocity it transcended logic or reason to become this trio's final kamikaze joyride. Forty years later, with fall-out long dissipated and a proper mastering job that avoided it at the time, **IRON FIST** sounds like prime **MOTÖRHEAD** with the gloves and seat-belts off. For sheer velocity, it could be fastest of them all, the ferocious title track earning such an accolade in Kerrang! in its tribute spread to Lemmy after he passed away.

By 1982, punk had been and gone, the new wave of heavy metal sounded squeaky and cliched next to its grubby godfathers and, while still trouncing all opposition, **MOTÖRHEAD** retained that essential ability to laugh at everything, including themselves as they made lightning raids on every sense and orifice with everything cranked to overload.

This **Black and Blue Swirl vinyl** format will be part of the 40th Anniversary campaign of **IRON FIST**.

KILLING THE DRAGON is the ninth studio album by American heavy metal band **DIO**. It was originally released May 21, 2002 and was produced by frontman **RONNIE JAMES DIO**.

DIO stated that the "dragon" of the album title refers to technology. He expressed concern with it threatening society in the future. Dio elaborated that the title track refers to "those who perpetrate injustices and what the world is doing to stop them. In fantasy tales, dragons were notorious for stealing children and feeding them to their babies. During the first part of the song, I sing 'Someone has taken a child.' The second part is about a cruel feudal lord. The third part is about 'electronic serfdom.'" He also expressed belief that the computer has become a god in modern society. "It is a small god with an electrical heart ... It is time to rebel against it."

PROJECT OVERVIEW

Chris Renzema, affectionately known as Renz to his friends, is the textbook definition of unassuming. With kind eyes and a soft-spoken voice, he's immediately warm and friendly, at ease in himself in a quiet way that's a little bit mystery, a little bit careful observer. While many artists have to work at giving off the same affable vibe, Renzema comes by it honest, which is perhaps the key to his simmering success.

After teaching himself to play guitar and write songs while in high school, Renzema got the opportunity to record some of his music at a hometown studio in Grand Rapids, MI. That first EP, *Age to Age*, quickly took on a life of its own as his song "You're the Only One" was chosen for a feature in *Worship Leader* magazine. He followed up that EP by recording a full album, *I'll Be the Branches*, which included "How to Be Yours" and "You're the Only One," both of which have racked up over 5 million streams. All of Renzema's current success has happened without any radio play or major marketing campaigns. It's been through organic word of mouth, person to person, exactly in line with who Renzema is, both as an artist and a person.

After releasing a debut record from Centricity Music, Renzema's songs are acoustic at heart, shifting seamlessly from indie rock to folk worship to Americana; gritty but accessible, profound but infinitely listenable with a voice that yearns like a desert island man singing for a cup of water. It's bone deep, an echoing of the universality of pain and praise.

Renzema's early groundswell continues to surprise as he's selling out shows and tipping the streaming scales with over 1,000,000 monthly listeners. Fans are flocking to his unwavering authenticity, to his message of real-life hope. This second release (and first from Centricity) "Get Out of the Way of Your Own Heart" gives fans exactly what they've come to expect from Renzema - soul-stirring music with an earnest, drowning-man vocal singing about a hope that cuts through life's inevitability.

Overview:

Venom are an English extreme metal band formed in 1979 in Newcastle upon Tyne. Coming to prominence towards the end of the new wave of British heavy metal, Venom's first two albums—Welcome to Hell (1981) and Black Metal (1982)—are considered a major influence on thrash metal and extreme metal in general. Venom's second album proved influential enough that its title was used as the name of the extreme metal subgenre of black metal. The band classic line-up trio of Cronos, Mantas and Abaddon recorded two further studio albums At War With Satan (1984) and Possessed (1985) and live album Eine Kleine Nachtmusik (1986). Often cited by bands such as Metallica, Behemoth, Celtic Frost and Mayhem as major influences, they are one of the most revered bands of their generation. Venom are still fronted by original singer/bassist Cronos and headline festivals all over the globe and continue to release new music. In Nomine Satanus is a celebration of the band's formative years, containing all the classic line-up albums and an album of previously unreleased demo songs that dates back to 1979 when they formed.

MORITZ VON OSWALD TRIO

DISSENT

REMIXES

Last year's album, *Dissent*, from the **Moritz von Oswald Trio** saw the band release its most Jazz-centric release since its inception in 2008. New recruits in the form of experimental musician **Laurel Halo** and drummer **Heinrich Köbberling** brought fresh perspectives and processes as they continued the exploration of the spaces where Dub, Jazz, and Techno interact.

Dissent Remixes restores balance to these three elements as three generations of producers working in the sphere of Dub and electronic music reinterpret **Chapters 2, 4, and 6** from the album, adding new texture and rhythms.

