SUMMARY

Kvelertak is the gold standard in punked-up, black metal-adjacent, classic rock-worshipping extreme music. The band described by Revolver as “blackened rock and roll party beasts,” with their triple-guitar harmonies and heaps of lyrics written in their native Norwegian, is truly unlike any other.

Songs like “Crack of Doom,” “Bråtebrann,” “1985,” “Mjød,” and “Blodtørst” are modern metal classics. In contrast with the self-seriousness of many contemporaries, Kvelertak’s music is fierce and fun. Tracks summoned on their brilliant new album, Endling, will undoubtedly become as beloved, from “Krøterveg te helvete” to “Skoggangr,” “Svart September” to the album’s astounding title track.

ABOUT

The musical chemistry of Devon Portielje, Conner Molander, and Dylan Phillips is a continued source of wonder, even to the band, and even now - a decorous decade on. Half Moon Run's collaborative power has remained constant and unsuppressed and their new album Salt sees them revisiting the site of their bond's first forging, bringing visions to light that've been there in waiting since the beginning.

Driven by the singles 'You Can Let Go' and 'Alco', Salt is a broad and sweeping statement from a band at the height of their compositional powers. The gestation period of the songs here spans the history of the band, in an assemblage of the band's newest and oldest ideas, in juxtaposition and in alliance, the past and future at once.

THE GLORIOUS SONS

The Glorious Sons have resolutely manifested all of rock ‘n’ roll’s most positive principles from their very start – creativity and adventure, passion and truth, energy and expression, individuality and spirit of community. Now, after a four-year journey fraught with multiple stops and starts, the Kingston, ON-based band returns with *Glory*, an album co-produced by Brett Emmons and Frederik Thaae, that fully captures the depth and breadth of their vast artistic vision. Fired by a remarkably vivid sonic approach and raw, heartfelt lyricism, stellar new songs bum bright with incandescent emotional truths that are somehow both deeply personal and wholly universal.

Founded in 2011 by Jay Emmons and Adam Paquette, and joined shortly thereafter by vocalist Brett Emmons, The Glorious Sons immediately caused a commotion with their immense ambition and impassioned songcraft, unleashing three studio albums that earned them two #1 Rock airplay smashes in the US and thirteen consecutive top 10 Rock radio hits in Canada. 2014’s debut album, *The Union*, affirmed their breakthrough success with a prestigious JUNO Award nomination for “Rock Album of the Year,” fueled in part by such singles as “Heavy,” “Lightning,” and “The Contender,” the latter of which proved the band’s first ever #1 at Canadian Rock radio.

Like any rock ‘n’ roll band worth its salt, The Glorious Sons have spent a great deal of their existence on the road, from headline tours, support runs, and showstopping festival sets to three unforgettable stadium shows supporting The Rolling Stones and more recently, a top-billed appearance alongside Pearl Jam in London, England’s Hyde Park. The global pandemic changed all that of course but at least allowed the band a chance to step back and assess what they’d accomplished thus far. The Glorious Sons are back on the road this Fall with *The Glory Tour* hitting 57 cities across North America.

From their very start, The Glorious Sons have achieved the near impossible by sounding both familiar and unprecedented, offering a bold new idea of what it means to be a rock ‘n’ roll band in the modern era. Now, with *Glory*, The Glorious Sons have pushed themselves to the brink to create something meaningful, true, and undeniably their own.

JONATHAN WILSON

EAT THE WORM

Release Date: September 8, 2023

OVERVIEW

MEET **EAT THE WORM**, the brilliant and refreshing fifth studio album from the acclaimed artist, producer and multi-instrumentalist polymath wizard **JONATHAN WILSON**. A singer-songwriter, producer, recordist, arranger, player, vibe maestro, community builder, musician's musician, and true sonic architect, on par with the finest of his generation. It is fitting that he made his best album when he decided to stop trying so hard, as he is a true natural.

Wilson's creative life began in the early Eighties when he was growing up in a small North Carolina town, playing the piano and organ at his grandfather's Baptist church and soaking up the area's rich musical heritage. Along the way, he had success in the late Nineties with his rock band Muscadine (the late Seymour Stein himself signed them to his label Sire Records), after whose break-up he relocated to Los Angeles and quickly became a fixture of its local music scene.

In the 2000s, while working as a luthier, making highly in-demand custom guitars, he began holding now-legendary jam sessions at his then-home in Laurel Canyon: guests included everyone from members of Tom Petty, Wilco, the Cars, the Black Crowes and Bright Eyes' Conor Oberst, among many other Wilson collaborators.

He started releasing solo albums in 2007, and quietly built an acclaimed catalog of independent albums including 2013's *Fanfare*, 2018's *Rare Birds* and 2020's *Dixie Blur*. "It sounds crazy because I've been at this for more than twenty years, but this is the first time I really feel like I found my thing—it's kind of a trip that it took this long," says Wilson. "For this album, I wanted to break out of any and all comfort zones I may have lapsed into as a writer, narrator, producer, or player."

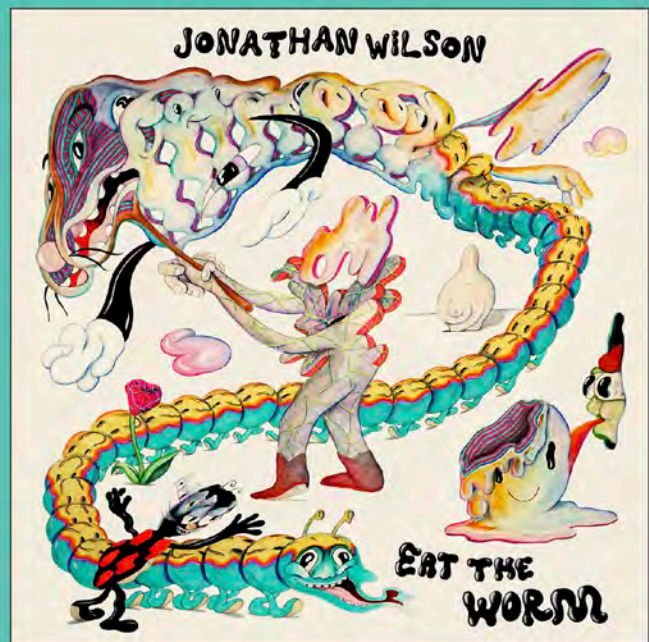

"A lot of this batch of songs is a reaction to the production stuff that I do," Wilson says of the new album. "I would be in the studio, doing long days with folks, and I'll have some wild off-the-wall ideas and they're like, 'no, no, no, that sounds crazy, JW. So I would save it up for my album. I'm finally at a place to feel totally free to take chances and resist the urge to dumb things down. It's got to be kind of strange.'"

SUPER FURRY ANIMALS PHANTOM POWER (REMASTERED)

Release Date: 9/8/2023

Overview:

SUPER FURRY ANIMALS were one of the first post-alternative bands, fusing together a number of disparate musical genres – including power pop, punk rock, techno, and progressive rock – creating a shimmering, melodic, irreverent, and wilfully artsy rock & roll.

Produced by the band, **PHANTOM POWER** keeps a much lower profile than the band's previous work. The album for the most part, is awash with pedal steel, acoustic guitars and vocal harmonies. But if you think the creative juices have ceased, you could barely be more wrong.

Gruff Rhys' songwriting moves a step forward on *Phantom Power*, with playful story-based lyrics about turtles, mingers, ninjas and cabbages contrasting with lines about death, radiation and war.

This **2LP Heavyweight Deluxe Reissue** has been beautifully remastered from the mixdown tapes and includes liner notes from the album executive producer Kurt Stern.

If you need more Super Furrries, the remastered album is also available as a **3CD format, with two extra CDs** packed full of bonus material, including out-takes, demos, and live version.

COREY TAYLOR

"I have no fear when it comes to music. None," **Corey Taylor** declares. "It feels so good to really lean into the things that I've been chomping at the bit to do." Those "things"? The 13 diverse, unforgettable songs on **CMF2**, ranging from the punchy, timeless first single "**Beyond**" to "**Someday I'll Change Your Mind**," a soaring, sentimental stunner with an infectious chorus. The songs move seamlessly from the punk rawness and anthemic rallying cry of "**We Are The Rest**" to the acoustic lament "**Breath Of Fresh Smoke**" to "**Post Traumatic Blues**," which has a wild sensibility that echoes the lyrical topic of PTSD.

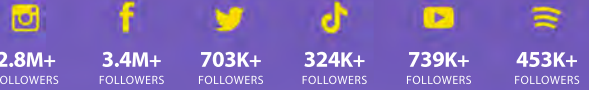

Leaving no creative stone unturned, **CMF2's** cover is as striking as the songs. It nods to *Sgt. Pepper's Lonely Hearts Club Band*, with colors so vivid "you can see them from space," Taylor says with a laugh. The purple is an homage to Prince, a major Taylor inspiration, the cavalcade of Coreys an homage to his myriad of musical lives.