All three, very different, remixes form a cohesive whole highlighting the breadth of influence that Jazz and Dub have had on modern electronic music.

As if to highlight the new-found dimensions that these works have eked from the source material, the collection's artwork is a revision of *Dissent*'s front cover but with the original's monochrome pointillism is taken full technicolour as primary colors are ordered into stripes which run in and out of phase creating a beautiful yet slightly unsettling image.

KILL THE BEAUTIFUL

For fans of....

Dio, Black Sabbath and Hard Rock!

Scream Taker is a brand new outfit fronted by **Buffalo Music Hall of Fame** vocalist **Jim Crean**, alongside French guitarist **Steph Honde** (*Paul Di'Anno, Hollywood Monster*), and legendary drummer **Vinny Appice** (*Dio, Black Sabbath*).

The three musicians have created a classic hard rock album in the vein of **Dio**, which is no surprise as **Vinny Appice** is one of the founding members of the original Dio band and currently working in Last In Line alongside **Dio** alumni **Vivian Campbell** (*Dio, Whitesnake, Def Leppard*).

'**Kill The Beautiful**' unleashes 11 original songs including standout tracks "**Stone Cold**" and "**Shattered Mirror**". **Jim Crean** gives an outstanding vocal performance only matched by **Vinny Appice's** signature drumming. This is a must have for fans of any of their previous work.

Jim Crean can also be seen fronting the **Appice Brothers** with **Vinny Appice** and his legendary drumming brother **Carmin Appice** (*Vanilla Fudge, Ozzy Osbourne, etc...*).

Scream Taker hopes to do select dates towards the end of 2022 following the release of their debut album '**Kill The Beautiful**'. The first single and video for "**Stone Cold**" will be out on August 26th.

Stranger On The Sofa

(Limited Edition Red Vinyl)

Street Date: 9/23/2022

Mute is excited to announce the reissue of Barry Adamson's *Stranger On The Sofa*, out September 23rd on limited edition double red vinyl and CD. Never before available on vinyl, this new edition includes printed inner sleeves and a high definition download code.

Originally released in the mid-2000s, *Stranger On The Sofa* is an album tied together by its mysterious cinematic composure. Each track is used to demonstrate the breadth of musicianship and re-presentation of countless timeless genres, moving in between electronica and jazz with shadowy ambience scattered throughout.

Nick Plytas and Adrian Owusu provided their expertise on the organ and slide guitar, with Barry playing almost every other instrument. Composing, performing, recording and producing *Stranger On The Sofa* undoubtedly makes it an album that represents Adamson fully embracing the DIY aesthetic from where he began.

Limited edition reissues of *I Will Set You Free* and *Know Where To Run* are set to follow later this year.

Back To The Cat

(Limited Edition Clear Vinyl)

Street Date: 9/23/2022

Mute is excited to announce the reissue of Barry Adamson's *Back To The Cat*, out September 23rd on limited edition clear vinyl and CD. The vinyl features a spot gloss jacket and a high definition download code.

Originally released in 2008, *Back To The Cat*, was in keeping with the artist who developed the concept of the imaginary soundtrack, with every song building a compelling narrative around Barry's lifelong investigation of identity, sexuality, race, spirituality and society. The record picked up the threads of his previous work and continued to showcase his musical ambidexterity covering noir jazz, sun-drenched pop ballads, fractious funk, heavenly blues and subversive soul.

Limited edition reissues of *I Will Set You Free* and *Know Where To Run* are set to follow later this year.

PRAISE FOR BACK TO THE CAT:

"Back to the Cat is one of his most pop-friendly records, emphasizing compact, melodic songs that still bear the mark of his twin senses of humor and the macabre." - Pitchfork

"The music is alive and bursting from the seams with an isometric decahedron of tunes and good ideas..." - PopMatters

"This, his eighth solo album, initially sounds as though it was made for film buffs as much as music fans, but it soon reveals itself as a musical compendium." - The Guardian

Right Before Your Eyes

"This record is a whole world unto itself," says singer/multi-instrumentalist **Cat Colbert**, one half of the daring new LA duo **ALAIN ZANE**. "There's all these different characters with all these different perspectives: the forlorn lover, the lonesome criminal, the omniscient narrator. All the players are there, all coming together in this symphony of souls."

When it comes to **Right Before Your Eyes**, **ALAIN ZANE'S** bold and ambitious debut, soul is the operative word. Recorded, assembled, and in some cases dramatically reimagined by producer/DJ/multi-instrumentalist **Ethan Browne**, the music is slick and groove-driven, mixing the old school R&B and funk of **Roy Ayers** or **Grover Washington** with the more modern flair of **D'Angelo** or **Maxwell**.