Uncompromising, unfiltered, and undeniable in any arena, **Corey Taylor** continues to impact culture as the frontman for both **Grammy** Award-winning multi-**Platinum** juggernaut **Slipknot** and **Platinum** rock force **Stone Sour**. Taylor is a *New York Times* best-selling author as well as an actor with a myriad film and television credits. Impacting generations of fans and peers alike, his voice has rallied millions of fans across the globe. Globally Slipknot boast 13 **Platinum** and 44 **Gold** albums, three of which debuted at **Number One** on the **Billboard 200** (*All Hope is Gone*, *.5 the Gray Chapter*, and *We Are Not Your Kind*).

With two Gold-certified albums and six multi-Platinum, Platinum, and Gold singles, Stone Sour have notched five Top 10 debuts on the Billboard 200 chart.

In 2020, Taylor successfully raised over \$300,000 USD for Direct Relief in support of its COVID-19 response efforts, auctioning 13 signed and handpicked guitars from his personal collection (eBay hosted the auctions and matched the funds raised). He went on to launch the non-profit **Taylor Foundation**, which aims to support and uplift military veterans and emergency personnel living with post-traumatic stress disorder (PTSD).

Recently, Taylor acquired the rights to the beloved **Famous Monsters** brand, relaunching its magazine, toys, horror film, and hosted festivals.

BARONESS

STONE

Grammy-award nominated heavy rock band Baroness mark their much-anticipated return with new album, **STONE**. Their sixth record overall and third released via Abraxan Hymns, *STONE* finds the Philadelphia-based quartet of John Baizley (guitars/vocals/illustration), Gina Gleason (guitars), Nick Jost (bass), and Sebastian Thomson (drums) streamlining the momentous multi-genre vocabulary of its critically-acclaimed predecessor *Gold & Grey* (2019). This is still very much Baroness—just refocused for efficiency and rethought as a consequence of stability. *STONE*'s most prominent tracks, “Last Word,” “Beneath the Rose,” “Shine,” and “Anodyne,” reflect thoughtfully, groove deeply, and refract tumult effortlessly.

While Baroness wrote *STONE*, Baizley recorded and pre-mixed it. After the group finished tracking drums, guitars, and bass, they took everything back to Baizley's unfinished basement - where parts of *Gold & Grey* were also recorded—in Pennsylvania to put down the vocals and add other bells and whistles. *STONE* was then handed off to Grammy-nominated mix master Joe Barresi (Kyuss, Alice In Chains) for final mixing and polishing and Grammy-winning mastering guru Bob Ludwig (Led Zeppelin, Nirvana) at Gateway Mastering Studios.

The LP is housed in a heavyweight printed inner sleeve insight of a spot UV gatefold jacket with black flood and a four-panel lyric booklet. All artwork by John Dyer Baizley. The CD is housed in a six panel wallet with a four-panel lyric booklet. All artwork by John Dyer Baizley.

The cassette is light blue with a j-card. All artwork by John Dyer Baizley.

The deluxe CD includes six live tracks taken from the band's By Request tour in 2022.

Baroness received a GRAMMY® Award nomination for the song “Shock Me” (from the 2015 album, *Purple*) in the “Best Metal Performance” category. *Purple* saw worldwide praise with Pitchfork saying it features “some of the biggest, strongest songs Baroness has ever written” and Mojo proclaiming “Baroness have delivered their masterpiece.” The album received numerous year end accolades including “Shock Me” at #10 on Entertainment Weekly's Top 40 Songs of 2015, #6 on Pitchfork's Best Metal Albums of 2015 and #7 on Rolling Stone's 20 Best Metal Albums of 2015. The band's catalog of studio albums is: *Gold & Grey* (2019), *Purple* (2015), *Yellow & Green* (2012), *Blue Record* (2009), *Red Album* (2007)

The band will be announcing a North American tour for the fall when they announce the album on June 20.

HeadCat is an American rockabilly supergroup formed by vocalist/bassist Lemmy (of Motörhead), drummer Slim Jim Phantom (of The Stray Cats) and guitarist Danny B. Harvey (of Lonesome Spurs and The Rockats).

The band was formed after recording the Elvis Presley tribute album by Swing Cats A Special Tribute to Elvis in July 1999 to which the future bandmates all contributed. After recordings were finished they stayed at the studio and Lemmy picked up an acoustic guitar and started playing some of his old favorite songs by Johnny Cash, Buddy Holly, and Eddie Cochran. The rest of the guys knew them all and joined in. The name of the band was created by combining the names Motörhead, The Stray Cats, and 13 Cats, which resulted in Headcat. In 2006, the band released their first studio album on June 27, Fool's Paradise. It included cover songs from artists such as Buddy Holly, Carl Perkins, Jimmy Reed, T-Bone Walker, Lloyd Price, Elvis Presley, and Johnny Cash. On the recordings, Lemmy played acoustic guitar. In later years, Lemmy began to use his signature Rickenbacker bass in live performances.