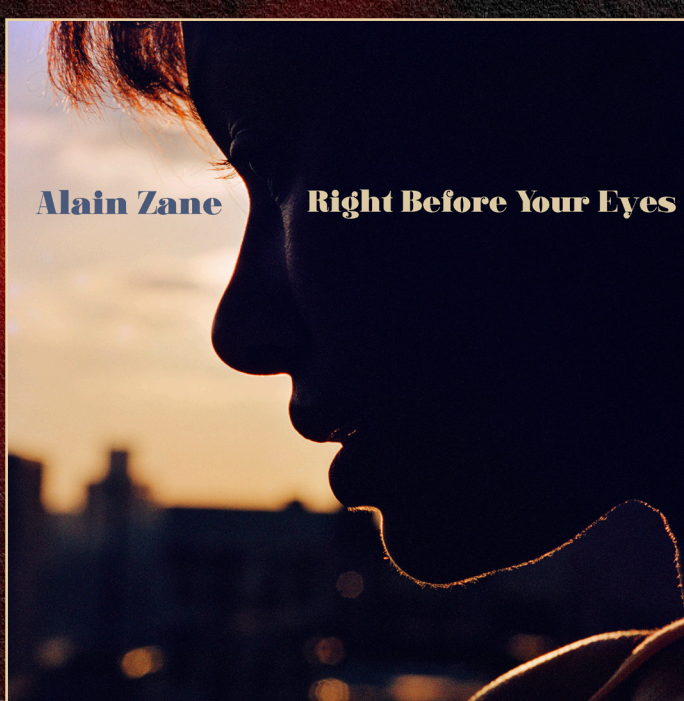

Browne and **Colbert** write about love from every angle on the album, examining the dizzying highs of infatuation along with the devastating lows of heartbreak and the fundamental need for connection that ultimately drives us all. The result is an adventurous hybrid of genres and eras fueled by empathy and imagination, an intoxicating collection that tips its cap to everything from **Blackstreet** and **The Delfonics** to **Marvin Gaye** and **Stevie Wonder** as it reckons with pain and ecstasy, fear and commitment, isolation and communication.

RIGHT BEFORE YOUR EYES by **ALAIN ZANE** will be available from **Spinside Records** on **September 23**.

With **Monster Truck's** fourth full-length album **Warriors**, the band (bassist and lead singer Jon Harvey, guitarist Jeremy Wideman, keyboardist Brandon Bliss, and former drummer Steve Kiely), take their signature, riff-driven brand of rock to new heights and bombastic lows. With blazing shared riffs, massive gang vocals, and an 'all for one, and one for all' spirit, 'Warriors' reads like a mission statement, one that telegraphs the tireless work ethic **Monster Truck** has displayed since starting out in 2009, as well as where they're at and where they're heading, sonically, in the future.

UNITY IS STRENGTH

Release Date: 9/30/22

A collection of powerful songs from across the Trojan catalogue, calling for unity and solidarity.

TROJAN RECORDS played a pivotal role in bringing Jamaican music to the UK and Europe; not only did it provide comfort and a sense of home for the Caribbean community living in the UK, but it also became an outlet for many thousands of white, working class youths, drawn to the exciting new sounds of reggae. This in turn created a new youth subculture within the UK.

Trojan became more than a music label, it also brought people together through culture, style and fashion. For the first time, people of all races and creeds would unite in the dancehalls, and friendships blossomed because people shared a common love for one thing—the music.

This collection of songs communicates an intergenerational, international story that, on the one hand, elucidates the black experience; on the other, repeats the call for us all to come together in unity.

Diamond Head are of seminal importance to heavy metal music, and their debut album **Lightning To The Nations** is a key influence on the genre. Silver Lining Music is therefore proud to present **Lightning To The Nations (The White Album) [Remastered 2021]**, the ultimate version of this ultimate album, featuring not only the original album from ½ inch master tapes discovered in founder **Brian Tatler**'s archives, but also alternative mixes of classic cuts "**Lightning To The Nations**", "**The Prince**", "**Sucking My Love**", "**Am I Evil?**" and "**Sweet And Innocent**" never publicly released (or heard) before. There is also brand-new cover artwork based on an idea **Brian Tatler** had to show a character referred to as 'The Lightning God'.

The original tapes were first quite literally baked (a process which allows degraded tape to be returned to playable quality), then restored and digitized before **Diamond Head** frontman **Rasmus 'Ras' Bom Andersen** remastered the tracks, ending up with a pristine edition of the original recordings. The alternative mixes, pure treasure for all fans of both **Diamond Head** and the New Wave of British Heavy Metal, are supplemented by a set of bonus tracks originally recorded in 1980s, and rounding-out this ultimate edition are a set of deep and detailed notes on both the era and each song by **Brian Tatler**.

Lightning To The Nations (The White Album) [Remastered 2021], will be released as a double CD, a deluxe 180 gms gatefold triple-vinyl edition containing the original album remastered, the lost mixes and the bonus tracks. There will also be a single vinyl edition of just the remastered album, also on 180 gms.

"We wrote instinctively," says **Brian Tatler** in his notes, "we had an undeniably unique sound. Four young lads, each with an element that, when combined, produced an alloy that was our own heavy metal sound." **Lightning To The Nations (The White Album)** remains an indispensable alloy for any set of self-respecting hard rock ears.

Description:

After 40 steamrolling, liver wrecking, gut stretching years in the name of heavy metal, the **Tankard** beer train isn't slowing down. Right in time for the festivities surrounding their 40th birthday, our most favourite Frankfurters let "**Pavlov's Dawgs**" off the leash, their 18th overall record and debut for new label amigos **Reaper Entertainment**. Produced and recorded at **Gernhard Studio Troisdorf** again together with **Martin Buchwalter**. The taps are polished, the Freibier is flowing and **Tankard** are finally back to what they do best five long years after their last studio album: Thrashing madly, drinking thirstily and ever so cleverly intertwining metal, humour and sarcastic social commentary into one big raucous ball of entertainment. Just like they did all these years ago in a classroom where they drank beer out of emptied milk cartons. All hail **Tankard**. All hail the dawgs. The world is a better place with capital guys like them waiting at the bar.

Mute is excited to announce Yann Tiersen's new album **11 5 18 2 5 18**, out September 30th on limited edition double clear vinyl with etching and embossed sleeve. This follows the June 10th CD and digital release.

Reprogrammed, resampled and reimagined, **11 5 18 2 5 18** is a collection of 9 tracks that serve as a translation of Tiersen's live show, taking songs from his 2021 release *Kerber* plus additional tracks from his catalog, completely restructured to present a brand new album. With a mesmerizing mix of piano patterns, swirling electronics and dancefloor-ready grooves, these songs continue an exciting new chapter in his career.

ALBERT BOUCHARD

IMAGINOS 2 – BOMBS OVER GERMANY

(minus zero and counting)

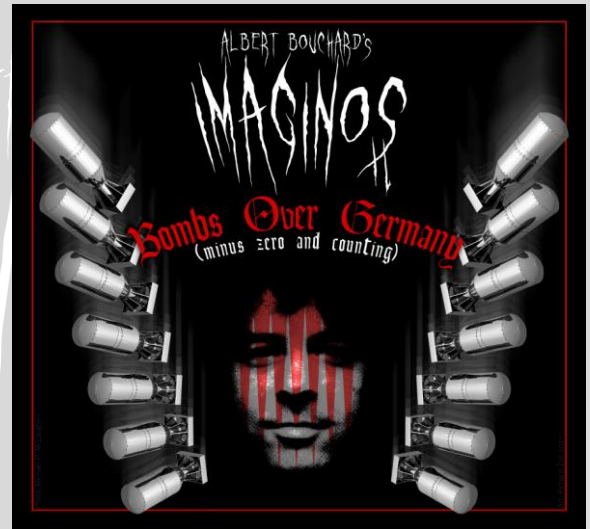

For fans of Blue Öyster Cult, Blue Coupe, and Classic Rock!

Albert Bouchard is best known as one of the founding members of **Blue Öyster Cult**. The original band sold millions of albums for **Columbia Records** with such classic songs as “**Don’t Fear the Reaper**” and the #1 hit on the Billboard Mainstream Rock chart “**Burning For You**”.

As a songwriter, he wrote many **BÖC** songs including the very popular “**Astronomy**” (which was covered by **Metallica** on their 1998’s release **Garage Inc**) and the live staple “**Cities on Flame with Rock and Roll**”, which he also sang lead vocals.

“**Imaginos 2 – Bombs Over Germany (minus zero and counting)**” sees Albert continuing the Trilogy of **Imaginos**, a concept album about an alien conspiracy that is brought to fruition during the late 19th and early 20th century through the actions of **Imaginos**, an agent of evil. The album weaves scripts and poems by the late **Sandy Pearlman**. It features guests **Ross The Boss (Dictators)**, **Joe Cerisano (Silver Condor, TSO)**, and reunites original **Blue Öyster Cult** members **Eric Bloom, Donald “Buck Dharma” Roeser** and **Joe Bouchard**, as well current BOC member **Richie Castellano**, who all contribute to this latest installment. The album also features reworks of classics like “**Cities on Flame with Rock and Roll**”, “**The Red and the Black**”, and “**Dominance and Submission**”.

Due to the overwhelming response to **Imaginos II**, we are now releasing a Double LP gatefold version which includes an extended version of “**Independence Day**”, plus the bonus “**When War Comes (Instrumental Mix)**”.