Live In Berlin is a previously unreleased live concert which was recorded at the Huxley's in Berlin, Germany on 18th October 2011. It was produced by the band and mastered by guitarist Danny B Harvey. The CD features extended sleeve notes based on interviews with Danny B. Harvey and Slim Jim Phantom.

YANN TIERSEN
KERBER COMPLETE

YANN TIERSEN

Kerber Complete

(CD Box Set)

Street Date: 9/15/23

Mute is excited to announce the final piece of Yann Tiersen's *Kerber* project, *Kerber Complete*; a 4CD box set including a brand new solo piano version of *Kerber*, the original album, *Kerber Remixes* with bonus material, and Tiersen's live translation of *Kerber*, *11 5 18 2 5 18*. Out September 15th, this special 4CD set is packaged in a clamshell box with individual card sleeves for each album and a booklet.

Kerber was initially released in 2021 and was very much a new chapter in the Breton artist's work. Although there was piano at the core, the album was the most overtly electronic material he had presented to date. This was followed up by *Kerber Remixes* (a 12" of remixes from Terence Fixmer, Beatrice Dillon, Laurel Halo, Iku Sakan and remix competition winners) and *11 5 18 2 5 18* (a record of reprogrammed, resampled and reimagined tracks from *Kerber* and additional tracks from his catalog that serves as the perfect insight into Tiersen's live interpretation of the original album).

This CD box set adds a number of new additions to the *Kerber* story. This includes *Kerber (Solo Piano)*, an album of the original piano parts that Tiersen wrote in spring of 2020 which initiated the whole process of creating the original record. It also offers *Kerber Remixes* on CD for the first time. This version features a new Terence Fixmer remix of "Ker al Loch," a variety of Yann Tiersen's remixes of tracks by NEU!, Keeley Forsyth, Michael Price, and Simon Fisher Turner and Edmund de Waal, as well as a brand new song titled "Nivlenn."

This will be released alongside *Kerber - The Film*, which was a unique performance of the album initially available via LIVENow. It takes the audience on a visual and sonic journey across the island of Ushant, giving the full project a true sense of place.

SASS JORDAN

LIVE IN NEW YORK

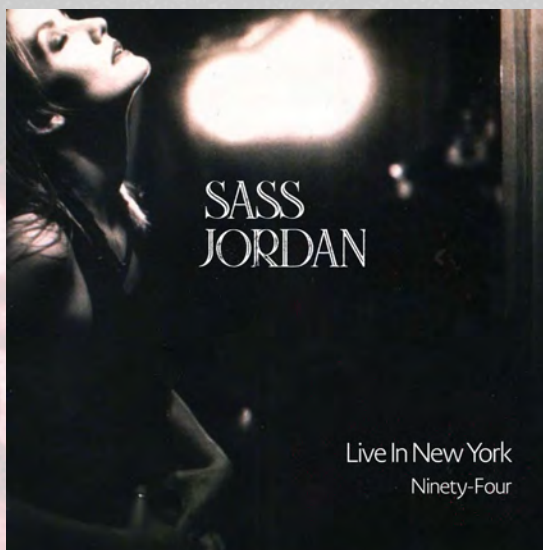

NINETY-FOUR

For fans of **Sass Jordan, Alanis Morissette, Foo Fighters and Classic Rock!**

Sass Jordan's breakthrough album, **Racine**, was released in 1992 and yielded the Canadian hit singles "**Make You a Believer**," "**I Want to Believe**"--both ranked on Billboard magazine's Mainstream Rock chart. In 1994, Jordan released **Rats**, which yielded her first song on the Billboard Hot 100 with the single "**Sun's Gonna Rise**," and also featured "**High Road Easy**." In 1992, Jordan recorded the duet "**Trust in Me**" with **Joe Cocker** for the motion picture **The Bodyguard**.

Jordan is now releasing **Live in New York Ninety-Four**. The show was recorded at the South Street Seaport in NYC during the 1994 Rats tour. The band at that time, along with Jordan, consisted of **Tony Reyes** (bass, vocals), **Taylor Hawkins** (drums, vocals), **Nick Lashley** (guitar), and **Stevie Salas** (guitar). The album features killer versions of classics like "**Make You a Believer**", "**High Road Easy**" and "**You Don't Have To Remind Me**" and included never before seen photos from the 1994 Rats tour taken from Jordan's personal collection.

Jordan shares, this is a celebration of the early days in the career of Hawkins, future **Foo Fighters** drummer. Jordan says, "As we hit the milestone that marks one year since Taylor left us, I wanted to do something to honor his memory--a recognition and appreciation for his glorious, big, beautiful energy--which lives on through this recording and in all of our hearts."
